

BIRTHS

McDONALD - At Bothwell, March 19th, to Mr. and Mrs. D. L. McDonald, a daughter, Mary Theresa McDonald.

GILLIS - At Bothwell, April 15 to Mr. and Mrs. George Gillis, a daughter.

SUTHERLAND - At the manse, Chipman, N. B., on Thursday, April 29th, 1920, to the Rev. and Mrs. Archibald Sutherland, twins—a girl and a boy.

FROELICH - At the "Up-to-Date Eungallow", Leader, Sask., April 17th, to Mr. and Mrs. Lawrence Froelich, (nee Bessie M. Ennis), a son, James Lawrence.

MARRIED

McGILVRA - GAY - On May 3rd 1920 by the Rev. Edward Savage, at St. Bernard's Church, Moncton, N. G., Austin A. McGilvray, Gloucester, P. E. I., to Mary Jenkins, Cherry Valley, P. E. I. (Patriot please copy.)

DEATHS

McLEOD - At Ocean View, May 4th, Mrs. Alexander McLeod, aged 66 years. Funeral from Belfast Cemetery on Thursday 6th inst. at two o'clock.

Foods For Trade Russian Myth

(Dom. Press Special.) BERLIN, May 4.—The German government officials are now convinced that Russia's much advertised masses of goods ready for exchange with the rest of the world, are largely mythical. It is held there that Soviets are merely raising cry of "goods to trade" in order to effect recognition of their regime and shipment of foodstuffs to Russia. It is stated semi-officially that the German government is proceeding very cautiously in the Russian problem and proposed business men's commission which was to go to Russia with semi-official backing has been indefinitely postponed.

Public Auction of Farm

The 72 acre farm at Montrose, P. E. I. of the late Philip Gillis will be sold by Public Auction at the Court House in Alberton on Saturday May 15th, inst. at 12 o'clock p. m. Clear title will be given purchaser. For further particulars apply to W. H. Tanton, Solicitor etc., Alberton, P. E. I. 8694-5-6-7th3d.

AUCTION SALE

TUESDAY, MAY 11TH.

We will sell on the premises of W. C. Wood, Springton. The following stock and implements: Three horses; three cows, due to freshen shortly two yearlings; seven sheep; eight young pigs; one binder, Frost and Wood; one mow; one rake; one truck wagon; one cart; one Oliver plough; one set spring tooth harrows; one set spike harrows; two road sleighs; one box sleigh; fifty bushels oats; one set driving harness; two sets team harness; two sets working harness, also forks, shovels, rakes etc.

Sale positive, no reserve. Terms: 6 months approved joint notes, 5 per cent discount per annum for cash. THE SPRINGTON LUMBER CO. 8691-6-5-4c.

PUBLIC AUCTION

On May 11th at one o'clock I will set up and sell on the premises of L. Harrington, Eldon, 7 choice milk cows, 2 yearlings, 40 hens, some farming implements. Terms at sale. J. A. MACDONALD, Auctioneer. 8659-5-5 ME4pd.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 18th June 1920 for the conveyance of His Majesty's Mails, on a proposed Contract for four years, six times per week on the route Bonshaw Rural Mail Route No. 5 from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Bonshaw and at the office of the Post Office Inspector.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 21st May 1920 for the conveyance of His Majesty's Mails, on a proposed Contract for four years, 6 times per week on the route Montague Rural Mail Route No. 5 from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Montague and at the office of the Post Office Inspector.

Have you a Sick or Lame Horse?

You can get two preparations—endorsed by the leading horsemen of the Dominion—which will save and preserve the lives of your sick, ailing, lame horses and cattle.

Dr. J. Woodbury's Horse Liniment and Condition Powders

They are specifics for Cough, Distemper, Colic, Glanders, Spavins, Pink Eye, Splints, Curb, Enlargements, Cracked Hoof, Founders, Kidney Troubles, Fever, Cuts, Sores, and will remove Every Horseman and Farmer should keep these standard preparations in the stable.

