BANKS
Bank Montreal 247.
Wheat—Sept. 160%; Dec. 153%; May, 162%.
Corn—Sept. 104%; Dec. 86%; May, 89%.
Oats—Sept. 40%; Dec. 43%; May, 47.
Winnipeg—Oct. 143; Dec. 139 1/2; May, 143 1/2.

CANADA'S NORTHERN PRODUCTS
Gold nuggets and monster cabbages, gold dust in heaps and giant pumpkins, bar silver and wheat heads nodding on their stalks ranged side by side in the exhibition of Yukon products held at Dawson to celebrate the twenty-seven anniversary of the discovery of the Klondike. There were cabbages sixteen inches in diameter and weighing thirty pounds. There were pumpkins as big as water melons, potatoes as big as a man's head and proud specimens of nearly every kind of garden truck. The wheat and oats and barley exhibits bore witness to the fertility of the Yukon soil and the warmth of its brief summer season, and competed for attention with the precious metals which are the chief product of Canada's northern civilization. Hundreds of people participated in the parade which preceded the celebration and a public holiday was declared.

PREVENTING SPREAD OF CORN BORER
The Dominion Entomologist reports that a farmer living in Clark township, Durham County, was fined one hundred dollars and costs on November eighth for evading the European Corn Borer Quarantine. It appears that the defendant took corn on the cob from the quarantined area to Lindsay which is at present free from this pest. On account of the alarming increase of the corn borer in Essex and Kent counties this past summer, the seriousness of the situation cannot be overestimated. The natural spread of the insect by flight can not be controlled, but the Department of Agriculture is determined to prevent the artificial spread of the insect by the shipping of corn etc. from the quarantined area and all persons caught infringing the quarantine will be prosecuted.

EVERY HOME should have a tube of BURN EMOLLIENT
the new antiseptic, soothing and healing dressing for all scalds and burns. It acts like magic on severe cases of sun-burn. Price 25c tube.
EVERY CAR OWNER will find BAND-AID a handy protective dressing for cuts and minor bruises. Price 25c.

Applications for residence should be made nearly as soon as possible in the College is limited.
For prospectus and information apply to the Warden.

Items For Busy Readers

(HISTORICUS)
The Province of Quebec at its recent session of the Legislature legalized important reform in the cutting of timber. From now on only 80 per cent of the annual growth can be cut. It is also in contemplation to stop the system of disposal of timber limits for indefinite periods as heretofore. The Province has 40,000 square miles of timber now and calculates on a large increase through the new legislative protection.

PRINCESS ON THE STAGE.
The youngest child of the late Czar Alexander II. of Russia, Princess Catherine Yourkevsky, recently made her first appearance on the music-hall stage at the London Coliseum. She told me that she has had many exciting experiences, and she and her husband were made prisoners as soon as the revolution broke out in Petrograd. "I had my friends," she said, "I lived through a dreadful period of terror. At one time I served as a maid at an inn, and at another I passed as the niece of a gardener and his wife, doing all the cleaning and cooking, and sleeping on bare boards."
"At last I managed to become attached to a unit of the Red cross, and so finally crossed the frontier."

HALF FALSE JEWELS.
The lapidary was splitting a diamond. He leaned forward with his teeth bared. His tiny machine buzzed like a bee. A delicate and shimmering dust arose. Then suddenly everything was stilled and the diamond split in halves, lay in the lapidary's white, thin hand. "Out of one diamond," he said, "I am going to make two and each of these two will be as big and brilliant as the original one was." As he scraped up the glittering dust he explained: "First I will make in paste an exact duplicate of each of these two halves. Then I will join to the bottom of each genuine half its artificial complement, making the junction so carefully that no one will be able to perceive it. Finally I will mount these two half false and half genuine stones. Each thin will appear to be altogether genuine. Their paste foundations will not detract in any way from

GERMANS FINDS COTTON SUBSTITUTE
(Associated Press)
REUTLINGEN, Germany, Aug. 14.—Cutting of cotton imports into Germany by half may result from a new method of weaving cloth known as a "half h.p.m." invented by the German textile expert, Dr. Guindler. The hemp, it is expected, will replace in part the cotton formerly used in the cloth. There are about 3,000,000 acres of moorland in Germany adapted to the raising of hemp.

When Grandfather Was a Little Boy

EVERY fall there would come a day when his mother would say to his father, "John, it's time to see about the children's shoes."
Shoes were matters to reckon with in great-grandfather's family. As in many other families of the countryside, calves had to be killed and skinned. The skins were taken to a tannery across the river, and in due time young John would set off with the leather to the cobbler to have his measure taken.
Old Sam, the cobbler, was a friend of the family. They knew him. They knew his work. They knew the quality of the leather they had furnished him. They could have estimated pretty accurately the time young John's shoes would wear him.
Those days are gone forever. No longer do you know personally the makers of your shoes. Your clothing, your food, your furniture, your household utilities are produced by men and women you will never see.
That element of confidence, however, which in former days came from personal contact of neighbor with neighbor and friend with friend is still present.
Nowadays, advertising is the bond between manufacturer and consumer; between merchant and patron. Through advertising, maker and dealer build with you their reputations. Through advertising, they make a bid for your friendship.
To them, your friendship is essential, and to assure it, they see to it that their goods are as advertised. By reading advertisements, you know where and what you can buy with confidence.
In buying advertised goods the element of risk is removed.
