

Large, Red Pimples Covered Her Face

Miss Mable Moore, Blenheim, Ont., writes: "A short while ago my face was covered with large, red pimples. I tried several remedies, but all failed. At last a friend advised me to take

and I took three bottles. I will never regret the day I did this as my face is entirely cleared up. My mother has taken B.B.B. for headaches, and she hasn't had the least sign of a headache for a long time."

This valuable remedy has been on the market for the past 48 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

IN MEMORIAM

MRS. DAVID COLE.

Sincere sympathy is extended to the husband of the subject of this obituary, in the affliction that he has suffered in the protracted illness of the deceased lady and her lamentable death. She had borne her heavy cross with heroic fortitude and ascended to the Judgment Seat strengthened with the merits of penitential works. In maidenhood she was Annie A. Orr and was born at New Glasgow, September 7, 1866.

Early in life she was married to Mr. David Cole, Clinton, where they started housekeeping, and united with the Christian Church. Exemplary Christians they proved themselves to be, and commanded respect wherever they were known. She essentially realized the true concept of wife and mother, and endeavored to conform her life to these principles.

The funeral was held on Saturday from the home in Kensington to the Clinton cemetery, the services being conducted by Rev. Fred Williamson, assisted by Rev. George Ayers. The pallbearers were Bradford Milman, Harlan Found, John McEwen, Layton Rogers, Alexander Hiltz and James Bernard. The minister preached an eloquent sermon appropriate to the sad event, bestowing devout consolation upon her husband and her daughter, Mrs. Marshall Constance. Of her own family, there survive one brother, Parmesan Orr, Kensington, and sisters, Mrs. Elizabeth Chipman, Millbridge, Maine; Miss Agnes Orr, Hallister, California, and Mrs. Stanley Bernard, Medford, Mass.

To the sorrowing relatives the deepest sympathy is extended. The flowers from the family and friends were beautiful and were an additional testimony of the profound respect in which she was held.

Scientific Facts

Of the 308 known varieties of plants only 13 emit pleasing odors. Nearly one half of the world's wool supply comes from British possessions.

A new horn for orchestras is claimed to accurately reproduce the human voice.

More than 3,000,000 trees have been planted in Palestine in 1926.

Liberal traffic rules in 1913 have been drafted by the British Air Ministry.

A process has been patented for weaving durable door mats from discarded automobile tires.

Passenger airplane service has been established connecting the four main islands of Hawaii.

Revolving blades operated by hand are of the usual type form new shears for cutting heavy materials.

Electricity is being transmitted in Japan at a pressure of 154,000 volts for a distance of 194 miles.

Several small cooking utensils can be handled in and out of ovens at the same time with a new wire rack.

Diesel engine locomotives using hydraulic transmission have been successfully tested on British rail ways.

A handle that grips a cake of soap or a comb has been invented to keep its user's hands out of hot dish water.

Of Germain invention is a coal burning heater that supplies enough hot water for a shower bath in a few minutes.

Operating at an air pressure of 100 pounds, a new yoke riveter can exert a pressure of 50 tons on the rivet die.

Marling, that is lighter than cork is being made in Sweden from moss insulation from heat, cold, and sounds.

Rain coats, kitchen aprons and other wearing apparel are being made from waterproof paper in a Wisconsin factory.

Forty-two of the approximately 600 electric generating stations in England produce 56 per cent of the nation's current.

The United States uses more than 8,000,000 tons of paper each year, about 56 per cent of all manufactured in the world.

A single cylinder motor and air propeller to be strapped to a person's back have been invented in Germany for use in skiing.

The speed of a racing motorboat is ten miles an hour by the addition of an airplane wing.

Long distance telephone service has been established in Peru between Lima and its suburbs and the towns of Ancón and Chocoma.

It has been estimated that it costs the railroads of the United States at least \$8,000,000 a year to slow locomotive wheels.

Scientists are making church bells out of an aluminum-copper alloy that weighs only about half as much as those made of the usual metal.

Spring contact wire tongs have been invented to lift crabs or vegetables from boiling water without injury or danger of slipping.

A French inventor's machine for home use converts wheat, with the addition of other ingredients, into bread dough without grinding.

Operated by an electric motor, a household ice cream freezer has been invented that stops automatically when its contents are frozen.

A Scotch city is experimenting with small houses for the working classes built of wood and steel without the use of brick or plaster.

Tests at hatcheries in Kansas have shown that fish kept in pools treated with iodine grow more rapidly than those kept in untreated water.

A Swedish engineer has invented an electric siren with which a submarine boat can signal its movements under water or when about to emerge.

A vest pocket metal case has been invented to carry a smoker's daily supply of tobacco, which is poured out a small opening without any waste.

A new form of porcelain for electrical appliances invented by a German withstands sudden extreme temperature changes without being injured.

A camera lens developed by the United States Bureau of Standards enables photographs to be made from airplanes in half of the former time.

An extension is being made to the Spitalfields Market in London that will make it the largest building of its kind under one roof in the world.

Production of high quality, especially suited to airplanes, is being obtained from natural gas by a new process at plants in California and Wyoming.

A hydroelectric plant has been placed in operation in the German province of Brandenburg and others are planned to reduce the consumption of coal.

Sensitive sound detectors are needed to a central listening post of an aluminum-copper alloy that have been designed to enable watchmen to locate any intruder into a large building or extensive grounds.

