SERIAL and COMEDY

Fortune Bridge was in charge for the Potato Growers Association.

Mr. B. Creamer, Souris, was among the passengers to the City last week.

Mrs. J. T. LaPierre, Bay Fortune, was a passenger to Charlottetown Saturday to enter the Prince Edward Island Hospital for an operation for appendicitis. She was accompanied by Mrs. Harry Burke.

Mrs. W. H. Townshend and children, Elsie, Clifford and Lloyd who spent the winter months in Charlottetown have returned to their farm in Rollo Bay West for the summer months.

Mr. Kenneth Morrison, Dundas, has been undergoing treatment in the Prince Edward Island Hospital.

Mr. Jimmie Keays, Souris, was a visitor to Little Pond last week.

Mr. Preston Bryenton, Rollo Bay, is at present in Charlottetown.

The Rollo Bay-Souris road is at last fit for automobiles. The major part of the road is in fine shape, (and has been for some time) but a couple of spots are still anything but smooth.

Friends of Mr. Ernie Francis, formerly of this section, but now of Boston, will be sorry to learn that he met with a serious accident, injuring his eye by striking on the edge of a steel square. Mr. Francis suffered a great deal, but, according to last reports, there was a slight improvement in his condition.

Messrs J. Lutz and A. Aitken of Fortune were welcome visitors to Cardigan last week.

Mr. Bruce Yeo and baby daughter have returned to Souris, after spending the winter months in Montague.

Mrs. Graham, Souris, has opened up a restaurant in the "Block", Souris, and is doing a splendid business. Mrs. James Blackett has also opened a boarding house on Breakwater Street, Souris.

We extend sympathy to Mr. Arthur McCallum of the firm of Matthew & McLean, Souris, who met with a very serious accident last week when a stick of heavy lumber which he was helping to unload slipped and struck him, causing dislocation of the knee. Mr. McCallum was taken to the hospital, and is doing as well as can be expected.

Mr. Howard Wood, Red House, was a visitor to South Lake last week to attend the auction sale at the farm of Mr. Edgar Francis. We understand the sale was a splendid success, everything bringing high prices.

Mrs. Val McDonald was among the visitors to Souris Saturday.

Miss Hilda Francis, Fortune, spent Saturday in Souris, the guest of Mr. and Mrs. B. Creamer.

All the lobster factories are in full swing now, some extra good catches are reported on the north side, fishing just fair on the South side as yet, bait scarce.

Mr. Upton Seaman motored to and spent the week end in Souris.

Messrs H. H. and M. A. Acorn, Dr. F. S. McDonald and Mr. and Mrs. Ernest Dingwell of Souris were visitors to Fortune Friday in attendance at the funeral of the late Albert Coffin.

Congratulations to John Dan McIntyre of Souris, who came second in the Provincial Oratorical Contest. Also to Mr. John Denny who is well known in this vicinity, having resided in Souris for a number of years.

Residents of Fortune and vicinity were deeply shocked when on Thursday morning the news of the death of Albert Coffin was whispered from one to another. Mr. Coffin had been sick for a few days and daily visited by his physician, nevertheless hope was entertained for his recovery, as "Al" (as he was familiarly known to all) was a perfect specimen of manhood and had always enjoyed splen-

Messrs R. C. McLean and Thos. Arbing, Souris, were visitors to Fortune Saturday the 11th, lured by the beautiful weather and the "speckled beauties". We understand they had real luck.

Mr. Edison Stewart of the firm of Matthew and McLean, has been confined to his home for the past week. We wish him speedy recovery.

