In spite of the cold weather there was a large audience, who showed their appreciation with hearty applause. The plays were the same as were presented at a studio night recently. The costumes were striking and the acting excellent, with ability to hold the audience's attention all the time, which is the mark of every true actor. The orchestra kept the moments between plays lively. The public hope to see more from the Little Theatre Guild. S

Miss Vimy Jones Representative On Hockey Body

Miss Vimy Jones, daughter of J. Walter Jones, M. L. A., Bunbury, P. E. I., and Mrs. Jones, has been appointed Maritime representative for the Canadian Women's Hockey Federation, it was learned here.

Miss Jones, who is also a well-known horsewoman, is a member of the Charlottetown Abegweit Sisters hockey team, present Prince Edward Island women's hockey champions. She suffered from an attack of grippe during the last few days but was reported as slightly improved last night.

The suggestion has been advanced here that a Prince Edward Island women's team might represent the Maritimes against the Montreal club in the dominion women's hockey playdowns. The team would be picked from the Abegweit Sisters and the Summerside Crystals Sisters.

Geisha Girls Are Amused

WHONNOCK, B. C., Feb. 16—"Our hosts realized how cramped we get sitting on our heels and often invite us to get up and stretch halfway through a meal," says Margot Gordon, formerly of Whonnock, B. C. She is one of ten Canadian and American teachers visiting Japan at the request of the Japanese Government on a plan inaugurated last Autumn.

"We had special thrill when we stayed at a real Japanese inn at Tenryukuo." Miss Gordon continues, "The maids greeted us at the train with many bows and carried our bundles across to the inn where we took off our shoes and changed into kimonos. The geisha girls who entertained us at dinner—served, of course, Japanese fashion, on individual trays on the floor—were just as curious about us as we were about them, they came into our rooms afterwards and looked at our clothes and giggled.

"The beauty of Japanese houses is a particular joy and especially the use they make of woods—polished but unvarnished. When we go to a Japanese house—we visited two famous artists in Tokyo—I try to refuse the sandals we are offered, so that I may feel the shiny wood and the soft mats in my stocking feet.

"In some of their ceilings were woven strips of wood fibre, the floors elaborately inlaid, but the windows were plate glass, giving mountain and lake with its island and shore with patches of crimson maple trees. We drew 'shoji' over the windows instead of blinds, and our lamps were lacquer frames with paper but the light was electric."

United Kingdom Market Draws Canadian Cattle

(C.P. By Guardian's Special Wire)

OTTAWA, Feb. 16—Lower prices for live beef steers in United States markets and relatively high prices in the United Kingdom have resulted in a scramble for ocean shipping space by Canadian cattle interests.

The Federal Department of Agriculture said today the demand is developing beyond the capacity of the boats now plying between Canadian and British ports.

For the first six weeks of this year, Canada exported 4,278 head of beef cattle to the United States and approximately 3,700 head to the United Kingdom. Last year for the corresponding period Canada exported 29,069 head to the United States and 198 head to the United Kingdom.

Live cattle exports this year accordingly are more than 20,000 head below the first six weeks of last year, causing a substantial surplus in Canada. Officials here in close touch with the livestock industry estimate that at least as many cattle were being prepared for the market this winter as last, particularly in the feed lots of Ontario.

Prices in Chicago for live steers today ranged from $7 to $8.75 a hundredweight for the bulk of the sales and the corresponding prices a year ago were from $8.25 to $14. While Canadian steers do not bring top prices, it is estimated the present prices average three to four cents a pound below a year ago.

The existing prices in United States from which has to be subtracted two cents a pound duty evidently makes it more profitable to ship to the United Kingdom for the flow to United States has dried up and there is a rush to obtain ocean shipping space.

Little Junior MacNeill is steadily improving after being laid up with a severe cold.

NEW CHEMICAL KILLS VIRUS

NEW YORK, Feb. 16—Discovery of a sulphur compound, the first chemical ever found in the history of medicine effective in treating a virus disease, was announced recently in Science.

Flu and infantile paralysis are examples of human viruses. The new chemical cures distemper, an animal virus, and "cracks the ice" for the first time for the human field.

