THE CHARLOTTETOWN GUARDIAN

TUESDAY, MARCH 14, 1911.

THE REPORT ON PUBLIC SCHOOLS.

The number of school districts, 479, and the number of schools, 478, was the same in 1910 as in the year previous. The number of vacant schools was 4, the lowest since 1903. There were 28 vacant in 1904 and 25 vacant in 1903.

The number of teachers employed decreased from 595 to 591, but there was an increase of 5 in first-class, a like number of second-class and a decrease of 8 in third-class. In like manner there was an increase of 10 in the number of male teachers and a decrease of 14 in the number of female teachers.

The total number of pupils enrolled in 1910 was 17,932, a decrease of 114, but there was an increase of 89 in the average attendance. The enrolment was the lowest since 1877, a period of 33 years, while the percentage of attendance was slightly higher than at any time during that period and was 10 per cent. higher than it was in 1878.

The total expenditure for education in 1910 was $181,572.10 of which $127,647.57 was made by the Government and $53,924.53 by the school districts.

The amount for each pupil in daily attendance paid by the Government in 1910 was $9.97 and the amount paid by the school boards $4.63, a total per pupil of $14.60.

The expenditure for each student enrolled at Prince of Wales College for the year 1910 was $48.26, a decrease of $1.94 as compared with the previous year.

The cost of the Educational Commission is set down as $3,652.21.

The supplements voted at the annual school meetings was $23,792.92, being the highest in 30 years and was more than double that of thirty years ago and almost three times that of the year 1901, showing a fine increase in the comparatively recent years.

The annual report of the Macdonald Consolidated School contains the following particulars:

"Prior to 1905 each of the six districts—Cross Roads, Bunbury, Mt. Herbert, Mermaid, Bethel and Hazelbrook, had a one-roomed rural school for the education of its children. The buildings in most cases, were uninviting and the surroundings bare and cheerless. Pupils attended irregularly, the boys over 12 being present but a few months in winter. Lack of interest was evident on the part of pupils and parents. Individual taxes ranged from 20 cents to $5.20. The average contributions by rate-payers was but 11 cents on the $100 property valuation and the total salaries received by the six teachers was but $1,190. During the five years previous to consolidation these six districts matriculated but one pupil to Prince of Wales College.

"The Consolidated School, with its light and airy rooms, ventilation and steam-heating systems, excellent equipment and beautiful grounds, is a monument to the genius of Dr. James W. Robertson and to the generosity of our Island Millionaire, Sir William C. Macdonald. For the first three years the six districts contributed merely their previous assessment on property and valuation: but at the expiration of that time three of the six remained in consolidation and agreed to pay 40 cents on the $100 valuation. Individual taxes now range from 80 cents to $20.80. There is a voluntary fee of $2 per pupil for the first three in a family. Pupils from outside districts pay a tuition fee of $5. The Provincial Government pays the statutory grant. Sir William C. Macdonald contributes $1,200 and the deficit is made up by Dr. James W. Robertson."

It is a truly remarkable story of notable generosity on the part of the gentlemen named and of greatly improved educational privileges in the section of the country where the school is established. During the five years the school has matriculated twenty pupils from these same districts which produced but one in the previous five years! There are many other interesting facts in regard to the Macdonald School and the schools of the Province generally to which space will not permit further reference today.

TEN THOUSAND VOTERS NOT FREE

There are more than ten thousand voters in Prince Edward Island who are not quite as free as they ought to be to vote according to their honest convictions in provincial elections. These include the host of Dominion Government and railway officials and employees. Think of the numbers employed in the railway at headquarters in this city and in the railway shops, with the station agents, train hands and section men. Then add the postmasters, and employees of that service, and of the customs, inland revenue, fisheries and other departments. To these add the host employed or paid in one way or another, by the local Government. Nearly six thousand persons appear to have been paid sums small and large by the Public Works Department alone last year,—mostly small sums it is true—in connection with roads, bridges, ferries, public buildings and bushing ice.

It would be an awkward thing for any of these to vote openly against the Government or its candidates. And equally so in the case of thousands of other employed persons or debtors to vote against the known wishes of employers or creditors when the latter hold strong political views. Such persons need the protection of the ballot. But those who can exercise improper control over the votes of others do not want the ballot. And the bribers, who use money and whiskey to influence votes do not want the ballot. They want the open vote in order to see that their work is made effective and to know that the votes they have bought are delivered. It is beyond question that very many among all the thousands above referred to feel themselves under restraint in regard to how they shall vote. They want the ballot.

The sentence imposed yesterday at the Police Court on a disturber of the proceedings at the People's Theatre on Saturday night carries with it a needed and wholesome lesson. Too many persons of this class in town and country think apparently that they may be as disorderly as they please at public gatherings. On the contrary the laws for the protection of order at public meetings are strict and the Magistrate will be amply supported by public opinion in enforcing the legal penalties against any who violate them.

IN MEMORIAM.

