The one event of outstanding importance since the last annual meeting was the federal election which resulted in the downfall of the Government upon the issue of the Reciprocity. It would be useless to attempt to disguise the fact that the West, Alberta and Saskatchewan are keenly disappointed over their failure to obtain access to the larger markets of the United States, and so long as that feeling of disappointment prevails, it cannot be said that reciprocity is dead. Nor can we afford to close our eyes to the fact that the Provinces mentioned felt aggrieved with us in the East for the part we played in thwarting their desires. No amount of specious argument, or flag waving, will allay that feeling or satisfy the West that it has not been robbed." So declared G. Frank Beer, well known in Charlottetown, the retiring President, of the Toronto Branch of the Canadian Manufacturers Association at the annual meeting in Toronto recently.

FINE CUT GLASS

Purchasers of cut glass need to make sure that they are getting the genuine article.

We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.

Our Cut Glass

is fully cut when the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.

We are in control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.
