

The Wilson Brake

This is the Splendid Brake With Which Red Bird Bicycles Are Fitted—Simple in Construction, But Wonderfully Effective.

THE WILSON REAR HUB BRAKE consists of a friction cup, expanding spring, movable sprocket, and set of twelve hardened steel rollers bedded half in the hub and half in the spring. This spring is keyed to the sprocket, while the friction drum, or cup, is held in place by a pin fitting closely in a slot in fork end. The cup is kept perfectly true by being carried on the cone and axle. Back pedalling causes the sprockets to remain stationary and the rollers to move up inclined planes in hub and spring, expanding the spring and bringing it forcibly in contact with the friction cup. This causes the wheel to skid or slide or move slowly, according to the amount of force used in the back pedalling. This brake is quick to act, both in checking speed and relieving itself, and it is impossible for it to fail in doing either. It is neat in appearance, and adds particularly no weight to the wheel.

CHARLOTTETOWN AND SUMMERSIDE.

HON R W SCOTT and his daughter were passengers by the Northumberland Saturday. They go this morning to the Seaside Hotel, Rustico.

A MEETING of the Y's will be held in Willard Hall this evening at half past seven. All the members are requested to be present as there are matters of importance to be brought before the meeting.

The western part of the Island is keeping up its unenviable reputation for crimes. On Friday night constables Green and Daley brought down and lodged in jail two men, Frank Arsenault and George Links, the former charged with breaking into a house at Tignish and entering a bed room occupied by a young lady, the latter for a violation of the C T A. On Saturday Constable Chappell brought down a young man named Joseph Macdonald, charged with indecent assault on a young girl near Campbellton. The latter was also lodged in jail to await trial.

To Cure a Cold in One Day. Take Laxative Bismuth Quinine Tablets. All Druggists refund the money if it fails to Cure. See March 17 9 mos. d.

Warships Will Coal.

CAIRO, July 9.—The Spanish warships will be allowed to coal as they are returning home.

JOHN DICKIESON

Opening up his Spring stock of Buggies.

Don't fail to see the new style elegant Farm Waggons, with or without bodies, spring seats etc. The best made in Canada. Here you will see a full line of the popular Carriages made by E. N. Henry & Co., Montreal. Be sure you see those stylish Buggies and get prices before buying any other. Farmers are respectfully asked to call and inspect the different lines, and at the same time see the DICKIESON CLEANER for 1898. This machine has been thoroughly remodelled during the past winter and every difficulty in connection with handling all kinds of grain has been overcome. Any intelligent farmer can see at a glance that it possesses all the points of merit of the best cleaner in the market, and has in addition many features which place it far ahead of any other. The new patent device for carrying the slatted canvas without rollers does away with the straps and buckles for tightening it. Quite a number of these machines have been placed with the best farmers in the country during the past two months and all are convinced that the Dickieson Cleaner will be the leading one this summer.

Winnipeg Valley, April 20, 1898. Mr. JOHN DICKIESON, DEAR SIR—I have thoroughly tested your new Improved Grain Cleaner and find it does excellent work. My neighbors all around came to see it at work, all agree that it is the best machine of the kind they have seen yet. The new patent arrangement for carrying the slatted canvas without rollers or straps I consider a good thing. The bag after works fine. Ap 11 a w & w. Yours Truly DAVID WALKER