The fertilizer steamer which was docked in Souris last week has left again, after discharging her cargo for that port. Mr. E. J. Campbell of

Canadians from coast to coast are long since familiar with the phrase "This program comes to you through the courtesy of". Many of the finest programs on the air are sent out by commercial firms, now household names; wherever Radio is installed. In England, however, commercial programs have been unknown until quite recently, when some keen thinking led Kolster Brandes Limited, the British manufacturers of the Kolster Radio, to seek some way of presenting Radio programs to the many thousands of British Radio enthusiasts. Under the government system English Stations are barred and a powerful station in Holland, 250 air-line miles across the North Sea, provided a welcome solution to the difficulty.

A series of successful concerts have been started which are clearly heard on the average receiver in the vicinity of the British metropolis. The famous Mengleberg Orchestra of Amsterdam, led by Hugo de Groot, provides a symphony concert of high standard every Sunday night, and the effort has already brought thousands of applause letters from British listeners.

The British publications speak of the sponsored series as "a unique publicity campaign, by no means new in Canada or the United States, but the first attempt by Radio manufacturers in England to adopt this method of creating public interest."

From reports to hand, the Radio listener in England is just as ready to respond to the right type of sponsored entertainment as here in Canada.

WEDDING BELLS—A very gay wedding was solemnized at 50 Mansie, Jamaica Plain, Boston, when Edwin George Wood, son of Mr. and Mrs. George Wood of Rollo Bay, E. Island, was united in marriage to Margaret Inez Bryenton, daughter of Mr. and Mrs. Beecher Bryenton of Union Road, P. E. Island. The couple were attended by Miss Annie Jones and Mr. John Pope, friends of the bride and groom. The bride was attired in a silk crepe ensemble suit with pearl grey with shoes to match and hat of orchid. After the ceremony the happy couple motored to the new home in Cambridge, Mass.

MR. JENKINS REPLIES—In answer to the representations of the local Association of Retail Merchants, regarding the removal of the militia camp to Aldershot, N. S., Mr. W. A. Stewart, President of the Retail Merchants' Association has received a telegram from Mr. R. H. Jenkins, M. P., promising to place the matter immediately before the Department of National Defence. A letter protesting against the proposed removal of the militia has already been despatched to the Minister of Defence by the Association. Telegrams to all the Liberal members and Senators have also been forwarded.

BORN BEFORE HIS TIME
(The Winnipeg Tribune)
The following was published in a Boston newspaper 60 years ago:
"A man about 46 years of age giving the name of Joshua Copper-smith, has been arrested in New York for attempting to extort funds from ignorant and superstitious people by exhibiting a device which he says will convey the human voice any distance over metallic wires, so that it will be heard by the listener at the other end. He calls the instrument a "telephone", which is obviously intended to imitate the word "telegraph" and win the confidence of those who know of the success of the later instrument, without understanding the principles on which it is based.
"Well-informed people know that it is impossible to transmit the human voice over wires, as may be done with dots and dashes and signals of the Morse code, and that, were it possible to do so, the thing would be of no practical value. The authorities who apprehended this criminal are to be congratulated, and it is to be hoped that his punishment will be prompt and fitting, that it may serve as an example to other conscienceless schemers who enrich themselves at the expense of their fellow-creatures."

Nothing Speedier
Hospital doctor (jokingly)—And how did you get here?
New Patient—Flu.

MAGISTRATE

—Continued from page 1—

moved for the discharge of the prisoner. The criminal code directs that after hearing the evidence if in the opinion of the magistrate it is not sufficient to commit the prisoner he shall be discharged. What is the evidence?