Sold by all Druggists and General Stores. Prepared by Fraser, Thornton & Co. Limited, COOKSHIRE, Que. 101

Farmers Notice

Commencing March 22nd, we will take delivery of live hogs at the following stations on the following dates, paying the highest market prices.

EVERY TUESDAY: A. M. Wright, Montague; Louis Martin, Grand View; P. M. Drake, Vernon; Harry Jenkins, Hazelbrook; Bert, Brown, York.

EVERY WEDNESDAY: Everett Wedlock, Hunter River; J. W. Fyfe, Emerald; John Whitehead, Kensington; Louis Nuttall & T. H. Smith, Bay.

William Clark, Miscouct, Tuesday, March 23rd. Summerside, Wednesday, March 24th and each place fortnightly until further notice.

We take hogs every day at Charlotetown. For information phone office 532; Plant 533. CANADIAN PACKING CO., LTD. J. M. ROOP, Manager.

AUCTION AT ELMSDALE

After having disposed of my farm I will sell by public auction on my premises, at Elmsdale, on TUESDAY, MAY 11 At 1 o'clock p. m.

the following stock, implements and household effects: 1 mare (with foal) 6 yrs. old; 1 mare (with foal) 5 yrs. old; 5 cows with foals; 1 cow fresh; 2 (2 yrs. old); 1 year old cow; 2 year old heifers; 3 ewes and lambs; 1 brood sow; 1 pr. ducks; 5 pure bred Rhode Island Red hens; and cocones; 7 other hens; 1 truck wagon, pole and shafts; 1 box cart; 1 express wagon; 1 wood sleigh; 1 set double high sleigh with box; 1 road sleigh; 1 Deering binder; 1 hay rake (new); 1 brood cow; 1 gang plough; 1 plough, Frost & Wood No. 20; 1 plough, Frost & Wood No. 10 (new); 1 set spring tooth harrows; 1 set iron harrows; 1 grindstone; 1 set farmers; 1 hay fork, rope and blocks; cart saddle and breeding; 1 work pad and breeding; 1 driving harness; 3 work collars; 2 driving collars; 3 sets work harness; 1 set driving harness; 2 pr. leather traces (new); 1 pr. double reins; 1 set surcingle forks, shovels and hoes; 100 lbs. oats, quantity of hay, straw, iron and farming; other articles too numerous to mention.

Terms made known at sale. SIMPSON S. CROCKETT, 8630-5-4 th3d.

Canadian Government Merchant Marine

The S.S. "Canadian Aviator" sailing for Montreal, May 8th will be due here May 11th and calls for St. John's, Newfoundland direct, with horses, cattle and sheep on deck and produce underdeck.

In order that we may have regular sailings from Montreal to Charlottetown and St. John's, Newfoundland during this year it is of importance that our merchants and other importers patronize this steamer from Montreal. For all other information as to space and Freight Rates apply to BUNTAIN BELL & CO. Agents, Charlottetown April 30th 1920.

JUST A GIRL BY JANE PHELPS

SYNOPSIS

Zena Stewart, daughter of wealthy society people tells her story. She is the only child of a mother who is determined she shall make a good marriage, and a father who cautions her that the man has it for what counts, not what he has.

The story opens with Zena's introduction to society. She tells of her young friends, and her meeting with Kenneth Lawrence, a Californian who is a cousin of Claude Shepherd, a girl in Zena's set. Kenneth appeals to her principally because he is so different from the men she knows. He is rather serious, and doesn't care for society.

There are two other young men in the story at this stage, Jack Pryor and Gregory Stuart. Jack Pryor is a brilliant marriage. But dear old Dad used to say, when Mother talked of it: "Have your fling first, Zena, you have plenty of time. And marriage is a serious thing—it's not a girl's toy to treat it as a sort of a tea party."

I used to think of every young man I met in the light of a future husband. I think most girls brought up in society, do. They were all reasonably intelligent of course; some of them were amusing.

But none of them quite qualified. You see I had a standard set up in my mind; I loved none of them. I wanted to be thrilled—and none of them gave me even an imitation thrill.

