—DUNK RIVER FARMER'S INSTITUTE.—The annual meeting of the Dunk River Farmer's Institute was held in lower Freetown Hall on Tuesday afternoon, Dec. 18th, the President Mr. John R. Staver in the chair. After the usual business was disposed of and all bills passed the appointment of delegates to the Central Institute took place. The President, Messrs. S. R. Cairns and John Proffitt were elected. The appointment of directors for the coming year was the next order of the business, which resulted in the old board of directors and officers being re-elected. This completed the business of the meeting. A lively discussion followed on the co-operative buying of clover seed, feeds, etc. Last year this institute purchased its clover seed co-operatively with remarkable results and it is hoped that every member will place his order with the institute this year and reap his share of the benefits of co-operation. Meeting adjourned.

—A HISTORIC PARALLEL
We all know what the last year and a half of the Civil War meant to the south. It well might annihilate their youth. Boys and old men were called to the front, and half a century after the struggle the south is only beginning to recover. This is what another year of the war will mean to Germany. On the western front French, British and American manhood will divide the cost of the battle in human life. But the German manhood will have to defray it all, and the tax will, therefore, be

enormously higher upon the German. Germany, by using enslaved populations, by using prisoners, has been able to put a far greater percentage of her manhood on the firing line than her opponents; this has enabled her to do it, but it has also compelled her to use up a far greater fraction of her human capital and thus cripple herself in the after-war recovery.—Review of Reviews.