The announcement was made by A. R. Dochez, the man who found the virus of the common cold, and C. A. Slantez. Their work was done at the College of Physicians and Surgeons and the Presbyterian Hospital, New York City.

The new drug is sodium sulfanilyl sulfanilate. It is a distant chemical relative of sulfanilamide, the new "wonder medicine" in the germ disease world. It has cured distemper in dogs, cats and ferrets almost 100 per cent.

The human possibilities of the new chemical are still unexplored. They are not ruled out by anything found in the experiments to date.

CLAIMS POLICY

(Continued from page 1)

would make collective security impossible, Lord Arnold maintained, and some of the smaller nations contiguous to Germany would never be willing to go to war against her.

FORESEES DANGER

He suggested that if Germany took action on her grievances against Czechoslovakia, France would intervene and Great Britain thus would find herself in a war in which she had no interest.

There would never be permanent peace in Europe unti trere was a better understanding between Britain and Germany, he went on, declaring:

"Special responsibilities rest on Great Britain in the matter of German colonies. Britain should take the initiative and should do so now."

Lord Plymouth replied that if France were involved in a war, "it is perfectly obvious the action which His Majesty's government would take would have to depend on the circumstances of the case in which these hostilities had arisen."

The government was pursuing efforts for an understanding with Germany, he said. Any understanding with Italy must be a complet and comprehensive one.

Lord Ponsonby, Labor, suggested the government was aware that collective security is impracticable. It would be more courageous, he said, if the government exposed the fallacy of supposing that collective security is of any real effect.

The Archbishop of Canterbury said that in his opinion the league was "encountering very rough weather" and should "take in some of its sails."

Under existing circumstances, he suggested, article 16 of the Covenant should be kept in the background and article 11 stressed. (Article 16 calls for imposition of sanctions against aggressor nations; article 11 declares any war or threat of war affecting a member a matter of concern to the whole league and authorizes "any action deemed wise" to safeguard peace.)

By standing aside from the next European war, Lord Arnold said, Britain would be put in a strong position, and if she were subsequently attacked the United States would be unlikely to watch the British Empire go down to defeat.

"Under isolation there is a good chance of Britain keeping out of the next war," he added, "but under the League policy there is no chance at all."

Roosevelt Advisers At Loggerheads

WASHINGTON, Feb. 16—(AP)—A fight between two of President Roosevelt's top-ranking advisers grew more strenuous today when Joseph P. Kennedy chided Labor Secretary Perkin for opposing his program to settle United States maritime labor troubles.

Miss Perkins' arguments are "strange," the Chairman of the Maritime Commission said. He told members of the Senate Commerce and Labor Committees that unless they favored his program for federal mediation and restrictions on seamen's right to strike they would "invite the complete destruction" of the merchant marine.

Kennedy has suggested a system similar to the railroad mediation set-up. Seamen would be forbidden to strike pending federal mediation efforts and a federal report on the dispute.

Less than two weeks ago Miss Perkins told the same committees that Kennedy's program was "premature" because the industry was not "ripe" for mediation.

Canada Scores Overtime Win Over Germany

(C.P. by Guardian's Special Wire)

PRAHA, Czechoslovakia, Feb. 16—Canada was carried to overtime before defeating Germany 3-2 and the United States lost 2-0 to a lightly-regarded Czechoslovakian squad today as play opened in the second round of the world's amateur hockey championship. Sweden defeated Poland 1-0 in the third game.

Germany gave an unexpectedly good exhibition of smart hockey and the Canadian team, playing as Sudbury Wolves, only averted defeat by half a minute. With regular time all but expired and Germany leading 2-1 Gordon Bruce of Ottawa scored from a mix-up before the goal to force overtime.

Johnny Godfrey, Copper Cliff Ont., defenceman, fired home a long shot in the overtime for the victory.

Canadian Customs Act To Be Revised

(C. P. by Guardian's Special Wire)

OTTAWA, Feb. 16—A revised Customs Act based on the recommendations of a five-man departmental committee which has been working almost a year, will be introduced in Parliament next session, it was announced in the House of Commons today by Revenue Minister Ilsley.

