

"Saves Fuel and Labor"

Pease PIPELESS FURNACE

It is very much the rule rather than the exception for Pease Pipeless Furnaces to be recommended by users. We constantly receive letters such as the following from M. John L. Mathieson, Lot 24, Ebenezer, P. E. I.

"We are pleased to advise that the Pease Pipeless Furnace has given every satisfaction. We find it a great comfort to use. Since we installed it it has saved us a lot of fuel also a great deal of labor. We certainly recommend it to our friends and think that next winter there will be a good many of these furnaces put in."

Ask us to explain the many exclusive features of this furnace which save labor, give fuel economy and the comfort of clean, uniform heat throughout the house. Tenders glad to submit.

I. O. D. E.

The regular monthly meeting of Royal Edward Chapter I. O. D. E. was held in the rooms of the chapter in the Navy League Building on Monday afternoon at 3 o'clock, Regent Mrs. J. E. B. McReady presiding. Secretary's minutes of last meeting were confirmed and treasurer reported a satisfactory bank balance—the proceeds from the sale of the Alexandra Roses being larger than that of preceding year. Payment outstanding bills was authorized and a vote of \$25 passed towards work of the Order in India. It has become necessary to enlarge the St. Helena's school at Poona, India. The old building had in its 25 years of service become altogether inadequate to the demand of the ever growing number of boys and girls from the many different communities, Parsees, Hindus, Mohammedans, Jews and English who come together in pursuit of the opportunities offered there and nowhere else in a great expanse of territory.

The following report was read by the secy of the joint meetings of the executive of Abegweit Chapter of Summerside, and Royal Edward chapter, Charlottetown.

The members of the executive of Royal Edward Chapter, were the guests of Abegweit Chapter, Summerside, on Saturday, Sept. 28th at 1:30 o'clock. The luncheon hour was followed by an informal business meeting of the joint executive presided over by the Regent of Abegweit chapter—Miss Hunt. In a few gracious words Miss Hunt expressed the pleasure she felt to be a mutual one, of the members of the committee in this meeting to discuss matters of common interest and importance, handicapped as the Daughters of the Empire are in Prince Edward Island, in having no provincial chapter. She announced that since the winters work had but just started, they had had scarcely time to arrange a schedule, which might have contained subjects for discussion, but she felt that the meeting would be distinctly worthwhile since they had been fortunate enough to secure Mr. Nathaniel White, the I. O. D. E. Overseas Scholar for the past two years to tell us something of what this Scholarship had meant to him.

Mr. White expressed himself as being glad to have this opportunity of voicing his appreciation of a really glorious year—two years which really reformed his whole mental attitude, giving him new standards and distinctly right standards of mental outlook on all life's contacts, perhaps especially community life (and that is most important to us as members of I. O. D. E. because these scholarships have as their main objective the furthering of Empire schemes). Mr. White said it was absolutely impossible to estimate the benefit of these two years—even the direct benefit of his education in his chosen subject—law—was beyond his power to estimate, and the indirect benefits were incalculable. Referring to the direct benefit along educational lines he glowingly described Oxford as a community indescribable, containing 28 colleges each with its own staff of lecturers, the final goal of scholastic ambition, the mecca of the world's greatest students which should be a matter of gratification to those responsible for the extension of the scholarship into the two year's duration. After the first vacation, things were much easier; perhaps because the difficulty at first consisted in the unreal attitude towards work—arrangements for tutors, etc., seemed to be so casual, made over the tea table; the reason being that Oxford is not a place to go to college for the purpose of cramming knowledge but to absorb 2 years of cultured living. One worked under a tutor and sent in one weekly essay; the student had the opportunity of attending classes in any college other than the one to which he was attached, if he was interested in any particular lecturer.

and he was afforded the opportunity to hear such men as Lord Birkenhead, Winston Churchill, Ramsay MacDonald and many of the greater minds of the age from an Imperial standpoint, besides outstanding men from universities on the continent.

Referring to sport, which is an important part of university life—a very important part because the student who can hold up his own end in any line of sport, has an open sesame to all social life. Mr. White was able to make the Oxford ice hockey team of whose nine members eight were Canadians. The team travelled on vacations working a few hours every two or three days, receiving wonderfully enthusiastic treatment in each city where they played—the list including Antwerp; Brussels; Berlin; Munich; Vienna; Budapest, etc. Their vacations were three and three working terms. The overseas students used their vacations to become acquainted with England and its people. In this regard Mr. White referred to the work of the Victorian League (in affiliation with the I. O. D. E.) and of Lady Francis Ryder who arranged schedules of visits for the students with people of influence and importance—people whom they would be most unlikely to meet in any other way. Mr. White mentioned that Lady Ryder's family had South African connections, and in sympathy with the work of Rhodes who had been a family friend. Read from a communication received from this lady who devotes her time to this work co-operating with the Victoria League, and the schedule for his vacation as arranged for him, and mailed to him contained a list of engagements showing an attention to detail requiring time, and great ability. It was shown that through these influences I. O. D. E. students and Rhode Scholars are given opportunities which could not be gained in any other way—such as the meeting arranged with a noted M. P. who personally conducted them through the famous buildings of London, where robes of office and all things interesting were displayed for their benefit.

