

FEELING POORLY—  
RUN DOWN.

When our appetite lags, when we want to be unnaturally quiet, when the body responds slowly and rather painfully to the demands upon it, we say we are "run down."

We're all of that and more. Our reserve force is at a low ebb; we're at the dividing line between health and the first ailment that happens along. The system is just in a condition then to take on sickness. It's altogether too common a condition, but it need never last long; it can often be avoided altogether.

Is it a simple matter? Very. Within the means of everybody? Yes. Easily understood? By everyone of ordinary intelligence. What should be done? What common sense advises for the most part. Rest? Yes; more than under ordinary conditions—much more, all that is possible without giving in to the attack. Air? Plenty; get out into the sunshine; walk; think of something cheerful; keep out of the night air; avoid dampness. And as to food? Your good sense ought to direct you. Whatever will be likely to give real strength. Much depends on proper nourishment, some authorities say all.

And whatever your diet, combine with it Scott's Emulsion; nothing will cause the tired body to respond more quickly. There is in Scott's Emulsion a peculiar element of nourishment that acts directly on exhausted forces, repairs waste and restores worn-out energy. Scott's Emulsion works quickly and without effort, yet one very soon feels the effects of the new force it brings. There is nothing better for the "run down" system.

These claims are not made off-hand. We know from nearly thirty years contact with such cases that Scott's Emulsion will do just what we say it will do. We will be glad to send you a sample free so that you can judge for yourself.

SCOTT & BOWNE,  
55 Front St., W., Toronto.

THE  
McLAUGHLIN STYLE

When you buy a GENUINE McLAUGHLIN you experienced the same satisfaction that you would feel in becoming the owner of masterpiece of human skill.

From VANCOUVER to SYDNEY McLAUGHLIN STILL sets the fashion and the standard for the Canadian Vehicle trade and our rigs can be seen on every road in every village, town and city.

TWENTY-FIVE YEARS of experience and improvement represented in each vehicle

THE USE OF  
CONCRETE ON  
THE FARM.

Synopsis of Address Delivered  
in St. John,

BY T. G. RAYNOR OF ONT.

What Concrete is and How it  
Can Best be Applied in  
Stable Construction.

Wherever a farmer is building new barns, or changing his stables, the question of the use of concrete for floors and walls is a live one.

In a country where lumber is comparatively cheap, concrete is not likely to come into general use for making walls of barns, but for flooring it is without question the best and cheapest substance that can be employed. Its first great quality is its durability. Properly put down it is practically indestructible. Then it is water tight, and will help in saving all the liquid voidings of the animals, and this in farm practice today is a most important matter. Fully 50% of the fertilizing value of the manure is in the liquid portion. By having concrete floors and using plenty of absorbents this can all be saved and put on the land where it will do the most good.

Concrete is a mixture of clean gravel or pure sand and cement. There are several kinds of cement. In Ontario they have natural rock cement, which is manufactured at Queenston and Thorold, and this while not as strong as the Portland cement, is cheaper and does very well. In some sections the Portland cement will be the best to use.

Laying concrete floors, does not require skill which an intelligent farmer cannot supply. First make a solid smooth floor, 12ft. square, two inch lumber preferred. Then a box without a bottom should be made in which to mix the gravel and cement. This can be made of such a size as to accurately measure the gravel or sand. The gravel and cement are then put into this box in the proportion required, the box taken off, and the mixing of cement and gravel or sand thoroughly done with a shovel. It should be shoveled over twice at any rate, while it is dry and shoveled up into a cone; then before applying the water the cone should be pulled down making the mixture in the form of a ring, leaving a hollow in the center bare to the floor.

Into this water should be poured, and dry gravel and cement turned from the outside of the ring of the center. This will be pulled out again from the center and more water added until the mixture becomes the consistency of thick porridge, so it will run down but not soft. The proportions in which gravel or cement can be used depends somewhat on the strength of the cement. With good portland cement, one part of cement to six or seven of gravel could be used for the lower part of the floor, but this should be covered with a veneer of one part of cement to two of clean sand. If an extra fine hard finish is required use equal parts of cement and sand.