It will be a complete revision of the laws governing imports, duties, drawbacks and the powers of the department of national revenue to set valuations for duty purposes.

Since last May, a committee of chairman George Sedgewick of the tariff board, Norman Robertson, department of external affairs; Hector McKinnon, commissioner of tariffs; H. D. Scully, commissioner of customs, and C. P. Blair, for many years assistant commissioner of customs, has been working on the revision.

They will circulate their recommendations to other departments interested in custom administration before reporting to the minister.

Floods, Cold Snap In Western U. S.

DENVER, Feb. 16—(AP)—Floods rolling through Oklahoma and sub-zero weather advancing across the broad Missouri River valley today brought death and hardship to the United States west.

Near Tishomingo, Okla., the rain-swollen Washita River swept Grady White, 30, cattle farm manager, to his death.

At Colorado Springs, Colo., Julius Englebrecht, 57, died of injuries suffered in a snow storm traffic crash. The deaths brought the two-day toll for the mountain and plains area to six.

Corrects Hansard Report Of Speech

OTTAWA, Feb. 16—(CP)—Declaring the Hansard report of his remarks in the House of Commons last night had inaccurately quoted him, opposition Leader Bennett today told the House he had not inferred the Ontario Liberal party had received a donation of $200,000 from Beauharnois Light, Heat and Power Company.

Premier Hepburn of Ontario today wired the opposition leader denying that Bethune Smith, treasurer of the Ontario Liberal party, had received contributions from Beauharnois or any other Quebec power company. He asked Mr. Bennett to withdraw the reference to Ontario, or make specific charges.

As the report appeared in Hansard, Mr. Bennett said: "It reads as though it had reference to a contribution to Mr. Bethune Smith. Such, of course, was not the case. It refers to $200,000 that was received by Senator Donat Raymond (former treasurer of the National Liberal party) from Beauharnois interests."

Olympias Win Opener From Soviets 3 - 1

The Olympias will carry a two-goal lead into the second game of a two-game total goal series for the right to meet the winners of the Alberton Regals-Summerside Soviets playoff for the McLean League championship as a result of their 3-1 victory over the Capitols at the Crystal Rink at Summerside last night. The winners scored a goal in each period while the losers got their only marker in the second.

The ice was in fine condition and both teams favoured a wide-open game. From the opening whistle the play raced up and down the ice to test both goalies. The opposing defences were working well as they broke up attacks and did a capable job of clearing the puck.

It was not until 13.17 that the red light flashed. Deighan carried to the Capitols' defence before slipping a pass to Hogan who raced in uncovered to force Ahearn to move before poking it past him into the net. In the closing moments of the period Ma[illegible] took a penalty to be quickly followed by Hogan, but the Capitols could not get organized. Shortly after MacDonald came back E. Sullivan took his place in the penalty box. The frame ended with the Olympias still shorthanded but the score 1-0 in their favour.

The second period saw a slackening in the pace as the defenses began to bump the opposing forwards. The Capitols tied the score at 10.40 when Gay passed out to A. Sullivan who was standing in the clear to beat Boates on a hard drive. The Olympias again went out front at 14.17 in a scramble as Rankin got a pass over to E. Sullivan who made no mistake. The Capitols were caught two men short as Gay and then Steele took penalties but Ahearn rose to the occasion to outguess the swarming Olympias. The period ended 2-1 for the red and white squad.

The third period was fast and clean with no penalties being handed out. Both goalies pulled smart saves as the forward lines began to throw the power plays. The Olympias held a slight edge of the play and at 5.20 Deighan gave Hogan a blue-line pass as they combined for the second time during the game to beat Ahearn. The teams missed several chances to score as they became overanxious on their plays. The game ended 3-1 for the Olympias.

Lineups:

Capitols—Goal, Ahearn; defense, Steele, W. Durant, Woodside; forwards, Clow, Gay, A. Sullivan, Carver, N. Durant, MacFarlane.

Olympias—Goal, Boates; defense, Hunter, MacDonald; forwards, E. Sullivan, N. Hogg, Hogan, Rankin, Deighan, Wedge.

