'SON OF LASSIE' BLESSED MOVIE EVENT FOR MILLIONS OF FANS WHO SAW 'LASSIE'

Here's the blessed movie event you've been waiting for, film fans! It's "Sons of Lassie," the new M-G-M hit at the Prince Edward Theatre, in which Lassie's son, Laddie, proves a worthy son of a wonderful mother. Everyone loved "Lassie Come Home" and everyone will rave about "Son of Lassie," filmed in breath-taking Technicolor amid America's most rugged splendors.

Donald Crisp and Nigel Bruce repeat the roles they created in the previous success. Peter Lawford plays Joe grown up and pretty June Lockhart, in her most important role to date, is the Duke's granddaughter, Priscilla, played in "Lassie" as a child by Elizabeth Taylor.

"Son of Lassie" tells of Laddie, a foolish little pup who grows up to follow his daring young master into many dangers and passes the true test of courage when courage means life itself. It takes up from Yorkshire, Lassie's home, to an air mission over occupied Norway, where Laddie and Joe are forced to parachute into danger and dog and master spend perilous days battling the enemy both physically and in duels of wits.

Strike In Rome's Black Market

NEW YORK, Dec. 12 — (CP)— Rome's black market has gone on strike against what its operators term "villainous persecution by the police and restraint of trade," the New York Post says today in a dispatch from the Italian capital.

The dispatch said the action followed a police raid yesterday which confiscated goods for sale in the black market, openly run on Rome streets. Operators were reported to have organized an association and are prepared to reopen only under these conditions:

1. Police activities against black market operators and seizure of goods must cease.

2. Attempts to form vigilance organizations opposing black marketers must stop.

3. Black market operators must be allowed to live in "peace and tranquility."

With deliberate poise not surprising in a man of seven marriages, Tommy (The Marryin') Manville greets Georgina Campbell, his No. 8, on her recent arrival in New York from Hollywood. In phase One: (above), the uncamera-shy Mr. Manville puckers up, sets his sights, judges his timing, allows for windage. Two: (below), with unerring aim, he plants one smack on the target

Farrah Case Is Dismissed In Police Court

The case of Albert Farrah, Charlottetown, charged with possession of counterfeit sugar coupons was dismissed in City Police Court yesterday by Stipendary Magistrate E. M. Martin when Frank Burt, only witness for the prosecution, repudiated a signed statement which he earlier made to the R. C. M. P.

The magistrate ruled that Burt was an adverse witness and allowed the prosecution to examine him on the statement given by him on Nov. 8 to the Royal Canadian Mounted Poice and the Wartime Prices and Trade Board investigator.

Questioned by the prosecution as to why he had made the statement Burt said that he was in a "jam" and had to say something but that "actually he did not get the coupons from Farrah," the accused, but got them from "an unknown person."

The Court then examined the statement and read it, as follows:

"I, Frank Burt, fisherman, of Stanhope, P. E. I., having been duly warned by Cpl. W. S. Roome of the R.C.M.P. state: About the first week in September, 1945, Albert Farrah of Charlottetown sent word to my sister Clara Burt, at 219 Sydney Street, Charlottetown, that he wanted to see me. My sister sent out word by Syd. Gauthier of Stanhope, her brother-in-law that Farrah wanted to see me. A few days later I went to Charlottetown and met Farrah on the street and he asked me if I wanted some sugar coupons. I told him I would take two hundred. He said he had six sheets and I might as well take the lot. I took the six sheets and gave him fifty dollars in cash although he said the price was one hundred dollars. We were in his car when the deal was made. He went into his house to get the sheets I think, as he had them when he came out to the car again. I never did pay him the other fifty dollars and no arrangements were made between us when the sum had to be paid. The same day I came home and on my way I saw Charles Willis who operates a general store at Covehead, in Charlottetown, and I gave him the six sheets of coupons. I asked him at that time for two bags of sugar. He said he could if I had the coupons. I then gave him the six sheets as I received them from Farrah. I got the two bags of sugar from Willis a few days later at his store and he charged me eight dollars and fifty cents a bag. A week or so later Farrah came to Stanhope looking for me and he found me at Will Myers, my father-in-law. He called me out of the house and he asked me if I had the coupons and I said no. He asked me if I had got my sugar on them, and I said two bags. He then told me they were counterfeit coupons. He also told me to try and get them back and he would refund the fifty dollars. I told him I would see what I could do. I got up early the next morning and went to see Willis. I asked him if he had turned them in and he said I don't know but come into the store and we will see. We went in and found they had been turned in.

(Sgd.) "Frank Burt."

Stanhope, P. E. I.
Nov. 8, 1945.

Mr. G. R. Holmes, for the prosecution, asked that in view of Burt's repudiation of his statement the information be dismissed. The Court ordered accordingly.

Mr. D. O. Stewart appeared with Mr. Holmes for the prosecution and Messrs. J. J. Johnson, K.C and J. B. Johnson for the defence.

BLIND GIVEN "SOUND SIGHT BY ELECTRONIC "SEEING EYE"

SANTA MONICA, Calif., Dec. 13 — An electronic device which enables the totally blind to distinguish colors on automobiles by feeling the reflections of light was described today by its inventor, Byron Brown.

The device perfected by Brown, an electrical engineer, enables blind persons to "feel" objects in front of them when they don an eyeglass equipped with light-sensitive selenium. It transmits sound to bone behind the ear when an obstruction comes between it and the light.

"He can judge the height, weight and number of persons in front of him," Brown said. "He can tell when automobiles are coming and whether they are of light or dark color. He can even tell when the moon comes out from behind a cloud."

"After 10 or 12 hours of use, one should be able to thread his way in and out of traffic and have no trouble," Brown said.

The inventor said his "seeing eye" acted on somewhat the same principle as that which enables a bat to fly safely in the dark by throwing sound waves ahead of it. The waves rebound and are picked up by the supersensitive sound conductor.

Marcus, Jewish chaplain in the United States Army, asserted today that British troops in Germany "club Jews in the concentration camps for displaced persons because the British want them to get disgusted change their minds about going to Palestine and return to Poland."

Marcus told a press conference sponsored by the World Jewish Congress that he had investigated conditions under which Jews are living in displaced persons camps in the American and British zones of Germany. He declared the conditions "continue gruesome despite President Truman's directive and Gen. Eisenhower's orders to improve them."

Capt. Marcus said Jews have been streaming back from Poland becuse of porgoms and "rife anti-semitism which is being nurtured by reactionary forces from within and without that country."
