SMILES

THE PLACE AND THE GIRL
"Have you a court yard?"
"No, I do my courting indoors."

DELAYED BY A WRECK
"Jim says he was delayed in getting back by a wreck."
"Wreck is right—I saw her."

SWELL SIGHT
"Hey, want to see something swell?"
"Sure."
"Just drop this little sponge in some water then."

"A diamond is the hardest stone, isn't it?"
"Yes—to get."

JUNGLE TALK
1st Monk: My brother is going to open a store
2nd Monk: More monkey business, eh?

"DIAMOND DYE" ANY GARMENT, DRAPERY
Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades of dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

CAVENDISH SERVICES.—There will be service in the United Church Sunday, March 21st at Stanley at 11 a. m. and at North Rustico at 3 p. m. The Y. P. P. Group will meet Friday evening, March 19th at home of Mr. J. McLean, North Rustico.

H. P. DUCHEMIN SLATED FOR POST.—Among the names mentioned as the new Superintendent of Education, the appointment of which was the forecast in the speech of Hon. J. F. Cahon in the House of Assembly last week, is that of H. P. Duchemin, Editor of the Sydney Post. Tory organ, says the Halifax Chronicle.

VERNON RIVER.—On Saturday last a large barn, grainery and carriage house owned by Mr. A. R. McDonald and his father Mr. J. R. McDonald, accidentally catching fire from a gasoline engine, were burned to the ground. Horses, cattle, pigs and hens with exception of one heifer were saved. A large quantity of hay and grain together with gasoline engine, Chevrolet Car, manure spreader, driving wagon and a lot of small machinery were destroyed. In answer to telephone calls neighbours from surrounding settlements quickly gathered and by their timely service succeeded in saving the implement house, poultry house and residence. Loss partly covered by insurance.

C. G. I. T. MEETING.—The C. G. I. T. group met on Friday last at the home of Miss Adele Smith. The attendance was good, there being only one absent. This being Intellectual Night a suitable program was given. The group leader was assisted by Misses Vera Smith and Marjorie Brown. At the close of the activities a dainty lunch was served by Mrs. Smith which was very much enjoyed by all. The meeting then closed with "Taps." Next meeting will be held at the Forester House.

TROUBLE WITH FREIGHT CAR.—The local C. N. R. wrecking crew were busy Monday night clearing the track back of Davis & Fraser's factory where a freight car became derailed, holding up No. 42 passenger and mail train from Borden, due in the city about 8:15. The freight extra from Emerald after backing off the "Y" shortly before 8 o'clock was running along a side track to the yards when a car, in the centre of a string of ten left the rails and trucks and went over completely on its side, tearing up a switch, and laid with the roof overhanging the breastwork. The wrecking crew were summoned and soon got to work. A drawbar on the derailed car held fast to the forward part of the train, which did not leave the rails. Immediately an acetylene torch was secured from the shops and manipulated by Mr. Robert Duncan, the heavy bar was burned off in less than fifteen minutes. Passengers and mails were taken off the Borden train at the crossing.

PERSONALS

Mrs. Thomas Ford, Milton, was a visitor to the City yesterday.

Twenty-One Years Of Leadership

VERY quality that is built into any product is measured finally by the degree of its acceptance by the public. Only the best can hope to win and hold the public approval, for approval has ever been based on confidence and confidence must be earned.

Public confidence has made the Ford the world's most popular car. It has pioneered motor transportation in every quarter of the globe and because of fundamental soundness has maintained an established leadership.

Today it is accepted throughout the world as the standard by which all transportation units are judged and its performance under ordinary and extraordinary conditions has made its dependability a matter of tradition.