The only evidence offered to connect prisoner with the burglary was a statement alleged by Mr. Grady to have been made to him by this Hubert McDonald. Grady says that in conversation with him he said to Hubert McDonald, you are going to get yourself in wrong, you are now out on bail and, he says, McDonald replied that he was not in Noonan's. He was outside in the yard and McDonald and the other prisoner went in and took the goods. Neither of the prisoners were present at this conversation. McDonald denies having said this to Grady and further says that on the night of the seventeenth of April he got home from a neighbor's about 11.30 and went to bed about twelve and did not get up until about nine the next morning. That McDonald was in the house when he came home. That he and the two prisoners sleep in the same room in separate beds. Thinks they went to bed before he did. Didn't know whether they had gotten up through the night or not. Didn't know whether McDonald had been in Noonan's on night of seventeenth or not. Neither of the prisoners had told him they had been. He did not tell Grady that he was with McDonald and the other prisoner on night of seventeenth of April when they broke into Noonan's. Had different conversations with Mr. Grady about the breaking in at Noonan's. He asked him if he had anything to do with it. He said no. In our talk we were wondering who had done it. He asked me if I thought McDonald had anything to do with it. I said I didn't think so. I do not remember telling anyone McDonald was one who did the breaking in. If so, I would be talking of something I did not know what I was saying. I did not tell Grady that on the night Noonan's had been broken into I was in the alleyway and McDonald got in Noonan's cellar through a window in the cellar door.

There are other talks between McDonald and Grady relating to the goods stolen but this is all that relates to the charge of breaking in and beyond this there is no other evidence. And this resolves itself into a question of credibility. Assuming for the moment that Mr. Grady's story is true it imports that Hubert McDonald and the two prisoners were accomplices in the breaking and entering of Noonan's store. Then is the statement of one of the three accomplices made in the absence of the other two receivable in evidence against them on a prosecution for

the offence referred to without independent testimony connecting them with the commission of the crime.
Lord Reading the Chief Justice of England in R. v. Beskerville 1916 2 K. B. 658 says "The rule of practice as to corroborative evidence has arisen in consequence of the danger of convicting a person on the uncorroborated testimony of one who is admittedly a criminal." And as Lord Abinger has said in Reg. v. Farler 80 and P. R. 107 "It is the practice which deserves the reverence of the law that judges have uniformly told juries that they ought not to pay any respect to the testimony to an accomplice unless he is corroborated in some material circumstance."
In R. v. Dyke 1838 8 C P 261 "The court laid it down that the confirmation of an accomplice ought to be to some matter which goes to connect the prisoner with the transaction and it would be highly dangerous to act on evidence of the accomplice uncorroborated with respect to the party accused." The same was held in R. v. Everest 1909 73 J. P. 269 "That a judge should direct a jury to acquit if the evidence against the accused is that of a person put forward as an accomplice and his evidence is not corroborated in some material particular that involves the guilt of the accused. This principle is also recognized by the highest court of New Zealand in R. v. Reynolds and Peterson 1911 30 N. Z. L. R. 801 also Supreme Court of the United States in U. S. v. Logan 144 U. S. 263. In the State of Massachusetts in Com v. Thompson 99 Mass. 444 in the Supreme Court of New York in People v. McQuade 110 N. Y. 284. Also in Halliburton's Laws of England Vol. 9 page 367 the English and Empire Digest Vol. 14p. The American and English Digest Harris principles of the Criminal Law 13th Ed P 400 Crankshaw, C. C., Rex vs. Dig. crim. evid. and a host of other cases that might be cited. Now in the application of this principle to a statement of one of three accomplices made in the absence of the other two. It is binding on the other two.

the accomplice there is nothing to connect them with the theft and the court declared the accused not guilty and discharged the prisoners.

In the case against McDougall there is no question. Noonan's shop had been broken into and certain goods stolen. But I may ask where is the evidence to connect the prisoner McDougall with this. Outside what Mr. Grady says Hubert McDonald told him and which McDonald denies I find none and on the authorities above cited I hold that statements alleged to have been made by McDonald to Grady is not receivable in evidence in this case against McDougall and I must discharge the prisoner.—E

STUDENT CONFERENCE TO BE HELD AT Y. M. C. A. CAMP, JASPER NATIONAL PARK

MONTREAL, May 15.—For a week in late June (June 20-27) students from all the Western colleges (and a few from the East) will live in the shadow of the blue hills. They will study in the mornings, talk and play in the afternoons and in the evenings around the fire, will listen to people who have found "Reality" in varied experiences of life.

