DIED at Middleton Lot (2nd August), 1904, Mrs. George McArthur aged 23 years. The deceased lived with her husband in Boston for some time past, and came several weeks ago on a visit to see her mother and other relatives; while there she departed this life leaving a young child 2 weeks old and other young children. The departed became a subject of divine grace a few years ago and died in the full assurance of faith in her Redeemer. Great sympathy is felt for the sorrowing husband who came to see his dear wife but was not in time to see her in life. Her remains are buried in Valleyfield Cemetery. Lawrence Mass papers please copy.

EASTERN NOTES.—A matrimonial wave of considerable volume is again breaking on our shores. Three couples have recently been made happy viz: John R. Robertson and Miss Rebekah Stewart, Edward LaPiere and Miss Mary Ann Cantwell, Charles Rose and Miss Currie. This is John's first, Edward's second, and Charles' third matrimonial venture. Plenty material is still left here for many more such desirable events.—Alexander Stewart and wife left on September 1st, for their home in Haldimand County, Ontario, after spending nearly two pleasant months visiting among his friends and relatives here. Forty seven years ago he turned his face westward before, with all the hopes and ambitions of youth, he has prospered in the garden of Ontario but not without hard work, and his many friends are glad to see him still hale and hearty returning to resume his position as one of the sturdy representatives of Canadian national life.—The harvest excursionists for the prairies of the west are fewer from here this year than usual. One reason is the lateness of the start which will make the seas there short. Though every year we have sent our contingent, they nearly always return as the immense plains with all their productiveness and their possibilities had no charm for him with the viking blood in his veins, who was accustomed to the roar of the mighty ocean beating on the shores of his native island, and the howl of the tempest as it beat through the branches of his native forest. The contingent this year consisted of Arthur and Horatio Gardner, sons of Rev. Mr. Gardner, Stephen LaPiere and Eilo Bruce.—Harvest operations are beginning, wheat may be put down as a total failure and oats a very short crop. Fishermen nearly all gave up hake fishing on account of the dog-fish whose numbers and rapacity made it impossible to save either lines or fish. A few mackerel are now taking the hook off Red Point, Bas n Head and West River. They are very large in size, and old fishermen do not anticipate a large catch.—The evenings are turning cool and politics evening lively. As the hot weather is past, it may be remarked as something unusual that we have had no thunder or lightning this summer.

Pickling Season.—The time is at hand when everybody is starting to make pickles, chow, ca'sup, etc. We have a fresh stock of everything necessary including pickling spices, whole peppers, mustard, essence vinegar etc. etc. Don't forget the price. A. W. Reddin, Pharm. Central Drugstore.

The Liverpool Fire Brigade, which has for many years been regarded by experts as one of the best equipped in England, has just put into service the very latest invention in fire extinguishing apparatus. This machine, which has been built by Merryweather & Sons, of London, to meet the requirements of Fire Supt. Thomas, is a combined chemical and steam motor fire engine. It carries a 60 gallon chemical cylinder, with hose attached, and can turn out at one minute's notice under its own steam, run at over 20 miles per hour to a fire and discharge the chemical jet instantly on arrival. Should the fire be a large one, the main pumps, delivering 600 g gallons per minute at high pressure, can be brought into service in a few moments. The new combination machine will carry ten fire-men, as well as 1,000 feet of delivery hose, suction pipe and all necessary appliances for working. Oil fuel is used in a special burner of ingenious construction and tanks are provided to carry water and oil for several hours' working. In districts where horses are not always available, this motor engine would be specially suitable and it costs less to maintain and work than horse drawn machines. Dispensing with the use of coal also means that steam can be raised more quickly, there is no smoke and no sparks are thrown up while running.

IF YOUR CHILDREN ARE RUN DOWN

They are Liable to Get Fever or Pneumonia. Keep Your Little Ones Strong and Healthy With Ferrozone.

Parents can't afford to neglect the health of their children, for if disease fastens itself on the child of ten or years it may be the beginning of a long train of serious illness. Ferrozone is a remedy that mothers can rely on, and every child will be benefited by using it. Mrs. Henrietta Laflamme of Quebec, writes: "Last year my daughter, aged sixteen, was run down and looked very poorly. She was very irritable about her exams, and she didn't feel strong enough to study very hard. I felt sorry about her condition, and I bought some Ferrozone and it made a wonderful difference. She grew strong on Ferrozone. I am very grateful to Dr. F. W. Hodson for strengthening children and writes: "When my little daughter was weak and miserable I gave her some Ferrozone tablet at once, and she improved at once, and before taking Ferrozone a week gained in weight, and enjoyed a splendid appetite. I never used any other medicine, and she is now strong and permanent results as Ferrozone."

Every child can be made stronger by Ferrozone which acts on the blood and builds up the entire system. Ferrozone is the sort of tonic that builds up strong healthy frame; it gives a child energy and spirit, and drives away weakness. Every mother should give her children Ferrozone, and give up all obsolete treatments like bitters and cod liver oil, which are hard on a child's stomach. Just a few Ferrozone tablets at meals, easy and pleasant to take. Results are sure when you use Ferrozone. Refuse any substitute and insist on having Ferrozone which alone can build up and cure quickly. Price 50c per box or six boxes for \$2.50, at a drugist, or by mail from N. C. Paton & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

FOR HEALTH AND COMFORT,

The best mattress for health and comfort is a felt mattress. Everybody knows it, and that's why so many people pay extortionate prices. But if they only knew that this \$7.50 Sanitary Felt Mattress is positively unexcelled in any point they would have no other. It's made from guarantee sanitary felt and will not absorb moisture—always remains soft and will make over like a hair mattress—weighs 45 lbs.—in one and two parts. Better grade \$10.50.