Mr. White spoke of the financial side, could not manage under \$2000 per year (of which \$1400 is supplied by I. O. D. E. and he gave detailed account of expenditure.

In closing Mr. White said that he could only repeat that he could not voice his appreciation of these two wonderful years, so that all he could say was again "thank you."

At the close of this most interesting talk, Mrs. J. A. Mathieson voiced the sentiment of all present in moving a vote of thanks that the speakers very evident appreciation of the opportunity conveyed through his I. O. D. E. scholarship was intensely gratifying to his hearers making us feel as perhaps nothing else could in such measure how extremely well the memorial fund serves the purpose for which it was intended. The vote of thanks was supported by Mrs. MacCreedy who included a vote of thanks to Abegweit chapter for the opportunity afforded us of hearing Mr. White, and said she wished that Royal Edward Chapter had been privileged to have heard the speaker. This being impossible because of arrangements already made, Mrs. MacCreedy on behalf of Royal Edward chapter, invited the executive of Abegweit chapter to a luncheon and meeting in near future, the details to be decided upon later. Mrs. MacLeod of Abegweit chapter deplored the vandalism which was allowed to break and deface the tombstones in the old cemetery on Elm Avenue. Mrs. J. A. MacMillan, Prov. Ed. Sec. reported for the interest of those present that the total disbursements of the War Memorial Fund to date have included \$7 Bursaries.

29 Overseas Scholarships.
800 sets of 18 pictures.
References were made by Mrs. MacCreedy to the stressing by the National Chapter of the naturalization of foreign born residents of Canada, a subject not as vital in this province as in the western provinces, and by Miss Hunt to the world wide peace movement of which every member of I. O. D. E. should be an ardent supporter. The work of the Order in the matter of calendars and "Echoes" was also discussed after which this the second meeting of the joint committees of the two Island chapters of I. O. D. E. came to a close with the singing of the national anthem. Ladies present were Miss Mary Hunt; Miss F. Hunt; Mrs. Nell MacLeod; Mrs. Berry; Miss Ramsay, Mrs. Wright; Mrs. Leckie; Mrs. White; Mrs. Smith; Mrs. MacCallum, Mrs. Tanton, Mr. Nathaniel White; Mrs. J. E. B. MacCreedy; Mrs. H. R. Hillson, Mrs. J. A. Mathieson; Mrs. W. M. Brehaut; Mrs. MacMillan, Mrs. Victor Goodwill; Mrs. T. B. Woodman, Mrs. W. S. Stewart, Miss Helen Grant, Mrs. A. E. Morrison.

After the reading of the above report, another report, that of Mrs. Hensley of Abegweit chapter, who was the delegate to the annual National chapter meeting in Victoria, B. C., proved intensely interesting, but too lengthy and of too much importance to be properly dealt with in the short

MEDAL FOR COLORED FIREMAN

MONTREAL, Oct. 14.—For leaping into the mid-Atlantic and saving the life of a passenger, Hendricks Brown, colored fireman on the S. S. "Canadian Forester" was this morning awarded the Royal Canadian Humane Association Bronze Medal. The presentation was made on behalf of the Association by R. B. Teakie, General Manager, Canadian National Steamships, in the presence of the heads of all departments.

In congratulating the young hero and hailing his deed as an example to others in the steamship service, Mr. Teakie recalled the event, which took place last March. Mrs. J. H. Henlon, an invalid travelling for her health to the West Indies, fell overboard in an attack of vertigo. The alarm was given and the ship which was at sea between Bermuda and Nassau, was immediately put about and a boat lowered. In the meantime Brown attracted by the cries of the woman's husband, jumped out of his bunk, where he was sleeping, and without hesitation plunged into the sea. He swam with a lifebuoy, and, after an exhausting struggle, succeeded in supporting Mrs. Henlon until the arrival of the life boat. Brown, who is now a member of the shore gang at Montreal, and engineer's helper, was born in British Guiana and joined the Canadian National Steamships in 1919.
