MARRIAGES

BEARSE-MacDONALD.—At Parkdale Presbyterian church, Toronto, Ont., February 22, by the Rev. Mr. Logan Geggie, Laura Christina second daughter of Mr. and Mrs. Isaac Bearse, of Montague, P. E. Island, to Alfred English MacDonald, of Hamilton, Ont.

DEATHS

ROSS.—At Pinette Feb. 19th 1918., John A Ross aged 17 years, son of Robert Ross.

MacLEAN.—In Jamaica Plains, Mass., on March 25, 1918, Margaret, wife of the late Neil D. MacLean, of Canoe Cove, aged 55 years. Remains will arrive here on Friday, for burial.

McADAM.—The death occurred at Southport on March 26th 1918 of James McAdam aged 70 years. Funeral on Wednesday at 3 o'clock. — Patriot please copy.

BUCHANNAN.—At Clyde Station March 15th 1918 Miss Margaret Buchannan in the 102nd year of her age. Funeral took place Tuesday the 19th at 2 p. m. from the residence of her son Alexander Buchannan.

McADAM.—At his residence Southport, March 26th. James McAdam, aged 70. Funeral will take place this afternoon at 2.30 to St. Dunstan's Cathedral thence to R. C. Cemetery.

In Loving Memory

of
Mrs. Peter McDonald
Born in Canoe Cove, P. E. I.,
December 9, 1849
Died at Crapaud,
March 9, 1918

We know our sorrow is not as those who have no hope and we can look back upon a beautiful life of tasks fulfilled and duties done. It was no empty life she lived. She surely did the work God gave her to do and has now gone to be at rest with Him.

EASY TO DARKEN YOUR GREY HAIR

You can Bring Back Color and Lustre with Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desir a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound, and looks years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure mitigation or prevention of disease.

::Sores Flee Before It—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil, which acts like magic. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap but its power is in no ways expressed by its low price.

UNDER THE FLAG

A Comedy in 4 Acts
BY
St. Dunstan's University Dramatic Society
IN THE
MarketHall Summerside
Easter Monday
APRIL 1st, 1918

Listen. The play has a snap and a bang. Every act winds up with a patriotic six-cylinder climax that will curl your hair if it needs curling— and will make you 10 years younger, no matter what your age.

This is as modest as we can make it.

Synopsis of Canadian Northwest Land Regulations

THE sole head of a family or any male over eighteen years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub Agency on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price $3.00 per acre.

Duties Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price $3 00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth $300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

ISLAND ENGINEER GLAD TO GET OUT OF SERBIA

The following letter has been received by Mr. A. E. Clarke of Souris from his son Mr. Fred M. Clarke who is one of the members of the American Railway Commission to Siberia Railway. As both gentlemen are well known, especially in Railway circles both being station masters, the welfare of Mr. Clark will always be followed with best wishes:—

A highly interesting letter from F. M. Clarke, former chief dispatcher of the Stockton division of the Southern Pacific, who went to Siberia with a party of American railway engineers to assist in rebuilding the Trans-Siberian railway, has just been received by Ernest H. Noffsinger, chief clerk of the Stockton division. Clarke and C. R. Rice, dispatcher and examiner, joined the expedition from Stockton. Just prior to their departure, Clarke was married to Miss Anne Carpenter, a well known Stockton society girl, who remains in this city.

The upheaval in Russia made it necessary for the American engineers to leave Vladivostok. The letter was written from Nagasaki, January 13th. It follows:

Dear Noff: After our joy ride on the Pacific we have landed in Japan Was on transport for 54 days and glad indeed to get on shore again. When we arrived in Vladivostok everything was confusion. The Kadet party and Bolsheviki were taking turns about in handling affairs. It was very cold and stormy; the harbor was full of large ships discharging their cargoes and the docks were jammed with all kinds of freight, some of which has been there for two years. They had landed 160 loads a day a few weeks previous, but it had dropped to 40. There had been no train from Moscof for three weeks and Manchuria was in revolt Some towns were held by the Kadet party some by Constitutional Democrats and others by Cossacks under Kaledin and Kanilor. We were sorry we could not go to work, but it was impossible as no one would work. It seemed they all wanted to talk. These people talk all the time just like a lot of school children that have been in school for several hours without a recess, and now they have broken loose.

