Stomach Troubles
Due to Acidity
SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, stomach-ache and inability to retain food, are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisaturated magnesia, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as bisaturated magnesia, which can be obtained from any druggist and thus enable the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.—M.F.P.

INTRODUCTION

The Glenaladale Silver Black Fox Company, Limited, was incorporated in 1913 with six pairs of foxes, at \$60,000. This Company re-capitalized in 1914, with 20 pairs of beautiful Silver Black Foxes, at \$15,000 per pair, making a total capitalization of \$300,000.

THE FOXES

Six pairs (one year old) proven breeders, and fourteen pairs (1914 pups), making a total of 20 pairs—20 young foxes—good for at least 10 years. This Company has bought some of the year's options on foxes with a guarantee that they are pedigreed and of the highest strain and very best quality P. E. Island famous foxes.

THE RANCH

The ranch is situated on the well known Glenaladale Farm, owned by Major C. McKinnon, formerly the homestead of Sir William McDonald, and is only 12 miles from Charlottetown, in a quiet locality sufficiently removed from any disturbance.

THE RANCHER

Mr. Arthur W. McKinnon, our Ranch Manager, has had much experience in breeding foxes, and has the practical knowledge necessary to efficiently manage and care for the animals.

The foxes will be ranch free of charge to the Company for the first year. This means a large saving to the shareholders, as some companies have to pay as high as 25 per cent. of the increase for ranching purposes. The promoters of this Company are retaining \$80,000 worth of stock for themselves, \$20,000 worth has already been disposed of, leaving \$200,000 to be offered to investors at \$25.00 per share, with a guarantee that a dividend of 50 per cent. will be paid in cash in 1915, or whatever more it may be. The Glenaladale Silver Black Fox Co., Limited, in 1913 guaranteed a dividend of 50 per cent., but are going to pay 50 per cent. in cash and 50 per cent. in stock in 1914. The Company is in good standing and to each and every investor the first of September, 1914, we can say: "We have given you 50 per cent. more than we promised." And we feel sure that in 1915 all the shareholders in this re-capitalized company will be able to say they received more than they were promised. This Company can truthfully say that they have not one cent of watered stock in the Company. Now, Mr. Investor, if you were a Company and we the shareholders, we would look to you for justice to give us all that was honestly due us. We would not like for you to buy 3 pairs of foxes at \$15,000 per pair (\$45,000) and form a fox company and capitalize your concern at \$50,000 and make us pay, as shareholders, for it. The Glenaladale Silver Black Fox Company, Limited, will ask you to do nothing like that. We want to let you in on the ground floor.

NOTICE.

When a fox company guarantees an specified dividend to its shareholders, and when said company is an incorporated body, you need not be afraid of any unfair play, for what they promise, and, besides, every interest is taken for the welfare of both the investor and the company. The promoters of this Company are all above board and will not permit any crook to come in and do anything that is not right. Anyone holding stock in this Company who is dissatisfied can by notifying the Secretary-Treasurer, have his or her money promptly refunded.

SHARES

Shares are selling at \$25.00 each; 20 per cent. with application and the balance on or before September 1st, 1914. Simply fill out the application from and mail to Major C. McKinnon, Secretary-Treasurer, Glenaladale. All cheques must be made payable to "The Glenaladale Silver Black Fox Co., Ltd."

A POINTER

Just to give you a little idea of what the free ranching of foxes mean to the investor, we will figure it out for you. We have twenty pairs of foxes in the ranch and suppose each pair produces a litter of only four foxes, this is equal to 40 pairs and at \$15,000 per pair it would figure out at \$600,000. Now, if we had to pay even 15 per cent. of the increase for ranching purposes (which is considerably lower than some companies pay) it would mean that we should have to pay \$90,000 for ranching expenses.

We ranch the foxes free for the first year, so that in addition to a guaranteed dividend of 50 per cent., we save you this large outlay of money. While we guarantee 50 per cent., still should each pair in our ranch produce four pups it would mean that your dividend would be about 200 per cent., (instead of 50 per cent.)

FINAL WORD

A great deal has been written about Ranches, Grades of Foxes, etc., but after all the one object that every investor should keep before him is the dividend he is going to get. We have tried to show you in plain English what we can do for you and now that you have our proposition, compare it with the offer made by any other company now in business—and then judge for yourself.