Headaches Disappear—Stomach Gains Strength

Whole System Braces Up, Vigor Returns. Appetite Increases. DR. HAMILTON'S PILLS

No Regulating Medicine Brings Results So Quickly

Half sick men and women who scarcely know what ails them, will be given a new lease of life with Dr. Hamilton's Pills. Depressed spirits disappear, headaches are forgotten, appetite increases, blood is purified and curbed, pains at the base of the spine are stopped, the nerves are toned up, ambition to work is increased and day by day the old-time health and vigor return.

DEATH OF MRS. ARCHIBALD MACEACHERN, CARDIGAN. There passed away at St. Peter's Road, Cardigan, on Friday the 8th inst. Flora (Gillies) wife of Mr. Archibald MacEachern of that place. The deceased was born near Eldon seventy-eight years ago, being the eldest daughter of the late Hugh and Isabella (Fraser) Gillies. When a girl the family moved to Martintvale, Lot 53, King's County. Shortly after she married Archibald MacEachern who survives her. They were blessed with a family of ten, nine of whom are living, four sons and five daughters, which was some family—an incident worth noting is that her eldest child was twenty-five years of age the day her youngest was born. The deceased enjoyed good health all her lifetime till a few days before her death when a cold developed into pneumonia and she came quickly. Interment took place on the 13th inst at Cardigan Bridge Presbyterian Cemetery. Attended by a large assemblage of sorrowing relatives and friends. The service being conducted by Rev. John Sterling of Montague. Thus closes the life of a cheery, kind, hospitable and truly good woman.

Tryon Tid Bits

Mr. Augustus MacLellan, North Tryon was a recent visitor to Summerside.

Mr. Harold Mabey, Principal of Borden School, was at his home in Tryon for Easter.

Mr. W. H. Lea, assistant telegraph operator at Royal Jct., spent his Easter holidays at his home in Tryon.

Mr. Sterling McKay, the obliging C. N. R. agent at Albany, spent Good Friday in the provincial Capital.

Mr. W. A. Pooley, North Tryon, made a business trip to Summerside Saturday returning home by the afternoon train.

Miss Stirling McKay Albany, went to Charlottetown on Tuesday called there by the serious illness of her mother Mrs. Waye.

Miss Grace Kinn of Summerside High School staff, spent the Easter holidays with her mother Mrs. Cassie Kinn, North Tryon.

Miss Amy Howatt, Principal of Darnley School, visited her parents Mr. and Mrs. Bruce Howatt, Tryon, during the Easter holidays.

Mr. and Mrs. George Hennessey, and family Charlottetown, spent the holidays in North Tryon the guests of J. F. and Mrs. Lord.

Our general mail courier, Mr. Sampson Walsh had a well earned holiday on Good Friday. Needless to say he was missed all along his route.

There is a strong rumor that J. A. Lyman is seriously considering moving his fine Ice Cream Parlour to Albany. Tryon's loss will be Albany's gain.

Residents of North Tryon, are glad to see John H. Thomas out and around once again. Mr. Thomas has been confined to his home about all winter.

The Easter services in the churches of Tryon, were well attended (considering the state of the roads) and the special sermons and music was enjoyed by all present.

Miss Ruby Lord of R. T. Holman Ltd., Summerside, returned to her duties on Monday April 11th after spending a week's vacation with her parents Mr. and Mrs. Charles Lord, North Tryon.

Mr. Reuben Rogerson, of Tryon, reports business (at the overall and glove line good) this spring. Mr. Rogerson represents the large and well known Hamilton Carhart Clifton Mills Ltd. of Toronto.

The Utopian Society of the Tryon United Church met in the vestry of the church Friday evening and spent a very pleasant evening. The attendance was good and a special Easter offering was made.

Miss Edith Lord of the staff of R. T. Holman Ltd., Summerside was a passenger by the morning train on Saturday returning to the city after spending the holiday with her cousin Miss Amy Lea, Tryon.

The freight yards at Albany present a busy appearance these days for although the roads are anything but good freight must be removed as soon as possible, and potatoes are still on the move with more to follow.

Side, Back, Arms Ached All Night

Mrs. James Lavery Secured Quick Relief From Amber Colored Liquid

Goderich, April 20th.—From her home on Bennett street comes word of the wonderful results Nerviline achieved in Mrs. Lavery's case. She suffered from shooting pains in the side, back and arms. These muscular pains caused intense distress. Ordinary measures failed. Then Nerviline was applied. It penetrated quickly. Its pain-relieving influence quickly brought ease and comfort. All pain disappeared—recovery complete. This all goes to prove what a wonderful liniment Nerviline is. Every drop rubs in—and the pain comes out. Get a large 35c bottle to-day.

DEATH OF MRS. ARCHIBALD MACEACHERN, CARDIGAN

There passed away at St. Peter's Road, Cardigan, on Friday the 8th inst. Flora (Gillies) wife of Mr. Archibald MacEachern of that place.

The deceased was born near Eldon seventy-eight years ago, being the eldest daughter of the late Hugh and Isabella (Fraser) Gillies. When a girl the family moved to Martintvale, Lot 53, King's County. Shortly after she married Archibald MacEachern who survives her.

They were blessed with a family of ten, nine of whom are living, four sons and five daughters, which was some family—an incident worth noting is that her eldest child was twenty-five years of age the day her youngest was born. The deceased enjoyed good health all her lifetime till a few days before her death when a cold developed into pneumonia and she came quickly. Interment took place on the 13th inst at Cardigan Bridge Presbyterian Cemetery. Attended by a large assemblage of sorrowing relatives and friends. The service being conducted by Rev. John Sterling of Montague. Thus closes the life of a cheery, kind, hospitable and truly good woman.
