

Do You Comb Out Hair Faster Than It Grows In?

Actual Facts Prove Loss of Hair Often Caused by Scalp Condition

Hair experts say a "tight scalp" pore-clogged with dirt or dandruff—may fail to grow enough new hairs to replace the 45 to 80 hairs you lose every day. To keep your hair abundant, glossy and alive-looking, a weekly shampoo is recommended. Your hair is a "catchment" for dirt, dust and smoke in the air, and these combine with natural scalp oil, perspiration, dried-skin particles and dandruff—to form a waxy accumulation that seals itself tightly over your scalp and chokes off nourishment from the hair.

You should wash your hair once a week—for constant scalp cleanliness is essential to a healthy, abundant head of hair. The surest way is with a shampoo actually guaranteed to remove dandruff—Fitch

Dandruff Remover Shampoo. Fitch Dandruff Remover Shampoo washes away every trace of dirt and dandruff. It gets right down into the tiny hair openings in your scalp, leaving your scalp antiseptically clean and able to breathe freely. It gives your hair a chance to get proper nourishment for healthy growth and natural gloss.

With Canada's Naturalists

Douglas Hardy Speaks On Scout Jamboree

Written For The Canadian Press By PERCY GHENT

"Near Lake Saint Francis, which is about 14 or 16 leagues above Montreal, there is one of the finest groves of oak in the world, as well for the beauty of the trees in it as for its extent. It is more than 20 leagues long, and no one knows how wide."

While a league is a varying measure of distance, it is rarely reckoned at less than three miles. Hence, an oak forest more than 60 miles long, and wide beyond the limits of exploration — and only a few miles from Montreal at that — is something to thrill the hearts of all naturalists and tree lovers. What visions of stately beauty, of abundant wild life within its immense reach come to mind at the mere thought of it.

But there's a catch in the story. Unfortunately, that description of the miles of oak trees was written by Pierre Boucher, a soldier-naturalist of France who was in Canada in Champlain's day. A fascinating book of his, telling of the wonders of natural history in New France was published in 1663.

He describes the amazing stretches of pine forest, of oak, elm, and of aspens, the latter serving as food for the beavers. And he grows eloquent when telling of the berry-bearing plants: gooseberries and red currants, blueberries and blackberries, and especially the raspberries and strawberries, which, he says, "grow in incredible abundance."

Of the animals mentioned by Pierre Boucher, the mighty moose heads the list. Wild cows are mentioned ("Vaches sauvage") which must have been the wapiti, or elk, which were then found in herds west and south of Three Rivers. He calls the wolverine "Enfant du Diable," and modern hunters will agree with him. Foxes, wild cats, porcupines, wolves, and a long list of other animals are mentioned, most of them as being plentiful.

His pictures of the Canadian scene before the slaughter of the forests started, is one of nature at a high level of benevolence, and is an inspiration to naturalists who are also conservationists, to press forward in their aim to restore some, at least, of the glory of those early days.

A Canadian amateur naturalist who saw the life-size models of dinosaurs and other pre-historic creatures in the Natural History Park, Calgary, and later examined the collection of skeletons of the monsters from the Red Deer River Valley, Alberta, housed in the Royal Ontario Museum, Toronto, summarized his impressions in a limerick:

A figure grotesque and absurd Is a Dinosaur, disinterested. But the Old-Stick-in-the-Mud Tells of Time at its bud. And the queer events that occurred.

Pot Bulbs Now Get Spring Blooms

If you have not potted those Dutch bulbs you bought for flowering in the house, now is the time to do so. If they are left lying about too long, they will dry out and lose quality.

So-called Dutch Bulbs include hyacinth, tulip, daffodil, or narcissus, and a few of lesser importance. They are grown indoors for spring flowering. The soil is not very important, but should contain a fair amount of sand. Peat or leaf soil may be added, but barnyard manure is best omitted unless very well pulverized with age. After potting, water well and keep the bulbs in a cool dark part of the basement. Six to eight weeks is about the average storage time during which the root system develops. During this period keep the soil moist but avoid dryness or saturation.

