In loving remembrance of Charles W. Gordon, Rosemeath, who died in Edmonton, Nov. 8th, 1918.

### MR. JAMES BRADLEY

The death occurred on Oct. 21st at his home in St. Theresa, of James Bradley, a life long resident of that place. Mr. Bradley had been in poor health for about a year and the best medical treatment and kind attention failed to prolong life. The deceased was a man of retiring disposition and possessed in a marked degree the qualities that distinguish a truly Christian gentleman. His life was exemplary and truly a preparation for death, which found him ready and prepared for the end. He was visited frequently by his pastor, Rev. Fr. R. A. McDonald and received the last rites of the Roman Catholic Church of which he was a

## IN U. S. TO FLOAT LOAN

NEW YORK, Nov 8.—Rev. Michael O'Flanagan, vice president of the Sinn Fein landed today from the steamship Centennial State and was enthusiastically greeted by local Sinn Fein adherents. One of the objects of his visit to the United States, he said, was to assist in floating a \$20,000,000 loan for the "Irish Republic."

Hostess—Well, Tommie, when you get home, you can tell your mother for me that you are the best behaved boy at table I ever met. Tommie—Thank you, ma'am, but I'd rather not. Hostess—Rather not! And why pray? Tommie—She'd think I was ill, ma'am and send for the doctor.

### Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seely's Bay, Ont., writes: "For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods. I used many different medicines as a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

A vote of thanks was also tendered Mr. Walter Burke who attended to the lantern and slides.

## Does Nobody Love Willie?

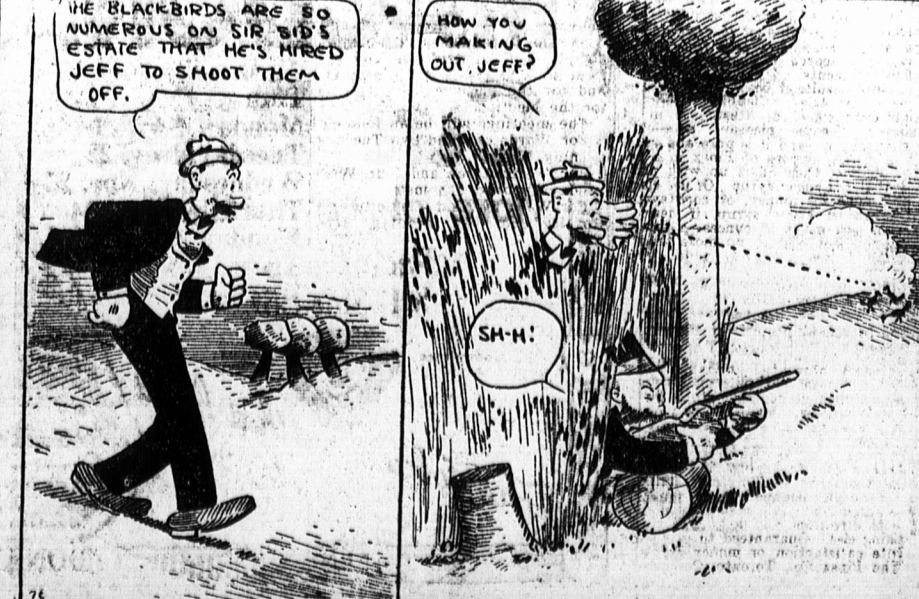

(Continued from page 1.)

Does it occur to Mr. Crerar at all that if unhappily Mr. King should disappear under the surface there will be only one named, advertised and acknowledged "leader" of the anti-Government parties in Parliament; and that his name will be Crerar? We earnestly hope not. "If the salt has lost its savor" it is discouraging to find these frailties in the self-appointed apostles of perfection. Still it must be admitted on behalf of Mr. Crerar that there appears to be a most beautiful spirit of resignation displayed by thousands of Mr. King's own political partisans. The painful reaction that he may not survive the coming game of "out throat" in North York. Mr. Crerar has no monopoly of this stoical fortitude in the presence of a danger to a dear friend. Sir James Barrie's famous S.F.T.P.O. D.W.S.P. (Society for the Purpose of Doing Without Some People) was a small and limited organization when compared with the rapidly emerging S.F.T.P.O.D.W. Willie. And the echoing winds cry "Why? Why is the pending elimination of Willie so popular? Why are they all so willing that he should leave but should not arrive? Isn't this a matter which the Society for the Protection of Women and Children—and non-combatants generally—should look into?" It certainly seems to us that the young man is being ill-used. Mr. Crerar in Marquette has been withdrawn. The Manitoba Liberals refuse to be guilty of any such "frightfulness" as a flang attack upon the Progressive leader while he is rallying the hosts of the Lord against the mighty. Why is there no reciprocity for the Ontario "twins?"