Before laying the stable floor a good foundation should be prepared. It should be made firm and solid by the addition of gravel or small stones thoroughly pounded down and the floor shaped as is required for the stable. It is best to have a slight slope from the manger to the gutter. The plan of cow stable which is generally preferred has a square gutter two feet wide and eight inches below the level of the stall floor. This gutter is first made and the cement laid in it. Then a board mould is put up and the cement put in behind the boards and the boards left there until the cement gets firm.

In laying concrete only as much as can be conveniently reached, say a piece four feet square should be laid at one time.

All the studding necessary in the construction of the stalls should be set on flat stones and the cement put round them. Great care should be taken when laying cement to thoroughly pound it down. After the floor is finished it should be sprinkled with water especially if the weather is dry. This should be done every day for a month. It will probably take from a month to six weeks for a floor to harden properly, and sufficiently to use, and it will not become thoroughly hard for six or seven months after having been put in. Large stones can and should be used in the construction of a concrete wall. If pains are taken to see that they are covered with at least two inches of cement on either side. A concrete wall one foot thick is sufficiently strong to carry any barn. This makes a thoroughly warm and dry stable wall. Fine stone from a stone crusher is an excellent material from which to make concrete. A barrel of rock cement will lay 55 square feet of 4 in. floor. Good qualities of Portland cement should do more than that.

By the use of corrugated sleepers made

We have not advanced the price of our tobacco, Amber smoking tobacco, Bobs, Play chewing tobaccos are the same size and price to the consumer as formerly. We have also extended the time for the redemption of Snowshoe Tags to January 1st, 1904.

THE EMPIRE TOBACCO Co., LIMITED

like railway rails it is quite practicable to make a good floor which would form the ceiling of the story below. The sleepers should preferably be made of iron, and laid sufficiently close to make the structure solid. Such a floor prevents any leakage through to the space beneath.

F. W. HOLSON,  
Live Stock Commissioner.

CHRONIC BILIOUSNESS.

IN ITS TRIAL FOLLOW  
HORRIBLE DREAMS,  
DESPONDENCY MEL-  
ANCHOLIA AND GEN-  
ERAL WEAKNESS.

The proper elements needed to promote good digestion, regularity of the bowels, correct action of the kidneys and liver, must be supplied when a bilious condition of the system is once established. Ferrozone can't help but do this. It gives the stomach perfect rest, and allows you to partake of and enjoy the variety of food that is necessary for maintaining health. One Ferrozone tablet taken after each meal will separate the nutritious portions of the food from the waste, which is carried off, thus preventing and curing constipation and its attendant evil, flatulence. Being a potent blood purifier, Ferrozone cleanses the crimson flood of all bile and impurities, and as a result the complexion is restored to its healthy hue, and the dark circles under the eyes and the deathly pallor of the cheeks, go away never to return.

Taken for disorders of the stomach, commencing with biliousness, and ending with derangements of the liver and kidneys, Ferrozone achieves marvelous results. It is the same time a tonic and stimulant, and a regulator of all bodily functions, and chronic sufferers should not fail to give it a fair trial. It will do them good without doubt, and if the malady is curable it will yield to Ferrozone.

With the use of Ferrozone appetite will be better, the blood made rich and pure, sleep will be dreamless and sound. Your muddy complexion will be cleared and brightened, your eyes will acquire a new brightness, and as your spirits rise and good cheer returns you will bless the day you learned the secret of Ferrozone's power.

If you think you need Ferrozone go to the nearest drug store and procure a supply. Refuse a substitute and insist on having the genuine Ferrozone, which costs 50c. per box or three boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont.

A GOOD FAST COLOR.