Conditions are fierce. The whole country is in a state of lawlessness and the end is not yet in sight. Every day the Bolsheviki continue in power and increase their following and the longer they stay in power the less democratic will be the next government of Russia. Men who have spent the greater part of their lives in Siberia and who were set free by the revolution have been put in jail by the Bolsheviki, and still remain there notwithstanding their liberty has been offered them if they would join the Bolsheviki. It may be that our government will acknowledge these ursupers; if so it will show weakness as there can be no question but they are playing into the hands of Germany. Russia, even Vladivostok, is full of German spies—they are everywhere. I notice by the China papers that some of their troops are going to France. Every week one of the Empress line steamers in the empire of Asia and Russia come in here to coal up, and they have from 1,500 to 2,000 Chinese coolies on board en route to France, via Vancouver. Generally they are in charge of Canadian or British officers and have had them relate some of their experiences in the trenches in France, as most of them have been wounded in battle Only last week I met a British staff officer on his way to India.

We all wonder what is the reason Japan don't do more. The people are prosperous; the country has made all kinds of money out of this war. Why don't they help more? The Japanese papers mentioned this morning about one of the largest squadrons being en route for Vladivostok. Can it be possible that they are to seize Vladivostok? Seems to me they should put an army in Manchuria via Fort Arthur and Harbin so as to cut the main Siberian railroad at Harbin. A few weeks age Harbin was under Russian and Japanese control, but China now has her troops there and the Japan and Russian troops have left. The press of Japan seemed to think Japanese troops should have remained in the mix-up.

The Bolsheviki and Constitutional Democrats are always fighting. They have no communication with Petrograd. The farmers through Siberia have plenty of grain and foodstuff, but they won't sell it because the Russian Bolsheviki rupee is not worth anything, and there is no gold or silver in circulation. In Vladivostok they used postage stamps for small change. I asked a man in the latter place, where I took tea, where all their silver was. He replied, "The capitalists have it stored." This one expression tells the tale. They have been oppressed so long that everything new that happens, they blame the rich. It is against this class the Bolsheviki are most bitter, hence they have the following of all the working classes.

For nearly twenty days we had no news and the Russians at Vladivostok told us "the war was over; Russia makes peace." It was not until we arrived at Nagasaki that we knew the true conditions, and I could see the work of German agents. The day before we left Vladivostok one of the members of the Soldiers' and Workmen's Council ordered our transport to pass. Anyway under existing conditions I was glad when the whistle sounded and we under way. As we passed out of the harbor. I took a long look at the desolation of the coast so that in future years I can recall my trip to Siberia and be satisfied that I live in the land of happiness and prosperity. For five miles the harbor extends and from every mountain top one can see the guns commanding the harbor. I don't think I was the only one who drew a deep breath when the good ship Thomas passed out into the great bay on our way to Japan.

We are nicely located at the hotels. Rice and I in fact all of our unit, are assigned to the Cliff hotel overlooking the bay, and our major has promised us a trip by Imperial railroad to Yokahama and Tokyo. We are told we will leave here about the first of March for Siberia. If so we are ready and pleased to do our part but something tells me we will never see Vladivostok again.

Give my love to all and write

F. M. CLARKE.

Nagasaki Japan, January 13th.

You Get Better Cough Syrup by Making it at Home

What's more, you save about $2 by it. Easily made and costs little.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save $2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (50 cents worth) from any good drug store, pour it into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Here you have 16 ounces—a family supply—of the most effective cough syrup that money can buy—at a cost of only 55 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Toronto, Ont.

Lovely White Skin!

Strain lemon juice well before mixing and massage face, neck, arms, hands.

By all means, girls, prepare a lemon lotion to keep your skin flexible and young looking. You will soon realize that true loveliness does not mean the powdery-look or waxen colorlessness of some hot-house flower, but is typified by the velvety softness of your skin, your peach-like complexion and rosy-white hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and hidden beauty of any skin. It is simply marvellous to smoothen rough, red hands.

A CAR LOT

Chatham Mills, just to hand. Hand or power. Used by our leading seedsmen.

Sow good seed and reap a good harvest by grading your seed with a Chatham Mill. See your local agent about yours or write,

Farm for Sale

The subscriber offers for sale his valuable Farm of 84 acres a short distance from Port Borden Pier and Station. There is a good Dwelling House. Barns and other Outbuildings on the premises with abundance of good pure water. It fronts on the seashore and is handy to where quantities of kelp can be got During the last three seasons $550.00 worth of fertilizer has been applied to it besides a considerable quantity of barnyard manure and a large supply available for this year's crop; also the farm is all cleared is A1 sail and in a good state of cultivation. A good title is guaranteed. For price and terms apply to R. C. Auld, Freetown or owner on the premises.

DAVID H. AULD,
North Carleton,
Albany R. R.

2911-3-8fmwtf.

GIRLS! YOU CAN LIFT THEM OFF

Doesn't hurt a bit to lift your sore, tender corns right off.

A noted Cincinnati authority discovered a new ether compound and called it freezone and a quarter ounce of it now can be had for a few cents at any drug store.

