WELL, the rest of the world ought to be able to stand it another year if Germany can.

ISN'T IT about time, anyway, that the theatre of war was closed for repairs

SOME BOYS are born great, some achieve greatness and others have greatness spanked into 'em.

WHEN "Chink" meets "Chink" they start a restaurant. When Greek meets Greek they start a shoe-shine parlor.

THESE exceptionally cool nights for the time of year must send a chill to the hearts of the summer hotel keepers.

THE WAR has been in progress four years today. Both guns and gun-makers are still doing a "booming" business.

IT IS JUST four years ago today since the Dove of Peace got laid low with a direful attack of the "pip" or something.

ONE CHARLOTTETOWN sport always takes a doctor with him when he goes out fishing. He expects to get the fish well cured by taking this precaution.

PEOPLE who are going in for raising pigs are doing so with the belief that this is a case where the "pen" is mightier than the sword, for food will win the war.

"You say the prisoner had been drinking," said his Honor.  
"Drinking what?"  
"Whisky, I think," replied the intelligent officer.  
"You think? Don't you know the smell of whisky? Aren't you a judge?"  
"No, yer Honor; only a policeman."

SOME WITNESS  
The prosecuting attorney had encountered a somewhat difficult witness. Finally he asked the man if he was acquainted with any of the men on the jury.  
"Yes, sir," announced the witness, "more than half of them."  
"Are you willing to swear that you know more than half of them?" demanded the lawyer.  
"Why, if it comes to that, I'm willing to swear that I know more than all of them put together."

The registration is being carried out in accordance with Clause C, Section 1, of an order in council passed on April 30th, which stipulates that all aliens must be registered.

Canadian summer—beat it who can? Its equal you'll search far to find; The sun may be hot, but you'll find a cool spot

If you'll only just make up your mind, Yes, Canada's summers Are certainly hummers— Her mountains, her woods, and her streams, They're splendid! They're dandy! They're "all to the candy"— And they're not man's creations or dreams.

Of course there are bees Which fit thro' the treeses, And you stand just a chance o' being stung; Mosquitoes may bite you— Insurance men write you— And sometimes an old sinner gets "hung"

That's the worst that can hap you, If a maiden don't trap you, (Oh, you, if you're caught on the beach!) To get hung is "suspense," But its e'en more intense.

If you lose your head over a "peach," Yes! Our summer climate, (Observe how I rhyme it)— Is certainly "all to the pie," It's few drawback features Are really good teachers, For critters are loony as I.

**IN MEMORIAM**

**JOHN HENRY GATES**

One of Charlottetown's oldest and most respected residents has passed away, in the person of Mr. John Henry Gates, who had attained the very ripe old age of 94 years. He was a native of London, England, and was born on January 5, 1825. He was a man of remarkable vitality and preserved his faculties almost unimpaired to the end. On Thursday he was out driving as usual, enjoying a form of recreation of which he had been fond from his youth up, and in the afternoon was about town as usual. About an hour after retiring, he awakened and complained to his wife of a slight pain in the region of his heart, also of a smothering feeling. Two hours later, his spirit peacefully passed away.

The late Mr. Gates came to P. E. Island with his parents as a boy and had resided in Charlottetown for upwards of four score years. The most memorable incident in connection with his life was his voyage in the famous brig "Polly," which left here with a number of stalwart young Islanders for California in 1849. If we mistake not he was the last survivor of that sturdy and daring band of "Forty-niners" from P. E. Island. He remained in California for three years and then returned home, where he had lived ever since.

Mr. Gates was particularly interested in agriculture and was noted as a horseman of knowledge and experience. He accumulated through his industry and economy, considerable means and passed his time attending to his various properties and indulging his taste for agriculture and in driving. He always possessed one of the best roadsters in the province and summer and winter would be met with upon the highways or about the streets of the city, taking his favorite pastime.

He was a man of sterling qualities, respected by all who knew him, and will indeed be greatly missed.

A widow (Miss Chappelle) and the following family are left to cherish his memory: Fred Gates in Anacosta, Mont.; Arthur in this city; Frank in West Royalty; Mrs. Charles Robertson, in Spokane, Wash.; Mrs. (Dr.) McLeod, in Fredericton, N.B. There are also numerous grand-children and great-grandchildren.

To the bereaved we extend our most respectful sympathy.

**RESTRICTIONS ON USE OF PORK REMOVED**

OTTAWA, AUG. 1.—The Canada Food Board has removed, temporarily, the restrictions on the consumption of pork. Such action has been made possible by the pork production and conservation efforts in Canada and the United States, and the Food Board's order, passed to-day, provided that pork, including bacon and any part of the carcass may be served at any time in public eating houses operating under Canada Food Board license.

In making this announcement the Food Board stated that, as a result of conservation measures and increased production, net exports of pork from the Dominion have been increased by 125,000,000 pounds per annum, which is an increase of 671 per cent over a five year pre-war average.

**A QUESTION OF LIQUOR IMPORTS**

MELBOURNE, July 31—"Is it a fact?" asked Senator Newland of South Australia in the Federal Senate recently, "that 500 barrels of Canadian whiskey were brought to Australia by one mail steamer prior to April 25, and that space could not be found on the same steamer for a shipment of lead pencils for the use of school children?"

Senator Russel, for the government, stated that it was a fact that the Canadian whiskey was brought to Australia on the mail steamer, as importations were allowed to the extent of 70 per cent of a firm's average importations for 1915 to 1917. If the facts concerning lead pencils were correct the matter was one over which the Commonwealth Government had no control.

**SUMMER HEAT HARD ON BABY**

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand, the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
