

Etiquette of the Handkerchief

"To be used as little as possible. Never in the street or in public places." This is the dictum but what can the poor victim of Colds and Coughs and Sneezes do? That little bit of cambric must come out, etiquette or no etiquette. Not, however, if the cold is cured by the use of

SHARP'S BALSAM OF HOREHOUND and ANISE SEED

The public speakers of two generations acknowledge their debt to this specific.

Rev. G. Moore writes: "I feel that I must send you a word of appreciation of Sharp's Balsam of Horehound and Anise Seed. Without its aid, I fear I could not have kept my appointments so regularly in winter on many of my circuits. After thirty years of preaching my voice is still unimpaired and country driving has no terrors for me."

To attend she was attended by Miss Eva Gallant, sister of the groom, who was also becomingly dressed in a blue velvet gown with white to match. The groom was richly supported by Mr. Felix Gallant of O'Leary, cousin of the bride. To win a race a Jockey doesn't put extra weight on the horse that helps him succeed. No man or woman who wants to succeed in the race of life can afford the handicap of headaches, insomnia, indigestion and debility. Nor can they afford to take anything that may keep up a continual irritation of the nervous system. Yet this is what many people do who drink excessive amounts of tea or coffee. For tea and coffee contain caffeine, a substance that is sometimes very injurious. Many doctors say that caffeine raises the blood pressure, irritates the kidneys, and over-stimulates the entire nervous system. Also that it is especially bad for growing children, or for anyone who has any tendency to nervousness or insomnia. If you want to avoid a possible cause of headache, insomnia, or nervousness, it might be well to stop taking tea and coffee for awhile, and drink rich, satisfying Postum instead. Postum is a delicately-roasted, pure cereal beverage—delicious and wholesome. Order Postum from your grocer today. Drink this fragrant, healthful beverage for awhile, and see if you will not feel brighter, more active, and more resistant to fatigue—as so many thousands of others have felt. Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water; Postum Cereal (in packages of large bulk, for those who prefer to have the drink while the meal is being prepared) made by boiling for 10 minutes.