Referees—E. Arsenault, Reg Phillips. S

Urge Employees Grant Leave For Militia Training

MONTREAL, Feb. 16—(CP)—Co-operation in granting employees leave for militia training is asked by Defence Minister Ian Mackenzie in a letter received by the Montreal Board of Trade. The request has been made to all trade boards in the Dominion.

The non-permanent active militia is Canada's first line of land defence, the Minister's letter said, "It is to these officers, non-commissioned officers and men that Canada must look for national security," he declared.

The Defence Minister described the subject as "a very important matter concerning preparation for the defence of Canada in time of war or emergency, real or apprehended." Employers were asked to make it possible for members of the militia to train "without feeling that their positions or employment may be lost by such patriotic action."

The Board of Trade Council recommended to member employers that favorable consideration be given the request.

ROLFE LIKELY HOLDOUT

CONCORD, N. H., Feb. 16—(AP)—For the first time since he joined New York Yankees, Robert (Red) Rolfe, stellar third baseman today indicated he might give Colonel Jacob Ruppert an argument before he signs a 1938 contract.

Rolfe said he hoped to get a "slight" salary boost before signing. He was reported to have received about $11,000 last year.

33 PLAYERS SIGNED

NEW YORK, Feb. 16—(AP)—Twenty of the 33 players on the Brooklyn Dodger roster have signed and sent in their contracts, general manager Larry MacPhail said today. MacPhail, however, would not disclose the names of any of the players who have come to terms, except for Van Mungo, star right-handed pitcher, whom MacPhail himself signed.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

British Cabinet

(Continued from page 1)

was expected to be dealt with by Seyss-Inquart and there was a suggestion Austria would seek increased control of her press.

French View

At Paris, former Premier Pierre-Etienne Flandin said Germany's success in Austria was directly attributable to France's failure to recognize Italy as conquerors of Ethiopia. With the end of the Ethiopian war, he said, France should have recognized Italy's victory. The consequence, he said has been the Rome-Berlin axis with the Reich apparently winning a free hand in central Europe. Czechoslovakia, he said, might soon be the next country affected by the Nazi campaign.

At Praha, the Czech capital, the newspapers headlined such declarations as "Austria undermined." But official circles expressed confidence Chancellor Von Schuschnigg would maintain independence of his country intact.

From the newspaper National Zeitung, generally regarded as Herman Goering's mouthpiece, came the suggestion that "a great German Reich composed of two states, and the birth of a single German people" is the New dream. (The German Field Marshal's mouthpiece was banned Wednesday from Austria because it said the way for unification of Reich-Austrian internal policy now was open. But the ban was lifted Wednesday night.)

SIX PROVINCES

(Continued from page 1)

espondence showed.

Manitoba indicated the provincial government had "no objection" but Premier John Bracken thought he and his colleagues ought to see the bill.

Premier W. J. Patterson of Saskatchewan told Mr. MacKenzie King that the provincial government "is entirely satisfied" with the proposal and "thereby approves of the same."

Premier Mitchell Hepburn wrote that "the government of Ontario is prepared to waive any constitutional objections and to give the fullest measure of co-operation and support to the proposed amendment.

Premier Angus L. Macdonald of Nova Scotia told the Prime Minister his government had "no objection to such an amendment being made."

For Prince Edward Island, Premier Thane Campbell declared his government "agreeable to the amendment being made."

The New Brunswick Government wants the proposal "in definite form," according to Premier A. A. Dysart's reply. Mr. Dysart also desire that the provincial legislature study it carefully.

The most recent communication on the file is from Premier William Aberhart of Alberta in which he indicated his government's intension to submit the matter of unemployment insurance to the legislature as soon as possible after Feb. 10. Mr. Aberhart accompanies his communication with a series of questions which he desired answered, and says that what his province needs is not unemployment insurance but crop insurance.

The proposed amendment to the B. N. A. act would add the words "unemployment insurance" to section 91, which lists matters under federal jurisdiction.

It is proposed to submit the amendment to the Canadian parliament and if passed present it to the British parliament for approval.