There passed peacefully away in the early hours of Sabbath morning, February 12th, 1911, at Argyle Shore, Grace MacDonald, widow of the late Donald McLean, in the 61st year of her age, leaving to mourn a large circle of friends and relatives. The late Mrs. McLean had always enjoyed the best of health until about a week before her death, when she contracted pneumonia, and although waited on with loving hands and skilled nursing, she passed away from earth to enjoy that rest which remains to the people of God. The deceased will be greatly missed by all who knew her. Her kind and unassuming disposition and true Christian character won for her the esteem of the entire community and endeared her to all who had the pleasure of her acquaintance. The funeral services at the house and grave were conducted by her pastor, Rev. Jas. MacDougall, and the large number of people from far and near in attendance gave evidence of the high esteem in which deceased was held. "Them also which sleep in Jesus will God bring with Him."

Imported Absolutely!!

The Examiner points out that the large sum of $36,642 was paid by the Province last year on its indebtedness. This is true, but it is only part of the truth. The Province was also in receipt of $44,669 in interest, being 5 per cent. on the sum of $893,389 standing to our credit at Ottawa. So that the Province actually received last year eight thousand dollars more on interest account than it paid out.

The Saskatchewan Legislature by nanimous vote has declared for reciprocity, and for absolute free trade within the British Empire eventually. Mr. Haultain, the Opposition leader, and one of the ablest men in the Conservative party in Canada, declared himself strongly in favor of reciprocity, with no fear of annexation as a result. Among other things he also stated that he is "not prepared to sit at the feet of any of these eastern Gamaliels to study loyalty."

Toronto seems strongly opposed to reciprocity. A meeting of 4,000 people in Massey Hall on Thursday night last adopted a strong resolution of protest against the trade agreement. The Toronto Globe tells that the Union Jack was waved, any mention of the Stars and Stripes was hissed, and expressions of patriotic sentiment were frantically applauded. The Toronto News has been taking a vote among the employees of large concerns in and around Toronto, most of which give very large majorities against reciprocity. The police force gave a solid fifty that way with none in its favor.

An objection has been taken to the reciprocity agreement on the ground that under the most favored nation treaties of Great Britain, the products of the Argentine Republic, Austria Hungary, Bolivia, Columbia, Denmark, Russia, Spain, Sweden, Venezuela and Switzerland would be admitted to Canada on the same terms as those of the United States. Although Canada's trade with these countries is small, it is announced from Ottawa that when Sir Wilfrid Laurier goes to the Imperial Conference he will endeavor to have the treaties referred to revised or abrogated as far as Canada is concerned. When this is done the objection referred to will no longer exist.

THE NEW YORK HIPPODROME.

"Marching Through Georgia," the new spectacle at the N. Y. Hippodrome, will begin its second week on Monday next. The new piece has been called a panoramic play of the South. The opening scene shows a cotton plantation at mid-day, oxen and mule teams, cotton bales and long rows of the growing cotton; singing, whistling and dancing darkies make up a realistic picture. 200 extra jubilee singers and dancers have been engaged for this feature. Mr. Voegtlin has produced several new and excellent scenic effects, notably a perspective in the cotton field scene. The conclusion of the new spectacle is marked by the building of a Pontoon Bridge which is actually constructed in full sight of the audience and so practically is the work done that a regiment of soldiers, a cavalry troupe, a band of negroes and soldiers mounted on horseback across the bridge at the finale. Beside the big new show which met with instant success on the occasion of its premiere last Monday, two other spectacles "The Ballet of Niagara" and "The International Cup" as well as the big circus program including "The Great Albas" in his head slide down a tight wire, Armando and his boxing kangaroo, Maude Wulff and her golden horse and dog, etc., form part of the big and varied program. Marceline, the children's clown, is also a feature of the present show having returned from his tour on the road. At the Hippodrome on Sunday night at 8.30 Mme. Luisa Tetrazzini will be heard in concert. A special program of popular music has been arranged for the occasion. Mme. Tetrazzini will be assisted by Nahan Franko and his orchestra of sixty-five musicians.

Could Not Walk Ten Yards Without Resting.

WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills, for they are the greatest pill I have ever used and I can recommend them to all sufferers."

Thousands of people go about their daily work on the verge of death and yet do not know it.

Little attention is paid to the slight weakness of the heart for the simple reason that one thinks it will right itself, but there is where the mistake is made. It is only when a violent shock comes that the weakness of the heart becomes apparent.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure.

Price 50 cents per box, or 3 for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Brent Good

AN ISLANDER HONORED.

Dear Guardian:—I cannot resist the temptation of writing you a few lines which I know will be read with sympathetic interest by many of my friends in P. E. Island. As well as the many friends of Brother Henry S. Moore, the hero of the occasion. On the 7th of February last a young lad named Neil Campbell went through the ice on Sydney harbor in the track made by the S.S. Bruce on a recent trip to the International Pier. Brother Moore, who witnessed the accident at some distance, made all haste to the rescue. And without waiting to remove his skates went down into the icy water and succeeded in finding and saving the lad who was all but dead. Brother Moore himself was much exhausted, but his superior physical strength enabled him to come through the ordeal ap-
