GREEN SICKNESS

A Disease of young girls

Interesting and suggestive advice that all should read.

Many Mothers will echo the conclusion expressed in a very interesting and suggestive letter written by Mrs. Zacharia Pollard, of Grand Bay. "It is one of the illusions of motherhood that once the diseases of childhood have been successfully passed a smooth road lies before their dear ones. Boys brave themselves, or perhaps break a limb, but the physical history of the young girl is subjected to so many dangers, it is only when some great one has been successfully overcome that we realize how many dangers there are. My eldest child, a daughter, just as she had entered upon the sixteenth year, suddenly developed weakness, her color faded, some unpleasant heart symptoms indicated a lowered vitality of that organ, but strange to say she appeared plump. The bodily functions were obstructed, and a waxy or pallid, or yellowish skin gave her a ghastly look. The doctor's tonic failed to improve the symptoms, we decided to try Ferrozone as highly recommended in the newspapers. It has probably three weeks before any manifest change was noticeable, but once that Ferrozone checked the running-down process the upward advance was rapid. I suppose if I had neglected to give her Ferrozone she would have fallen into permanent ill-health, as my daughter has completely restored my health."

No tonic so nourishing, as strengthening, as Ferrozone. It gives you a grand appetite, brings fine color, a healthy glow to the cheeks. If this, you gain in weight. Think it over, Ferrozone is just what every person in poor health requires. Sold by all druggists, 50c per box or six boxes for \$2.50. Try Ferrozone today.

It is useless to tell a hard working woman to take life easily and not to worry. But it is the duty of every woman to save her strength as much as possible; to take her cares as lightly as may be and to buy up her system to meet any unusual demands which her duty to herself and to her family, for her future health depends upon it.

To guard against a complete breakdown in health the blood must be kept rich and red and pure. No other medicine does this so well as Dr. Williams' Pink Pills for Pale People. This medicine actually makes new, red blood, strengthens the nerves, restores the appetite and keeps every organ healthy and toned up. Women should always rest when they should, but disease away from the occasional use of Dr. Williams' Pink Pills, which have done more to lighten the cares of weak women than any other medicine.

Mrs. James H. Ward, Lord's Cove, N. B., says: "About two years ago I suffered so much from nervous prostration that I was little better than a helpless wreck. I suffered from headaches and a constant feeling of dizziness. The least unusual move would startle me and set my heart palpitating violently. I had little or no appetite and grew so weak that I could not get up without assistance every way I was in a deplorable condition. As the medicine had been taking seemed to do me no good, my husband got a supply of Dr. Williams' Pink Pills. I had only been taking the Pills for a couple of weeks when it seemed to feel somewhat better and this encouraged me to continue the treatment. From that time on I gradually but surely returned, and in the course of a few more weeks I was once more a well woman, able to do my own housework, and feeling better than I had done for years. I have since remained well and I feel that I owe my good health to the healing power of Dr. Williams' Pink Pills."

Every other weak, sickly, worn out woman should follow the example of Mrs. Ward and give Dr. Williams' Pink Pills a fair trial. These Pills will send new blood coursing through the veins and bring brightness and energy to the weak and despondent. Sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
