Charlottetown—Wholesalers are quoting country points extras 32, firsts 27, seconds 22. MONTREAL, Aug. 23.—Owing to the majority of foreign bids being local exporters' views, the export trade in Canadian grain on the Montreal market today continued quiet. The local demand for Canadian western oats was also limited and prices were unchanged. No. 2 C. W. were quoted at 59c and No. 3 C. W. at 53 1/2c per bushel. The feature of the flour trade was the demand that developed from the British West Indies for new crop winter wheat grades and a fair amount of business was worked in this direction for September shipment. The local trade was quiet but firm. Car lots of old grades were quoted unchanged, while new quality was offered at \$6.30 to \$6.40 per barrel. A fair volume of business was worked in spring wheat grades of flour with foreign buyers by the local demand was small. Prices were unchanged. A stronger feeling developed in the market for milled and prices were advanced \$1.00 per ton. For all grades. This was attributed to the increase in demand of late and the small supplies available. Sales of Manitoba bran were made at \$29.35, shorts at \$11.25 and middlings at \$38.35 per ton. The trade in standard grades of rolled oats was quiet but prices ruled steady. The tone of the market for baled hay was steady but the trade volume was small, ordinary No. 2 Timothy was quoted at \$14.00 to \$15.00 per ton. An easier feeling developed in the butter market and prices

were reduced 1-4 to 1-2 cents per pound. No. 1 pasteurized was sold at 32 3/4 cents to 33 cents per pound. In spite of dullness that has prevailed in the cheese market of late and the large supplies on hand local dealers advanced prices today 3-8 to 5-16 cents per pound. Western grades were quoted at 17 1/4 cents per pound, and eastern at 17 1/4c per pound. The market was fairly active and prices were firmly maintained. Fresh extras were offered at 40c and firsts at 31c to 35c per doz. The receipts were 963 cases. VANCOUVER, B. C., Aug. 23.—The effect of orderly marketing on the basic level of grain prices and the method of raising prices and the Pool have resulted in the general betterment of business to the various trades interests and especially from the standpoint of the Saskatchewan, George S. Garvie, Saskatchewan merchant, declared in an address before the Canadian Credit Men's Association convention here this morning. The betterment of the business conditions of the retail merchant is reflected on the wholesale dealer. Mr. Jarvis added, and wholesale men consider that business is being conducted on a more healthy basis, as it has a tendency to eliminate losses in credit given farmers for their supplies during the year. Mr. Jarvis went on to exhaustively discuss the effects of the retail merchant on the wholesale dealer and the various selling agencies and then discussed the effect of the organization on the various businesses. He said that the members of the C.M.A. were prone to look on one class of business as the retail trade, whereas it was reflected in the business of mortgage companies for loans on land; the banks and private individuals for advances; the machine and implement companies and the retail and wholesale merchant trade. Investigation he went on, had pointed out the following attitude by the various business firms toward the wheat pool: Mortgage companies—The farmers have been able to retire a considerable portion of their past due indebtedness since the inception of the pool. Prices have been stabilized to a certain extent and the farmer placed in a more favorable position from the loan companies' point of view. Banks—At the present time eight of the larger chartered banks in Canada are financing the pool itself and generally are showing a willingness to co-operate with the movement. Machine and implement companies—The implement companies are favoring the pool movement. Payments from the pool are made at a season of the year which enables the farmers to purchase equipment more or less on a cash basis rather than the long term basis which has been in existence for a number of years. Retail Trade—It is the general belief that the system of marketing under the pool has had the effect of placing business on a more solid basis, as the initial cash payment and the later payments during the year have now given the farmer money spread over the year. This is having the effect of increasing the cash flow and enabling merchants to operate at lower cost and to lower prices to compete with the larger mail order houses. Wholesale Trade—The condition in the retail trade is reflected with wholesale distributors now assisting merchants by offering goods at prices which enable them to induce the farmers to spend their money in their home districts. In conclusion, Mr. Jarvis said that the pool had resulted in better collections as the debtors have a certain amount of money due from the deferred payments on wheat sold through the pool, which is distributed to the merchants. The proceeds of the sale of the

In most towns the streets are watered early in the morning before the traffic interferes. While it would not entirely eliminate the dust the watering cart would do considerable.

RESTORED TO GOOD HEALTH
Mother of Eleven Children Praises Lydia E. Pinkham's Vegetable Compound Her Interesting Experience
Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I know of it from my sister, Dame Edouard Bellefleur of Ramsayville. For five years I was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 13 years old, has also taken it and will be happy to recommend it to all young girls."—DAME WILLIAM PARRIS, Box 414, Buckingham, Quebec.

Toledo Rules World Markets For Clover
TOLEDO, O., Aug. 21.—Toledo's in clover, deeper than any city of the world. Toledo planted into clover 60 years ago, and there she has remained.
Lying in the midst of the great over-growing area of the mid-west, where, this time of year, the air over the farm lands is heavy with the fragrance of clover blossoms, Toledo has become the international clover center.
Clover prices of the world are fixed on the Toledo trading floor, and it is the only market where trading in future in clover seed is done on a large scale.