No one could blame Mr. King if he were to drop out of the race, and leave the forces of Progress flat on their backs. They have given him a safe seat; or else should have pulled off burmanly and made his own seat safe. But all they seem to have done is to make it impossible for him to seek any other seat. If they wanted to find him among the "missing" in the quiet gray dawn, after the battle, they could not have turned the trick more effectively. But the most touching feature of the situation is that the prospective victor is perfectly cheerful and apparently unsuspecting. He dances forward to his fate. He is disturbed by nothing but high explosive shells; and was a firm believer in the policy of Disarmament long before this man Harding summoned his belated Conference.

## Canadian Sapper

The S. S. "Canadian Sapper" sailed from here Friday evening with a large general cargo for St. John's, Newfoundland. This is the "Canadian Sapper's" last trip from here to St. John's, Newfoundland, this season. This steamer has made regular trips between Montreal, Charlottetown and St. John's, Newfoundland, during the past season, and carried large cargoes. In livestock alone, she carried from here in all about 150 head of cattle, 75 horses, 1800 sheep and over 2000 pigs. And it is interesting to know that of all the livestock she carried from here, she did not lose one single hoof. It might also be interesting to some to know that on her voyage eleven calves were born which were landed at St. John's, Newfoundland in healthy condition. The "Canadian Sapper" has been one of the most popular steamers, entering and clearing from this port during the past season. Her Master, Captain Blouin, not only a genial, good fellow, but is liked by all who came in contact with him. He has time and again demonstrated his ability as a navigator, while his First and Second Officers LeBlond and McDonald both having equally generally distinguished as their captain, know their work and do it. It has often been remarked that the success, the popularity of the "Canadian Sapper" is in a large measure due to the goodwill between the captain, his officers and crew—when such good relations exist, how can they do otherwise, than have a pleasant smile for those they meet. The "Canadian Sapper" although now on her last trip from here to St. John's, Newfoundland, this season, will again call here about the 14th of this month and load a general cargo of potatoes for Havana direct. A number of city merchants have got together, and more or less an experiment are loading a cargo of P. E. Island farm products for Havana, and notwithstanding other steamers had offered to carry this cargo, the Canadian Sapper was given the preference, and chartered. The Guardian takes this opportunity to express its appreciation to her last trip from here to St. John's, Newfoundland, this season, will again call here about the 14th of this month and load a general cargo of potatoes for Havana direct.

## Another King Bubble Burst

Sir Henry Drayton recently made a very effective reply to the general charges of extravagance, which Mr. King and his lieutenants have been hurling against the Government. He showed that on the basis of similar service the ordinary expenditures of the Government in 1920-21 increased by only 7 per cent over the pre-war year, 1913-14, the figures for the two years being as follows:

1920-21	134,304,439	1913-14	126,013,044
Increase		Increase	\$ 8,291,395

Sir Henry made another comparison. He deducts from the expenditures of 1920-21 only the charges directly arising from the war debt, namely, charges for pensions, interest on war debt, soldier's land settlement and re-establishment expenditures, and he declares the increase over all other expenditures in 1920-21 compared with 1913-14 was only 21 per cent, his figures being:

1920-21	152,578,033	1913-14	126,013,044
Increase		Increase	\$ 26,564,989

When you take into consideration the increase in the cost of labour and supplies, it will be seen that these increases are very moderate and reasonable. Compared with the increases in the expenditures of the various provinces, the advantages is all with the Dominion Government. In this connection the following statement is submitted:

ORDINARY EXPENDITURES

Province	Fiscal Year	1920 Per Cent	Ended Increase
Prince Edward Island	Dec. 31	445,396 \$	660,774 48
Nova Scotia	Sept. 30	2,098,893	3,916,848 86
New Brunswick	Oct. 31	1,428,774	2,969,328 99
Quebec	June 30	8,624,068	13,550,740 56
Ontario	Oct. 31	11,819,211	25,880,843 119
Manitoba	Nov. 30	5,638,653	10,602,855 83
Saskatchewan	April 30	5,896,380	8,707,333 61
Alberta	Dec. 31	6,401,695	10,423,566 93
British Columbia	March 31	15,766,921	11,568,003 Decrease 26

Provinces as a whole—56 per cent increase over 1914. The large expenditure of British Columbia in 1918-14 was due to extensive programme of Public Works, roads, bridges and public buildings, which ceased after that. Otherwise the increase of expenditure has been increased proportionately along with other provinces.