One of my chums, Rose Hartman, was married. I was one of her bridesmaids. There were six of us. Rose looked perfectly lovely in her wedding gown and veil. She was of a very old family—I heard one of the boys say once it was so old it was decayed—and had some of her grandmother's lace as a veil, and to trim the corsage of her gown.

When I saw her looking so lovely, almost saintlike, I felt that I would like to be married too.

All the bridesmaids wore pink tulle with big picture hats, and carried immense bouquets of pale pink sweet peas. I thought we looked lovely, and all the boys, the aunts, seemed to think so too. None of them declared they wanted to steal me.

Gregory Stuart told me I had the bride wiped off the earth as far as looks went, when I had finished brushing her to him.

Of course I didn't! Rose is very pretty. But I rather liked Gregory, so I was glad he admired me. Like all mothers, mine had a penchant for one certain young man who called upon me, and who brought me wonderful flowers and bonbons. Jack Pryor was rather nice, and scandalously rich. That was why mother seemed to think he would be a most eligible party for me.

"I'm not going to marry a son-in-law. I'm going to marry a husband." I told her whenever she got really serious about Jack. He was a wonderful dancer, and I loved to dance. But I knew, if mother did not, that most of Jack Pryor's brains were in his feet.

Another used to say I expected too much of a man. Father said that I couldn't expect too much of goodness and clean living. Dad really was a wonder—a perfect host, a man of the world, a society man, not that sort of and talked to me—more about being good, living rightly, than about anything else.

When I was a twenty seven year old girl in pigtails I used to climb on his knee and he would tell me what kind of a girl he hoped I would be, and what a good girl what kind of a woman he wanted me to grow into.

"One who is kind, thoughtful, fair and square to herself, and all the world. Your education, your accomplishments will not bring you happiness, Zena. Happiness comes from within my girl to be good—really good."

I didn't think so much of what he said then, as I did of my love for him; and the half hour spent in his library with him. But afterwards, long afterwards, these talks came back to me. Especially: "I want my girl to be good—really good."

Appetite Keen and Bowels Regular

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Foul accumulations poison the blood are expelled from the bowels and headache, dizziness and sallow skin go.

Small Pill—Small Dose—Small Price. DR. CARTER'S LITTLE LIVER PILLS, Nature's Great Nerve and Blood Tonic for Anemia, Rheumatism, Nervousness, Sleeplessness and Female Weakness.

Get the best bear signature. BENTON

You forget what you are eating. You think only of the spoon. Naturally, I was expected to make a brilliant marriage. But dear old Dad used to say, when Mother talked of it:

"Have your fling first, Zena, you have plenty of time. And marriage is a serious thing—it's not a girl's toy to treat it as a sort of a tea party."

I used to think of every young man I met in the light of a future husband. I think most girls brought up in society, do. They were all reasonably intelligent of course; some of them were amusing.

Has Thrown His Crutches Away

WEATHERDON SAYS IT IS WONDERFUL HOW TANLAC RID HIM OF RHEUMATISM

"After what Tanlac has done for me, I'm bold to say that if you searched the world over you could not find a better medicine for rheumatism," declared William Weatherdon, of 118 Agricola St., Halifax, when in at Kinley's drug store, recently.

"I know what I am talking about when I say that, for I've suffered all the tortures that go with rheumatism, during the last ten years. Soon after joining the army four years ago, I was in the hospital for nine weeks with rheumatism, and I could not get my feet up to fight. I received my discharge, since then I've been in a much worse state than ever before in my life. It seemed to attack every bone and joint in my body. My arms and shoulders were so bad that I couldn't put my coat on, my hips and back got so stiff that I couldn't bend over and my feet so swelled up that I couldn't get my shoes on and needed a crutch even to get around the house. My hands were all out of shape with the stiffness and swelling, and I ached all over with a steady throbbing pain that I could not get clear of. I couldn't get up my stairs, and drove me almost out of my mind. Many a night I have been in such misery that I couldn't sleep a wink, but would just sit in my chair before the fire the whole night through. For five and six months at a time I have been so bad that I couldn't get up my crutches, and I would hardly get over an attack of the rheumatism before I would be down with another."

