GIVE THE CHILDREN PLENTY OF FRUIT

It Helps to Keep Them Well.

In a growing, active child the cells of which the body is composed are being worn out—and replaced—very rapidly. This dead tissue must be gotten rid of somehow, and the danger is that the eliminating organs—the Bowels, Kidneys and Skin—may not do their work well enough. Then the blood becomes poisoned and the child does not thrive. Nothing has such an invigorating effect on these organs as ripe fruit juices. Apple juice increases the action of the kidneys; other fruit juices stimulate the liver to secrete more bile, and bile produces easy and regular movements of the bowels; others stir up the glands of the skin to throw off more waste matter. The difficulty is that to get these effects a great deal of fruit must be eaten, and the excess of pulp and woody matter may upset the digestion. The better way is to give the children "Fruit-a-tives", which are tablets made of concentrated fruit juices with valuable tonics added. "Fruit-a-tives" have the combined effect of the different fruit juices, helping all the eliminating organs to work properly, curing Constipation, toning up the system, and keeping the children plump and rosy. 25c. for a trial box. 50c. for regular size—6 boxes for \$2.50. Fruit-a-tives Limited, Ottawa.

Stanfield's Underwear (Chapter 1) A Talk by the Maker to the Wearer. The founder of the Stanfield mills did more than anyone else to develop the wool industry throughout the Maritime Provinces. For half a century, the farmers of New Brunswick, Nova Scotia and Prince Edward Island have saved their best wool for the Stanfields—first for C. E. Stanfield—and now for his sons, John and Frank, the President and Treasurer of Stanfields Limited. The wear of a garment depends on the quality of wool from which it is made. Underwear may be PURE WOOL, and ALL WOOL—and still shrink, ravel and wear out in a single season. Because the underwear is not made of good wool in the first place. There are seven grades of wool in the fleece when clipped from Nova Scotia sheep. Only the first three grades of this best wool are used in making Stanfield's Unshrinkable Underwear for men and women. There are no weak spots in the fibre to break in the garments. There can be no unraveling, because every stitch is locked. Garments can't shrink, because of our perfected process of treating the wool BEFORE garments are woven, thus insuring absolutely Unshrinkable Underwear. Stanfield's Underwear is right from start to finish. It is planned right, made right and wears right. In all sizes from 22 to 70 inch chest measure. In three winter weights—RED label for light weight—BLUE label for medium weight—BLACK label for heavy weight. Your dealer probably has all sizes and weights in stock. If not, he can easily get whatever you wish. STANFIELDS LIMITED - TRURO, N.S.