"You," said the angry customer of the clerk, "said this cloth was fast color, and it faded out within two months after it was made up."

"Well, madam," replied the clerk, "I don't think you ought to have expected it to fade any faster than that."

Your Money Refunded.

If Yasai Zutoo Tablets (Japanese Headache Cure) fail to relieve Neuralgia or Headache in 20 minutes. They are a strictly vegetable compound. Price 25 cents.

A NOTED ROBBER ARRESTED.

QUINCY, Mass., Jan. 12.—W. L. Lane, alleged to be a member of the gang which robbed the Abington Bank of \$15,000 recently, is under arrest. He will be taken to Galesburg for hearing.

To cure a headache in ten minutes use Kumfort Headache Powders.

WHY IT WAS SO NAMED

"I never understood why they called it angel cake," "Simple as peach pie, man. They call it angel-cake because—well, for the same reason they call the railroad the New York Central." "I don't tumble." "Why, the railroad takes you to New York."

VALUABLE ADVICE TO MOTHERS

If your child comes in from play coughing or showing evidences of an approaching attack of Grip, Sore Throat, or sickness of any kind, first thing get out your bottle of NERVILINE. Rub the chest and neck with NERVILINE, and give internal doses of ten drops of NERVILINE in sweetened water every two hours. This will prevent any serious trouble. NERVILINE or pain reliever equals Polson's NERVINE, which is a necessity in every household. Large bottles cost only 25c.

A BARBEROUS JOKE.

Witness—Is the government is establishing free barber shops out west for the Indians.

Wag—Well, it is due them. They gave the early settlers many a close shave.

WANTED—A case of headache to a KUMFORT Powders will not cure you ten to twenty minutes.

MEETING OF THE CABINET.

WASHINGTON, Jan. 12.—The Cabinet was in session nearly two hours today, all the members except Secretary Root, who is in New York, being present. Secretary Hay had little to report on the Venezuelan situation.

Beautiful Furs!

The balance of stock on hand in manufactured garments will be closed out at prices that will interest you. We don't trouble you with paltry discounts. These prices are made to clear our stock of made up goods.

We do not appeal to your pocket book with the argument that our furs are so much cheaper than the ordinary kind, we simply say that ours are better, leaving this to your judgment for verification.

Caperines

- Blended Sable and Persian Lamb \$40.00 for \$27.50
- Baltic Seal and Alaska Marten Caperine \$55.00 for \$38.50
- Baltic Seal and Blended Sable \$35.00 for \$25.00
- Thibet Lamb and Baltic Seal \$25.00 for \$19.50
- Russian Coon Coats \$32.00 for \$22.00
- Astrachan \$35.00 for \$22.00
- Russian Lamb \$55.00 for \$42.00

If you don't find what you want here we have stock in five other stores to select from.

WHEN LIFE IS NOT LIFE

"Without health life is not life; it is only a state of languor and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instills new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

EXCITEMENT SUBSIDED.

SCHENECTADY, N. Y., Jan. 12.—The excitement caused by "run" on the Schenectady savings bank has subsided and the institute opened this morning. It is stated by an official of the bank that about all the money withdrawn has been re-deposited.

Yasai Zutoo Tablets.

(Japanese Headache Cure.)  
Cure your Headache and Cold so quickly and completely that you keep about your work as though nothing had happened. No cure, no pay. Price 25 cents a box.

THE VENEZUELAN MAILS.

NEW YORK, Jan. 12.—During the continuance of the Venezuelan blockade the steamers of R. & D. line will not run to Caracas.

LEADING MANUFACTURER DEAD.

PATERSON, N. J., Jan. 12.—Israel Banningsham who had been engaged in the manufacture of silk in this city since the early sixties is dead at Lakewood from paralysis.

MESSERS C. C. RICHARDS & CO

Gents.—I have used your MINARD'S LINIMENT in my family and also in my stables for years and considered it the best medicine obtainable.