"That was the state I was in when I started taking Tanlac, and I want to say right here, that the way that medicine helped me was simply wonderful. I've taken seven bottles of it altogether, and the rheumatism seems to have left me entirely. Today, I haven't got an ache or a pain in my body, the stiffness and soreness in my joints is all gone, and the swelling in my ankles, feet and hands has all disappeared. I no longer need crutches to get about, and although I am working every day in all kinds of weather, the rheumatism never gives me a bit of trouble. Never in my life have I seen a medicine do what Tanlac has done for me."

Tanlac is sold in Charlottetown by Kinley Bros., in Montserrat by H. J. Mabon, and by the leading druggists in every town.

A Social Duty Justly Discharged

On Friday evening the immediate friends of John W. and Mrs. Warren, Kensington, waited upon them at their home and presented Mr. Warren with an elegant gold watch and chain and a fountain pen, and Mrs. Warren with a set of silver knives, forks and spoons. Immediately on entering, the guests related them into formal meeting, electing Mr. G. R. McMahon chairman and Mr. McMahon introduced the event from his dais in terms of laudatory brevity that set the social moment immediately into action. Mr. J. A. Ready read and presented the following address:

Dear friends,—We, your friends and neighbors here assembled, wish to tender you our genuine respects on the eve of your departure for the Canadian West. With sincere regret have to realize that your purpose to leave us will be carried into effect. But, we would not, if we could, dissuade you from your purpose, for we are convinced that your future in the West is assured.

We shall miss you keenly, for you were ever among us, and your company and your influence were ever appreciated, and constantly desirable, you will leave a void that the onward march of time may see filled, but we doubt if ever so efficiently. But we must be content to believe that the opportunities in the West are more numerous and more advantageous than our Island can offer, and we know that we are all capable of profiting by them.

We would ask you to please accept these small gifts, not merely for their intrinsic value, but as a tangible token of our feelings toward you and your family.

Signed by Rev. T. W. Goodwill, James Pendergast, Jas. W. Stewart, Thomas Somers, John Doughart, Benjamin Goss, F. Morrison, Earl Reeves, David McLaren, Donald Stewart, David Cole, Edward Pendergast, George Easter, Parmenas Oar, Peter Harrington, William Bernard, Arch Ramsay, Garnet Profit, William Carew, Alex. Hiltz, Earl Kennedy, J. A. Ready.

Mr. Warren acknowledged the beautiful gifts in appropriate terms sincerely thanking his friends for remembrance so kind and so significant. He vowed perpetual remembrance of his many genuine friends felt satisfied that if ever he returned he would meet the same kindly association as that from which he is now loath to depart.

Brief and pointed speeches were made by Rev. T. W. Goodwill, Messrs. George Easter, Wm. Carew, G. R. McMahon, Earl Kennedy, and others, all eulogistic of the sterling qualities of Mr. and Mrs. Warren and prophetic of the success that must attend Mr. Warren in the West. They departed on their long journey on Wednesday morning.

MALE HELP WANTED

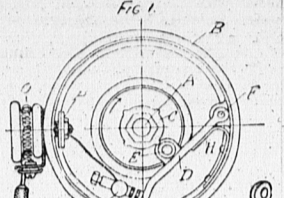

Students, teachers, and others, men or women, write for our \$2000 offer for 8000 days' educational and patriotic work. Exceptional opportunity. Write for details. Age and experience not interview by appointment with District Representative. Address Mr. Conrad, Dept. 6, 100 Educational Dept. 1st St. Sp. 100 Toronto.

HINTS FOR The Motorist

BY ALBERT L. CLOUGH IGNITION, THE TIMER

Fig. 1 Represents in principle, a typical timer viewed from above along the shaft that drives it. B is the shallow, cup-shaped shell made of mottled insulating material mounted as a stationary part upon and guided by the driving shaft.