You simply apply a few drops of this magic freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it off with the fingers.

You feel no pain, not a particle of soreness, either when applying freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also toughened calluses, just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it!

Women should keep in on their dressers and never let a corn ache twice.

MAGIC BAKING POWDER

Should be in every kitchen. Its use assures complete satisfaction in baking cakes, biscuits and pastry.

YOUR GROCER SELLS IT.

Letters From Overseas

The Women's Institute of Montague are receiving many letters from overseas thanking them for parcels containing comforts, etc., sent by them to the boys fighting our battles over there.

Two of the latest appear below—one from W. H. Poole, whose home is in Montague, and the other from G. E. Cass. Some time ago the Ladies forwarded to Mrs. Plummer a number of parcels to be forwarded to lone soldiers and this is a reply from one of them.

At present they have ready to send some thirty parcels of seven pounds each, to our Montague Boys overseas and no doubt these will bring joy to their hearts to know they are not forgotten by their home folk in this great struggle for right and liberty.

All success to the Women's Institute.

France,
Jan. 31st, 1918.

The Women's Institute,
Montague, P.E.I.

Dear People,—You will perhaps think me negligent because I have not acknowledged receipt of your most welcome parcel, but permit me to say that it was only yesterday that I have received it. The reason for this late arrival was owing to the fact that I have been moving about from place to place, and my mail could not catch up.

I must say that we people over here appreciate the efforts that you make in trying to render us more comfortable than we ordinarily would be without your help. It causes us to believe that we are not alone in this great game, but that our people at home continue to think and strive to bring this terrible catastrophe to a close.

Believe me, it was very much appreciated and accept my sincere thanks, I am,

Respectfully,
W. H. POOLE.

Whitney,
Jan. 22, 1918.

The Women's Institute,
Montague, P.E.I.

Dear Friends,—It is with pleasure that I take my pen in hand to thank you for the lovely pair of socks which I received in a box yesterday from you. It was awfully good of you to send them.

Believe me we appreciate your kindness and it is nice to know that we are not forgotten by our home people.

Will you accept my thanks for sending me the box, it was the only piece of cake I have tasted since I left Canada. The people over here can't make anything like over home and thanks awfully for all the other things sent but nothing comes in so handy as a nice pair of socks.

Will have to close for now, again thanking you for your kindness, I am,

G. E. CASS,
104th Batt.

SOCKS APPRECIATED.

The following letter has been received by Miss Venetta Robertson of Pownal:

"Somewhere in France."
Feb 9th. 1918

Dear Miss Robertson:

Just a few lines to let you know that I was the lucky soldier, that received your very acceptable pair of socks, also the small note inside, so I thought it was only my duty to drop you a note and thank you very much for them. I don't think we fellows out here can thank the women of Canada for all they have done, to try and cheer the boys out here. I have been out here over two years, about two years and four months. I came out here with the 18th Battalion of London, Ont., and have a fairly good job. Just now I am in the brass band, but of course previous to being in the band, I was eighteen months in the trenches and I don't mind this job at all. It is a bit better than in the firing line. Well I haven't a lot to say just now, but I hope when this reaches you, that it will find you in the best of health as this leaves me at present. My address, before I close is: Bandsman John Young, No. 54346, 18th Batt., 2nd Canadians, France. You will think it funny, giving my address here. It is just an army regulation so we have to comply with them. With kind regards, I remain yours truly, JOHN YOUNG.

CARTER'S SEED CATALOGE

Thirty-ninth Year

Another year finds us still in the throes of this terrible war and, we trust, all the readers of this Catalogue are determined on "Doing their bit" to the utmost of their power. Probably the agriculturists of the world have a greater responsibility thrust upon them than any other class; for unquestionably on their efforts largely depends the ultimate victory. We have no doubt that the people of Prince Edward Island are determined to do their part and that this year will be marked by a greater production from the farmers than ever before.

Notwithstanding great difficulty in the way of obtaining Seeds, we have procured a supply which we think will fill the wants of this community and our patrons will find in the following pages seeds which will enable them to thoroughly "do their bit" during the year 1918.

Prices are, of course, unavoidably higher but we are confident that this catalogue offers the farmers of Prince Edward Island the best value obtainable in the present condition of the markets.

We wish it to be distinctly understood that we handle **only high class seeds—the best procurable** regardless of price, and we believe our success in the past was largely due to the **quality of seeds** we have been offering the public. In buying and selling **seeds and seed grain** it is not so much a matter of price as it is quality of **seeds** handled.

A large edition of this Catalogue is now being distributed. If you do not receive a copy a post card will bring you one. **Carter's Seed Catalogue** tells you where to get and how to grow **Carter's Tested Seeds.**

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles, if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.
