

AMERICA AND ASIA TO HAVE WIRELESS

Proposed Service Across Behring Sea. Communications at all Times

(Canadian Press) WASHINGTON, Feb. 20.—Arrangements are being made for the establishment of a regular wireless service across the Behring Sea, between the American and Russian Governments, which will insure telegraphic communication between America and Asia at all times.

CANADA IS EULOGIZED

LONDON, Feb. 18.—Referring to the ratification of Premier Borden's naval proposal in the Canadian house, Right Hon. Walter Long described it as an episode which perhaps is the most striking that ever occurred in imperial history. It told in most eloquent language of the loyalty and devotion of thousands of people who have never seen the center of the empire. "We are profoundly grateful to Canada for what she has done," said Mr. Long. "We are profoundly grateful to Mr. Borden and his government for the gallant and successful fight which they have fought. I hope we shall not fail to realize this patriotic and splendid action on the part of the Dominion. While it confers upon us immense benefits, it imposes upon us at the same time great obligations. Canada has stood spontaneously by us, and it becomes even more our duty than it has been before to determine that in everything we do in our legislative policy, we so act as to unite by stronger bonds than any which have hitherto existed these great Overseas Dominions which, with the Mother Country constitute the British empire."

MILITARY TRAINING

TORONTO, Feb. 19.—The Canadian Infantry Association of the Second Divisional area, has followed the lead of the cavalry and artillery associations in dedicating itself in favor of universal military training. After considerable discussion the Association resolved, "that this Association is in favor of a modified form of universal training, and recommended such a system, and the details to be worked out later." With the resolution passed by the branch associations, the subject of universal military training no doubt will be a topic of discussion at the military conference, which takes place at Ottawa next week. A resolution was also passed that in order to arouse interest of the young men in Canada, the Government be urged to have moving picture films depicting military life in the military camps and that such pictures be shown at all moving picture theatres throughout the country.

GREAT WORK FOR THE MINISTER.

NEW YORK, February 17.—Three hundred and fifty clergymen of New York City, representing more than forty denominations, met at a luncheon today to honor of James Bryce who has announced his impending retirement as ambassador from Great Britain. Mr. Bryce in a speech congratulated the clergy upon their increasing willingness to forget religious differences when opportunity arises to co-operate for the public good. In New York, he said, more than any other city of the world, one felt how much work there was to be done by religious and philanthropic organizations.

MADERO TO FACE INVESTIGATION

Charged With Death of Colriver. Must Give Account of Money Expended by His Administration

(Canadian Press) MEXICO CITY, Feb. 20.—Madero will not get out of Mexico without facing an investigation. He is charged with the death of Colriver. A committee of deputies will ask Madero for a forced account of the money expended by his administration. The new government will have a sterner rule. The military rule is now over-awed by soldiers. Blanquet is relieved by Diaz at the arsenal.

40,000 BUSHELS POTATOES BURNED

SYDNEY, Feb. 17.—The co-operative store at Glace Bay was burned down to-night. The fire started at midnight and the cause is unknown. It is still burning, but the firemen hope to prevent its spreading. The store contained a full line of groceries and general goods, and will be a complete loss. The building is valued at \$18,000 and the stock at \$50,000. It is believed that both the building and stock are fairly covered by insurance. The store did a very large business. The stock included forty thousand bushels of potatoes in the cellar.

WALKOUT WILL NOT TAKE PLACE.

PITTSBURG, February 19.—A sympathetic walkout of upwards of 40,000 miners in western Pennsylvania to aid the striking miners in West Virginia, was urged and defeated in the convention of district No. 5, United Mine Workers of America. The defeat came after stirring debate. President John P. White, of the United Mine Workers of America, denounced Governor William E. Glasscock, of the West Virginia coal operators and the militia. The resolutions proposed to call strikes in any mines in the Pittsburgh district filling orders the West Virginia strikers would be filling if they had remained at work. It was designed, it is alleged, to reach any coal operator in the Pennsylvania field profiting thru the strike in West Virginia.

DIED IN JAIL AT STELLARTON, N. S.

STELLARTON, N. S., Feb. 19.—Officer McKay of the local police force going the rounds of the jail this morning found one of the inmates, whom he had locked up the previous evening cold in death. The young man Alex. McDonald was arrested on the street on the charge of being intoxicated and lodged in a cell with three others. He appeared to be in a stupor that followed an excess of liquor. Sometime during the night after the hour of 12.30 this young and healthy man about 32 years of age passed into the great beyond. The jury empanelled this afternoon heard the evidence of the officers, doctors, cell inmates and others with knowledge of the case and decided to have a post-mortem examination of the body made with a view to arriving at the cause of the sudden death. It is expected that the authorities will probe the matter to the bottom.

