The opera house was well filled last evening and judging by the rounds of applause the audience thoroughly entertained themselves immensely. The pictures were long, and gave one a good taste of pathos and comedy. The acrobats who proved such favorites last week changed their program today, making it better than ever, the cleverest stunt being when one of them with startling suddenness jumped over the footlights and just as the onlookers expected to be squashed to pieces, he was jerked back by a wire which was attached to him. This simply brought the house down. Tomorrow evening besides the regular program, there will be an extra feature, without extra charge.