When the top growth is about an inch long, the pots should be moved to a light position in the basement and should remain there until a slight change in colour from yellow to green occurs. From then on, the blooms may be forced in a room that is colder than the living room—often the hall or a cool window is a suitable place. The bulbs should remain there until the leaves expand and the flower buds appear. At that time they may be safely moved into a warmer temperature. The full blooms will last longer if kept out of direct sunshine.

A most interesting and informative address on "The First Canadian Boy Scout Jamboree" which was held at Connaught Camp, Ottawa, from July 16 to July 24, 1949, was given by Mr. Douglas Hardy of O'Leary, assistant Scoutmaster of the First O'Leary troop of Boy Scouts and an active Young People's worker at the regular meetings of the O'Leary Young People's Union of the United Church on Thursday, Nov. 17.

Mr. Hardy attended the Boy Scout Jamboree as one of the two leaders of the P. E. I. contingent of about 32 boys. The other leader was Mr. Fred Driscoll of Charlottetown. Three of the O'Leary Scouts attended the Jamboree, Arthur Seaman, Peter Pate and William Matheson.

The Gov.-General, His Excellency the Rt. Hon. Viscount Alexander of Tunis officially opened the Jamboree in colorful ceremony. The word "Jamboree" is an American Indian word meaning "a joyful meeting of the tribes" and Mr. Hardy said there could hardly be a more apt description of the first great Canadian Jamboree.

The purpose of the Jamboree was to get to know one another better—to learn something of the other provinces—to exchange camping experiences and to make new friends. "Friendship" was the keynote of the great gathering of nearly 3,000 (three thousand) boys in about one hundred units, and the program was so planned that all the boys had a jolly good time.

Twenty thousand (20,000) milk bottles were handled by 3,000 Scouts, without one single loss or breakage. Fifteen Scouters were present from Cuba and a contingent from the U. S. A. The Camp Chief was Mr. Eli Boyanger, Saint John, N. B. A representative of the Imperial Boy Scout Headquarters in London, Mr. F. Haydon Dimmock, editor of "The Scout", the most widely circulated Scout magazine in the British Commonwealth, was an honored guest.

Special offerings were taken up to assist Scouts in displaced persons' camps in allied controlled Germany.

Mr. Hardy mentioned the interesting colorful pageants by the various provincial contingents which depicted the history of the different provinces. The speaker mentioned the pageant of P. E. I. which showed among other things, "the prize winning cow of Premier J. Walter Jones" and this remarkable animal "refused to be milked in Ontario." There was also a monster lobster which had terrifying eyes.

The speaker read the following exhortation by the Camp Chief to the Scouts at the farewell gathering for "Scouts Own Service":

"From distant parts of this land and many provinces we come; yet we are as sons of God—one family in Him from whom every family in heaven and earth is named; one in our hatred of all wrong, one in our love of all things pure and true, one in resolve to put aside all selfish ends and labor for the good of mankind. But first our praises we would render to Him who has called us into this glorious brotherhood; who has safely led us by sea and land to this fair place; who has brought us in His mercy to this memorable hour. As we meet, my brothers, with thankful heart and soul prepared, 'I say unto you, praise ye the Lord.' Amen."

Mr. Hardy told of the many places of interest which the Scouts had seen in Ottawa and vicinity. It was a most interesting and instructive address.

The following is the Jamboree song: "I am camping up at Connaught (Con-ot), Boy Scout Jamboree, Scouts who come from all of Canada, Newfoundland to B. C. With the very best of comrades, It's the outdoor life for mine. Can't you hear the campers shouting 'C. J. Forty-Nine'."

REVIVE FAT STOCK SHOW

LONDON.—(CP)—The first post-war revival of Britain's old-established Smithfield fat-stock show which dates back to 1799, is being organized and will take place at Earls Court, London, Dec. 5 to 9.