THE WEATHER

(Special to The Guardian) TORONTO, Feb. 21.—Fresh westerly to north-westerly winds; fair with slightly lower temperature. The temperature at three o'clock this morning by the Rexall Store Tested Thermometer with a northern exposure was thirty-eight degrees above zero and with a southern exposure forty degrees above. The weather yesterday was mild and cloudy with light rain in the early part of the night and heavy rain beginning at 2 o'clock and continuing all morning. The lowest temperature recorded yesterday was twenty-two degrees above zero and the highest was twenty-four above. The lowest the previous night was twenty above. At nine p. m. it was twenty-two above and at nine p. m. it was twenty-four above. The tide will be high this morning at 11.26 and to-morrow at 12.04; it will be high to-night at 11.04 and to-morrow at 12. The sun sets this afternoon at 5.35 and to-morrow at 5.37; it will be high to-morrow morning at 6.59 and Sunday at 6.48. The moon rises to-night at 6.38. The moon was full Sunday, Feb. 20 at 10.03 p. m. The last quarter of the moon will be on Thursday, Feb. 27th at 5.15 p. m. The length of to-day will be ten hours and forty-three minutes. (From Yesterday's Evening Guardian) The temperature at 10.30 o'clock this morning by the Rexall Store Tested Thermometer with a northern exposure was twenty-five degrees above zero and with a southern exposure was thirty-eight above.

BOSTON HAS \$50,000 FIRE

All Fire Apparatus in City and Suburban Assistance Required to Subdue Blaze

(Canadian Press) BOSTON, Feb. 20.—All the fire apparatus in the city, including three fire boats, together with suburban assistance was required to subdue a blaze which caused a loss of half a million to wholesale firms in the north end tonight. Braman, Dow & Co., plumbing and steamfitting supplies, had their five story building burned. The fear of the blaze spreading throughout the district resulted in all fire force being called out.

MERCHANT SHOT CONDITION CRITICAL

(Canadian Press) STANTON, Va., Feb. 20.—L. D. Bosserman, a merchant here, lies in a critical condition in the hospital to-night as the result of bullet wounds inflicted by A. D. Worth, an hotel clerk. Returning home Bosserman found Worth in company with his wife. When Worth saw Bosserman he drew a revolver and fired four shots, two taking effect. Worth was arrested and also Mrs. Bosserman as an accessory.

NO AGREEMENT REGARDING NAVIES.

BERLIN, Feb. 19.—The official minutes of the Reichstag committee, before which Von Tripitz, the minister of marine, appeared, and made a statement in regard to naval increases, show that the assumption of the newspapers in England and Ger-

MORE EVIDENCE IN THE FOX TRIAL AT SUMMERSIDE

(Special by Phone) SUMMERSIDE, Feb. 20.—The case of Mrs. Thomas Murray was before the court today. W. D. White who gave evidence of the case on Thursday the 13th was recalled to the witness stand. On being cross examined he said that he had been a constable for thirty-two or thirty-three years. On Thursday the 6th inst. George Barbour and Frank Langille came to him and got three search warrants to search the premises of Charles Birch, Jacob Murray and Sam Murray. While in conversation with George Barbour the witness had a suspicion that the foxes were at Jacob Murray's. He had a conversation with Chas. Burke some days previous the general purport of which was that Tom Murray had come to him and asked him to go with him and they would get a pair of foxes. Witness then made up his mind that Tom Murray had some-thing to do with the theft. There is a road at the north east of Jacob Murray's house, right near the road that the witness had met the prisoner the day they were searching for the foxes as he had related before. The next day George Barbour came out to his place and they went to Elmsdale and searched John Burke's premises but found nothing. Then the witness went into the woods across the track from Murray's. The place where they saw the soiled spot in the snow that looked as if some-thing in a bag had been laid there would be about 20 chains from Jacob Murray's house. The witness placed the night of the sixth and had a conversation with him. Burke said "You did not find anything." The witness said "No." Burke said "What's in it." The witness said "I don't know." Then Burke said "Hit them up for \$4,000, \$2,000 for me and \$2,000 for you, and I will go for the foxes." Witness said to Burke "I would not like to do that. That would be rather hard on them after losing their foxes." Then Burke said "Those foxes are worth \$20,000 and they could afford to do it." On the seventh as the witness and George Barbour were going to (Continued on page three)

