KEITH'S MAGAZINE.

For the interested home builder, Keith's Magazine for August, published by Max L. Keith, Minneapolis, Min., is certainly one of the most informative issued for some time. Full of practical suggestions and illustrations well drawn out, the articles make interesting as well as instructive building. The harmonizing effect of an artistic fence is fully described in an article on, The Revival of Walls and Fences, from the pen of J. E. I. Faring. Some splendid Photos are giving showing what can be done with even the every-day picket fence, while the more expensive fences which lend charm to the surroundings are also portrayed. The Decorative Value of lattice work in architectural design gives new ideas in outside decorations, while the interior decoration is also widely dealt with. Many designs are given for cottages, bungalows, or model suburban homes, while the garden and home grounds also receive some attention. The other departments are well filled and Keith's should prove a valuable addition to the reading room of any home. The subscription price is $2 per year.

1 There is now no manner of doubt that a good average grade of Persian Lamb fur can be produced in the first cross from our stock. See it for yourself on our farms.

2 There is also no doubt but the fancy priced grade of Persian Lamb fur will be consistently produced after a few years of selection. That is why we offer no sheep for sale now. If we were promoters merely we would sell our sheep at the huge prices offered us and pay ourselves 100 p. c. dividend this year. No sheep for sale now.

3 We own the SECOND IMPORTATION and all their progeny, nine tenths of all the really valuable Karakules in America, were imported last year by Dr. Young. We also own all living rams of the FIRST IMPORTATION and all valuable blood lines.

4 We reckon our assets by BLOOD LINES, but we have more so called full-blood sheep than all others combined. They number nearly four score.

5 We are the only breeders entrusted with a permit to enter Karakule Sheep through American quarantine. Others recently tried to enter some so called Karakules from the vicinity of Transcaucasia, both at Montreal and New York but the sheep were slaughtered by the authorities.

6 We alone have the facilities to select animals in West Turkestan and arrange their importation into America and exportation from the continent.

7 Our herd of Karakules is the best aggregation of Karakul bloodlines in the world.

8 Our only competitors will finally be the people of West Turkestan especially Bokhara. You can judge for yourself after studying the character of the people concerned who will finally achieve the great success.

N. B. The Merin was taken from Spain to Australia In which locality did the breed become the more valuable ?

The Ostrich was tricked away from South Africa by the Americans a few years ago. See what America can show in Ostrich plumes at the Panama exposition next year as compared with South Africa.

A considerable proportion of the lambs born in 1914 would bring fancy prices. There will be no difficulty in breeding up every sheep to the highest priced variety because the company possesses enough unrelated sires of proved exceptional value to continue crossing without inbreeding.

Speaking of Dr Young and Karakul Speep Mr McCready, Publicity Agent for P. E I. says "The Persian Lamb industry bids fair to have a development here and throughout Canada second only to the Silver Fox"

Robert Wallace of Edinburgh University, foremost live stock expert in the Empire says "Dr. Young is in probably a better position than anyone else to get hold of the the very few really good sheep in Bokhara. If we could get the best of these out, eliminating all that show signs of soft wool, we can breed a far better sheep than anything we can get out now" Dr Wallace lectured recently on the subject in London before the International Institute of Tropical Agriculture. United States Department of Agriculture says:

"Two importations (of Karakuls) were made in 1908-1913 respectively. These sheep were brought over by Dr. C. C. Young of Belen, Texas, (now of Charlotttetown, P. E. I.) Buy only pure bred rams that have demonstrated their ability to sire skins of value.'

## The Skins

of Karakul lambs are used in Canada to a great extent. Canadians spend more for them than for Silver and all other colors and species of foxes, Mink Otter, Skunk and Fisher. The Persian Lamb fur is durable, becoming and economical. It is used by both men and women for coats, robes, muffs, stoles, collars, cuffs, trimming, caps, mits, & cloaks. Its use could be enormously extended, but already there is a wholesale demand in Canada for several million dollars worth yearly. There was no domestic productions until this year.

—AN IDEAL SPOT.— Mrs. (Dr ) F. W. Jardine and Mrs. Geo. E. Brown of Kensington, are spending a well earned holiday at French River, the guests of Mrs. W. G. Simpson of River Side Cottage, also of Kensington formerly. The spot is ideal as a summer resort. The beautiful winding river, calm in the noonday heat, or gently wafting the sea breeze landward, or again in the evening glistening in the moonlight, dotted with motor boats, conveying the pleasure seekers on an excursion while the local orchestra furnishes choice selections of music for the occasion. Surely such environment must bring to the over-wrought body and tired brain, peace and calm, a forgetfulness of the past. Indeed may one not fear lest they forget to return to take up their ordinary trials round of life. It is hoped that such will not be the case. Meanwhile let all speak softly, least they disturbe their summer dreams.