The conference is open to students, graduates and staff members who are interested. A special invitation is extended to students of Eastern universities who are spending the summer in the West.

The enthusiasm for the setting of last year's Western Conference at Jasper Park left no alternative—providing only that housing accommodation for a larger number could be found. A fine, new dormitory-cabin, added to the equipment of Lake Edith Y. M. C. A. Camp solved that problem, so it's Jasper Conference again.

Lake Edith Y. M. C. A. Camp is four and a half miles from Jasper Station. It is one of the most beautiful spots in the Rocky Mountains. Sleeping accommodation: in floored, water-proof tents, supplied with cots and mattresses. Delegates will furnish their own blankets, and are urged to bring enough for cool nights. Meals are served in a large log dining-room overlooking the lake.

FORTUNE BRIDGE AND VICINITY

Mr. Leon Johnstone has charge of the Annandale lobster factory this spring, and left the week preceding April 26 to assume his responsibilities.

The May meeting of the Women's Missionary Society, Rollo Bay West Branch, was held at the home of Mrs. Arthur Francis. Roll call was responded to by a fair number of members. After the devotional exercises and business a very dainty luncheon was served by the hostess.

We extend sympathy to Mr. and Mrs. Allan McLeod, Albion Cross, in the death of their adopted son who passed away at the Prince Edward Island Hospital after an operation for appendicitis.

Messrs Ralph Dingwell and George R. Keefe, commercial men, City, made their first motor trip this spring on Thursday, May 2nd. They report the road in fair condition—not quite so "dry" as it might be—but never-

theless quite passable. These energetic young men are always on the job.

We regret to hear that Mr. John McLure, Albion Cross, has entered the hospital to undergo an operation for appendicitis.

On Friday night three new cars bound for the Magdalen Islands (fast trip of the boat) were held up near Dingwell's Mills for a short time. They later proceeded on their journey and made Souris in safety.

Inspector D. J. Mullins was on an inspection trip last week, calling at Souris, Rollo Bay, Fortune Head, Eglington and Fortune Bridge. He also was present at the Study Group meetings at the various centres, and gave considerable instruction regarding "Normal Training." At present the Eastern Study Groups are taking up the teaching of "Primary Reading" and "Geography." The Inspector has given an examination paper on these subjects, to be answered by the teachers one and all and then sent to Mr. Mullins for correction and valuation. Mr. Mullins is endeavoring to bring all of the teachers in his inspectorate to a high state of efficiency.

We are pleased to hear that Mr. Harold G. Matthew, Souris, who has been in Lake Saranac, for the past few years has returned home and is looking fine. We note by McLean's Magazine that Mr. Matthew has been winner in a number of "McLeansgrams." Congratulations.

Mr. George Leard, Souris, was a passenger on the western train Friday.

Among the commercial men in Souris recently were Messrs Sid Wolfe, Warren Lord, Billy LeBlanc, Lawrence MacInnis and Jimmie O'Donnell.

Mr. W. Edgar Francis, South Lake, has moved to Souris as a place of residence.

We extend sympathy to Mr. and Mrs. Allan McLeod, Albion Cross in the death of their adopted son who passed away at the Prince Edward Island Hospital after an operation for appendicitis.

Mrs. E. J. Campbell, Rollo Bay West, who is convalescing in the Prince Edward Island Hospital after two operations is doing splendidly and we hope to see her home again feeling O. K.

Messrs R. C. McLean and Thos. Arbing, Souris, were visitors to Fortune Saturday the 11th, lured by the beautiful weather and the "speckled beauties". We understand they had real luck.

Mr. Edison Stewart of the firm of Matthew and McLean, has been confined to his home for the past week. We wish him speedy recovery.

The fertilizer steamer which was docked in Souris last week has left again, after discharging her cargo for that port. Mr. E. J. Campbell of
