#### THE AGE OF BRAIN WORK

"In these days, half our diseases come from the degeneration of the body in the work of the brain. In this railway age the wear and tear of labor and late hours go on without pause or self pity. We live longer than our forefathers but we suffer more. They fatigued only the muscles, we exhaust the finer strength of the nerves. Dr. Chase's Nerve Food is the greatest medicine of this age because it is best suited to the needs of the present day. It restores and revitalizes wasted nerve cells and makes the pale, weak and exhausted strong and healthy and vigorous.

As soon as these nominations are made the list of officers and executive will be published.

HAZEL GROVE BUILDING NOTES.—During the past summer the contractor has not been idle in this section of the country. The residence of John McEachern has undergone extensive repairs and the work reflects much credit upon the contractor David McEachern, Cance Cove. A very neat veranda has been added to the residence of R. P. Bagnall adding much to the appearance of that dwelling. And quite near the old site of the Halfway House that has stood as a landmark for the last 80 years, Jos. E. Bagnall has erected a handsome cottage. The architect was Geo. E. Baker, Summerside. The work has been most creditably done by John Warren of Bradabane. The paint brush was handled by W. O. Crosby of Charlottetown, and the plastering was done by William Henderson, city. The whole is a work of art and is certainly a credit to the different workmen.