—BASEBALL.— The game of baseball on the school grounds between a picked team from Summerside and the Moncton team on Wednesday evening last was witnessed by a large crowd. The game was well played the locals winning by a score of 9 to 3. Morrison, pitching for the locals was in good form not letting a man past second until the 4th inning when one visitor got as far as third when the side was retired. The visitors went to bat first and in this as well as in the 2nd and 3rd innings were retired in order in the fourth inning they succeeded in getting three men past first only to be retired trying to reach 2nd and 3rd, in the 5th inning they got their first run but in the 6th went out in the same manner as in the first three innings, the first man up in the 7th dropped a high fly to Gaffney in centre field while the next two succeeded in reaching 2nd and 3rd when Gill s a local man who was filling in for the visitors landed on Morrison for a 2 bagger scoring the two men on bases, the next batters up struckout. In the first inning at bat the locals landed a heavy on Shirley scoring 4 runs, in the 2nd they were out in order but in the 3rd again landed heavy getting 3 more runs. O'Brien now relieved Shirley in the 4th but he tightened up the locals got 2 more, in the last two innings they could not seem to find him at all being retired in order. The batteries were Moncton, Shirley, O'Brien and White; Summerside, Morrison and Thompson; Umpire McCollough, Base Judge, Whitney.—J.

REV. JOHN STEVENSON SMITH

The death occurred at Indianapolis, Indiana, on May 30th, of the Rev. John Stevenson Smith, son of the late John R. Smith of New Glasgow, P. E. I.

On May 19th, he entered the City Hospital suffering with typhoid fever. After five days pneumonia developed and on the morning of the thirteenth his soul passed into eternity.

The deceased was born at New Glasgow, Jan. 11th, 1869. He graduated from Prince of Wales College in 1889. After teaching for two years in P. E. I., he entered Hiram College, Ohio, to study for the Christian Ministry. In four years time he graduated. For several years he was engaged in preaching the Gospel in the states of Ohio and Iowa. In 1902 he entered the University of Illinois, graduated in 1906 with the degree of L. L. L., and again took up the work of the ministry, preaching for several years in the Maritime Provinces. In 1910 he returned to the United States, where he was for two years pastor of a church in Forest City, Iowa. Two years ago he spent the winter in New Glasgow during the last illness and death of his parents and again returned to the United States where he was ministering for the Christian Church at Columbus, Ind., at the time of his death. The late Mr. Smith was a broad-minded Christian character and made many friends. The Rev. Mr. Small of Indianapolis writes "We esteemed Bro. Smith as a high-minded honorable Christian gentleman and regret his untimely end." He leaves to mourn four sisters and two brothers and a wide circle of relatives and friends. A touching funeral service was held on Sunday afternoon at Indianapolis, whence the remains were conveyed by rail to Columbus, Ind., where after another service they were laid to rest in a beautiful spot in Flat Rock Cemetery.

## Tenders for Silver Black Foxes

Sealed tenders will be received by the undersigned until 26th, of August for the purchase of two Pairs extra Silver Black Foxes, owned by the Eldorado Silver Black Fox Co., Ltd., one pair two years old, having had a litter this spring, the other pair pups, brother and sister.

The pair of pups may be tendered for together, or separately, as suits buyers.

BREEDING, &c.

The two-year-old female, also, the pair of pups, is taken from litters of that famous fox styled in the Prospectus of "The Sovereign Silver Black Fox Co. Ltd." Page 3 of which Dr. Dalton is chairman, "the most prolific fox in the world."

She was formerly owned by the Hon. Chas. Dalton, and carries the aluminum button in her ear,—referred to on same page of above mentioned Prospectus, in Chas. Dalton's certificate, as—"only used by him on his best stock."

She raised 45 pups in seven years for Mr. Dalton, (being of a nervous temperament her removal to new quarters doubtless caused the loss of her litter last year,) this year however, she was mated with a splendid young Rayner dog, and raised five black beauties, two of which we now offer for sale.

Mr. Dalton has tested the London market with a few pelts of her offspring some years ago, and some of them nearly touched the $2000.00 mark.

The mate of the two-year-old female was selected from the Dalton ranch under a written agreement, by a foxman and fur dealer and pronounced by Professor Jones, as one of the best specimens was ever priviledged to see.

In consideration of the above, all of which we can prove by documentory evidence if necessary, we can justly claim this quartette are equal, and in some respects superior, to any foxes on the market.

For further information, apply to undersigned. Address all tenders,