BUTTERFLY BONANZA

CALCUTTA.—(CP)—A butterfly exhibition, first of its kind in Asia, is being organized here by the Indian Museum. More than 54,000 perfectly preserved specimens, representing 4,000 species of various sizes and colors will be shown.

VERSATILE OIL

Alberta's oilfields supply the material for 1,000 by-products, ranging from cosmetics to synthetic rubber.

FOR NORWAY'S FARMS

OSLO.—(CP)—A new planting machine that can be used for practically any kind of vegetable and food plant will be on the Norway market early in 1950. It will cost less than any imported machine and permits distance between plants and rows to be regulated according to needs.

THERE WAS SOMETHING ABOUT HIM, THE WAY HE HELD HIMSELF, A SORT OF CONFIDENCE IN HIMSELF, A REPOSE, A CALMNESS ABOUT HIM, I JUST SAT THERE KNOCKED-OUT, I KNEW I WAS IN LOVE.

Winning Numbers In The HOLMAN ANNUAL Goodwill Drawing

Check carefully the Numbers listed below. If you have any of the corresponding numbered Goodwill Sale Ballots — sign your name and address on the reverse side and bring or mail them to HOLMAN'S at once.

Winning Numbers at Summerside Store
Ballot No PRIZE
41160 \$100.00 IN MERCHANDISE of Winner's Own Choice
54102 NEW 1950 RADIO Choice of Battery or Electric

Lucky Summerside Store Winners bring or mail Ballots to — Advertising Department, R. T. HOLMAN LIMITED, SUMMERSIDE.

Winning Numbers at Charlottetown Store
Ballot No PRIZE
5251 \$100.00 IN MERCHANDISE Of Winner's Own Choice
3977 NEW 1950 RADIO Choice of Battery or Electric

Lucky Charlottetown Store Winners bring or mail Ballots to — Manager's Office, R. T. HOLMAN LIMITED, Charlottetown.

Don't Delay! Prizes Must Be Claimed Before December 15th.

Congratulations to the Lucky Winners and MANY THANKS to all for making our ANNUAL GOODWILL SALE such an Outstanding Success

THERE OUGHT TO BE A LAW

by Fagoly & Shorten

GAYBLAND IS VERY CAUTIOUS ABOUT HIS BUSINESS CORRESPONDENCE! ASK HIS SECRETARY ABOUT THAT.

BUT WHAT HE PUTS INTO WRITING TO THOSE CHORUS CUTIES — ASK HIS LAWYER ABOUT THAT!

DAILY CROSSWORD

- ACROSS: 1. Skin tepee (Am. Indian), 4. Card game, 10. Bay window, 11. Additional, 12. Flowering shrub, 14. Constellation, 15. Bellows, 16. Tricks, 17. At home, 19. Take rise, 21. Ova, 24. Land-measures, 25. Onion-like plants, 27. Cessation of life, 31. Exclamation, 32. Edible rootstock, 34. Sewing rulers for furniture, 35. Indefinite article, 39. Excite to action, 40. Swiftly, 43. Female deer, 44. Squeamish, 45. Girl's name, 48. Mother-of-pearl, 50. Trust, 50. Formed into hardened mass
- DOWN: 1. Small medicated tablet, 2. Verbal

Yesterday's Answer: 41. Pluck, 42. Measure of land, 43. Incorporated (abbr.), 47. Affirmative vote (var.)

DAILY CRYPTOQUOTE—Here's how to work it:
A X Y D L B A A X R
I S L O N G F E L L O W
One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation
L B V L Y F V Y B T W W Y V U M E E M E M M
T H T W L G T K M Y K W V E Y L Y E D H L A K Y
F T E E ? — K M E Y L F A E
Yesterday's Cryptogram: FLATTERY IS MONSTROUS IN A TRUE FRIEND—FORD