3,500 KILLED IN BULAIR BATTLE

Situation at Adrianople Unchanged—Porte Refuses to Permit Foreigners to Leave

(Canadian Press) LONDON, Feb. 20.—A story of three days battle in Bulair in which 3,500 men on each side are reported killed was received today. It is believed it is the old report of fighting in that district. The situation at Adrianople is unchanged. The Porte has refused to permit foreigners to leave and the commander has offered to set a section apart from them. It is doubtful if Bulgaria will agree. The Servians are assisting the Montenegrins before Scutari with heavy artillery. Bulgaria and Rou-

LEAGUE BOWLING LAST EVENING

Last night at the League of the Cross Alleys, Charlottetown, the thirtieth game in the Buck Pin League was rolled off and was won by the Silver Greys with a majority of 59 pins. The following are the scores of each player: BLUES: F. McDonald 81 80 87 248; J. Brown 69 79 73 221; C. Moran 75 62 85 222; J. McInnis 102 83 83 272; J. Strain 102 95 92 289. GREYS: V. Coyle 79 93 91 281; M. Carrier 88 82 76 246; A. Martin 93 89 91 272; J. Duffy 73 85 95 253; J. Keenan 76 82 101 259. In the game Wednesday the Patch Foxes defeated the Blacks by 42 pins.

ARMOR PLATE INVENTION MEANS LIGHTER WARSHIPS.

LONDON, February 17.—A young Sheffield engineer, William Henley Worrall, has just announced the discovery of a new method of making armour plate, which, it is declared, will reduce the weight of battleships from 10 to 20 per cent, while at the same time increasing their prospective efficiency. Some plates manufactured by Worrall's process have already been tested, and it is stated that an eight-inch plate resisted a 14-inch shell which would have pierced ordinary armour of the same thickness. The admiralty is understood to be negotiating with Worrall. The invention consists of the modification of the whole process of making armour plate, starting with the ingot, which goes thru modifications in the rolling mills and then requires a different heat treatment from that provided in the existing furnaces. Ordinary armour plate has a hardened back and front and a soft core. Worrall's plate consists of many small plates hardened and bound together, so that the core of the plate contains layers of steel as hard as the surface. The saving in thickness on the heavy plate the inventor claims to be 20 per cent. When the plate is in position on the battleship there will be a net weight in saving of 15 per cent. This would mean an appreciable increase in battleship speed with the same engine power. Worrall has been at work nearly a year on the invention. Worrall has agreed to accept mediation by the powers.

ARGENTINE A POOR PLACE FOR CANADIANS

WINNIPEG, Feb. 18.—"Canadians who go to the Argentine Republic to take up land or homestead do so at grave risk. Nothing but disaster has overtaken those who have gone there." This was the statement of Canadian Immigration Commissioner Bruce Walker this morning in calling attention to a warning issued by the Dominion Government against immigration there. The action of the government, explained Mr. Walker, arises from the fact that Canadians who have gone to the Argentine have been reduced to penury and the Canadian government has been obliged to bring them back at its own expense. Because it will no longer do so the warning is issued. The latest case is that of John Olenick who went from Red Deer, Alta. He was defrauded in the Argentine of every cent he had and the Canadian authorities had to bring him back.

FIRE DESTROYS OLD CATHEDRAL

At St. Petersburg. Great Collection of Pictures Etc. Saved

(Canadian Press) ST. PETERSBURG, Feb. 20.—Troitsky cathedral was burned this morning. The great collection of pictures, carvings and precious relics which have been gathered in the building ever since its erection in 1703 by Peter the Great were saved.

J. E. WYATT IN ARIZONA

ARIZONA, Feb. 20.—One of the most interested spectators at the organization of the house of representatives this morning was J. E. Wyatt, speaker of the law-making body of Prince Edward Island, Canada. Mr. Wyatt has been in Tucson some time for his wife's health. He came up to see how the Arizona legislature does its work, and may remain over for two or three days. "All this is very interesting to me," said Mr. Wyatt. "You do things very differently here. Your methods may be better than ours in some ways, but I feel sure that our system has some advantages over yours. Several years ago we dispensed altogether with the legislative council, and now we have only one house. The scheme is working very well, indeed, I cannot see where two houses are any check on legislation. You are just as likely to have good men in your lower house as in your upper. Some predicted that the abolition of our upper house would make it easy to pass unwise legislation, but such has not turned out to be the case. I expect to see all legislative resolved into one house before many years have passed. The plan is being looked on with more and more favor throughout the world." Honorable John Edward Wyatt, K. C., M. P., speaker of the house of parliament of the Dominion of Canada, was by unanimous consent recognized by the speaker to address the house. Mr. Wyatt for forty minutes told of the difference between the house of parliament over which he presided when at home and the Arizona house. He was applauded at the close and a rising vote of thanks was tendered for his interesting address. Mr. Wyatt returned thanks in appropriate terms.
