### "FLU" IS INFECTIOUS

A DISEASE EASILY SPREAD THROUGH CLOSE ASSOCIATION

It passes in the form of minute germs from the coughs or sneezes of people who in the first stages mingle with other people. These germs avoid exposure, this may be difficult, almost impossible. But we can all keep our blood full of vitality and enable it to resist the attacks of disease germs, by taking Hood's Sarsaparilla, the pre-eminent blood-purifier and health builder. This good medicine promotes assimilation so as to secure for the body the greatest possible value of food. It aids digestion and "makes food taste good." After influenza or any other blood poisoning, prostrating disease, it is remarkable how it promotes convalescence and brings perfect restoration to health. A good cathartic like Hood's Pills helps greatly by keeping the bowels regular.
