MATINEE 3.15. NIGHT 7 AND 8.45
Matinee, Adults 11c. Children 5c.
Evening, Orchestra 26c. Balcony 21c
Children 11c.

It starts with a fire and shipwreck at sea; it rises to unprecedented heights of emotion through daring rescues and adventures; it reaches the climax in an elopement at the altar!

An exciting love-melodrama of the sea. With Dorothy Dalton as a pampered society beauty and Jack Holt as the rough stoker she falls in love with. A story packed with wild adventure in storm and shipwreck, brilliant with love scenes in luxurious settings. Produced by the man who made "Behind the Door."

BURNED TO DEATH SITTING IN CHAIR

MONTREAL, Feb. 12 Searching the ruins of the Balmoral Hotel at Sorel, which was destroyed, police and firemen discovered the body of J. Cotnoir, 60 years of age, of Sorel, who was reported missing after the outbreak. The body was seated in a chair on the spot where the hotel office had been. It was frozen stiff, and the firemen were obliged to cut away two feet of ice to get at it. It is believed when the fire broke out, and that he was not awakened by the alarm.

"I Now Feel Fine"

Mrs. P. G. Murdoch, Box 433, Portage la Prairie, Man., writes:

"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

A Great Year for the Great West Life

OVER \$2,600,000 OF SURPLUS EARNED

Continued evidence of substantial progress and increased prosperity are shown in the 1922 statement of the Great West Life. The great volume of \$56,116,675 new business issued in the year, the more than \$316,000,000 in force, tell the story of the wonderful organization the company has developed and what a large degree of popularity it enjoys with the insuring public. The year just ended has been exceedingly profitable for the great amount of \$2,608,083 of surplus was earned. As a result, big additions have been made to contingency reserves and to unallocated surplus. The transactions of the year added over \$6,600,000 to the assets, which now amount to \$49,198,255%. The participating policy holders of the Great West Life are a particularly favored body; their profits are always handsome. The Prince Edward Island branch under the management of Hyndman & Company reports that 1922 was the best year for the Company ever experienced in this Province, showing the large increase of 40% in new business written compared with 1921.

Aged Sixty-four Now Relieved of Rheumatism

ALBERTA MAN BECOMES A STAUNCH FRIEND OF DODD'S KIDNEY PILLS

Mr. A. J. Biermann tells how Dodd's Kidney Pills relieved him from his trouble.

MUNSON, Alta., Feb. 12th.—Mr. Biermann, well-known and highly respected resident here is a firm believer of Dodd's Kidney Pills.

"I was troubled with rheumatism for 18 months. I could not lay on my right side. I tried several boxes of Dodd's Kidney Pills and got relief. After the eighth box my trouble completely disappeared and I have not felt it since. I always keep them in the house. I shall always remain a friend of Dodd's Kidney Pills." Statements like these speak for themselves.

Rheumatism is caused by Uric Acid in the blood. The natural way to treat it is to strengthen the kidneys so that they will do their full work and strain all the uric acid out of the blood into the bladder. Dodd's Kidney Pills make healthy kidneys.

Ask your neighbors about the Dodd's remedies.

NEW TYPE OF SKI IS DEVELOPED

That the possibilities of the so-called laminated or built-up form of construction for wooden articles are as yet very inadequately recognized is pointed out by the Forest Products Laboratories of Canada (Dominion Forestry Branch), Montreal, where investigations in this connection are now in progress. Where the article manufactured requires very high grade material, entirely free from defects, it is obviously easier to secure what is wanted in smaller rather than in larger pieces and the use of several small pieces instead of one large one makes for high quality as well as economy of material.

The laminated Ski, recently developed at the Laboratories, is a most interesting example of this type of construction. The adhesive employed and the method of using it are of the first importance in built-up work and in this case a special waterproof glue is used. The new ski, which is being thoroughly tested both in actual use and at the Laboratories, appears to show great strength in proportion to weight as well as a high degree of resiliency and freedom from warping.

The World's Lowest Priced Quality Car

The selling price of any automobile is based on the cost of material, production, distribution and overhead. Large volume of sales greatly reduces all these costs.

The Chevrolet has so correctly gauged the present demand for a quality automobile providing transportation at the most economical cost, that its volume of sales has increased tremendously. It now occupies first place in sales of fully equipped quality automobiles.

Therefore it is possible for Chevrolet to establish the lowest price in the world for a quality automobile. Chevrolet is not merely the lowest priced

Says Mussolini Expected to Become "Emperor of Italy"

WASHINGTON, Feb. 12—That Premier Mussolini of Italy, had told him that he expected to become "Emperor of Italy" was the assertion today of Prince Louis of Bourbon, half brother of the King of Spain, who expressed his views on the stabilization of world trade to members of the Senate agriculture committee. With equal facility the Prince related how the King of Greece and the Grand Vizier of Turkey, among others, had told him the United States should "send American commissioners" to Europe.

Important Events in Radio

Among other important events of the past week in Radio, was the opening of the new Radio Broadcasting Studio for Station WJZ at the famous Waldorf-Astoria Hotel in the heart of New York City.

This solves one of the great problems of getting the best available talent for the broadcasting service. No longer will it be necessary to take the famous singers, violinists, lecturers, etc., all the way over to Newark. They will simply step into this splendid new studio in the heart of Manhattan and their performance will travel over a little wire to the great Westinghouse Station in Newark there to be thrown into space and heard under the utmost parts of the earth by millions of listeners.

Your Vision May Seem Perfect

—Yet a severe eye strain may exist—

The anomaly is that acuteness of vision may be perfect and yet a severe eye strain may exist. The majority of people thinking their eyes are right, are using too much energy to gain that apparently good vision. In consequence many are handicapped and are much less efficient. The remedy is to have their eyes examined, to put them in focus with their work. Ease will then take the place of discomfort.