The end of which is shown at A. Since the cylinders must be fired at exactly the correct crankshaft position, shaft A must be run by the crankshaft itself and is usually gear driven from it, generally at exactly one-half its speed. C is a cam fixed to the end of shaft A and angularly adjustable upon it by means of a locknut and is represented as having four projections. As each cylinder of a four-cycle engine fires once in every two crankshaft turns and as shaft A runs at one-half engine speed, the cam must be so designed that all cylinders shall fire during one of its turns. The number of projections determines the number of sparks per turn of the cam and the timer here shown is thus for use with a six-cylinder engine. For use with a four, there would be six equally spaced projections and for an eight the number of projections would be eight. D is a lever arm pivoted at

pressed toward cam C by spring H, and carrying the roller E, which follows the surface of the cam. K is a contact point of platinum or tungsten fastened to lever arm D and L is a similar contact point carried by a screw, adjustable in the insulated post M, which is fixed in the timer shell. The lever arm D is grounded to the engine through contact with the cam and shaft and otherwise. N represents the wire leading from the primary winding of the induction coil and connected with a spiral coil of special resistance wire O, wound upon a heat-resisting porcelain spool. This is the ballast resistance which limits to a safe value, the flow of current through the primary coil and thus prevents its overheating, as well as the rapid exhaustion of the battery, should the switch be left, on with the engine idle. The inside terminal of the ballast coil is electrically connected to post M. As here shown, roller E is just riding over one of the cam projections and lever arm D is forced away from the cam so that platinum point K is thrown out of contact with point L, but when the roller is riding upon the circular surface of the cam, the lever arm is closer to the shaft and the platinum points are in contact, permitting current to flow as follows:

From ground through the engine, through the battery, switch coil, primary, ballast coil, post M, contact points L and K and lever arm D back to ground through the drive shaft.

FACE WAS FULL OF PIMPLES For Three Years. Hard and Awfully Sore. Disfigured. Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples and they were hard and awfully sore. They festered and dried up, and were scaly, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face.

"I started to use Cuticura Soap and Ointment and used two cakes of Cuticura Soap and two boxes of Cuticura Ointment when I was healed." (Signed) Clifford Yeomans, East Cheshelcook, N. S.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion, Canadian Dept. of Health, Ottawa, Ontario. Lyman, Limited, St. Paul St., Montreal. Cuticura Soap packages without mug.

NOTICE

Notice is hereby given that all persons bringing meat of any kind to Charlottetown for sale must have the liver, lungs and heart attached to carcass, as it must be inspected and stamped before being offered for sale. Anyone neglecting to comply with these regulations will be liable to the penalties as set forth in the by-laws of the city of Charlottetown.

DR. K. W. MCKINNON, Veterinary Inspector, Office 133 Kent St. 85533-4-25U.

RATTRAY'S LA MARITANA 3 for 25c A Lasting Smoke of Pure Delight

ing shaft and engine, charging the core of the induction coil magnetically. The instant, however, in the course of the rotation of C., a projection reaches roller E the lever arm is pushed slightly away and points K and L separate, breaking the circuit at this point very suddenly and, in conjunction with the effect of the condenser (which is connected around the two contact points), causing the almost instantaneous discharge of magnetism from the coil core, with the production of a high tension impulse in the coil secondary, as heretofore explained. In the timer here shown, this action occurs four times in each rotation of its shaft or once for each cylinder, and cam C is locked to shaft A in such position as to produce the spark impulses at exactly the right instant in each cylinder. To insure exactness in this regard, the cam has to be formed with the utmost precision as regards the spacing and the shape of the projections. Unless the lever-arm is light, it may fall perfectly to follow the surface of the cam, causing irregular action at very high speed and it must be no heavier than is consistent with stiffness. The contact points must be of material that does not oxidize, that is not readily fused by any sparking that occurs between them, and that is hard enough to resist the constant hammering which they are subjected to. When the cam has rotated, contact point L is adjusted closer to K by moving the screw in post M. Timer shell C may be constructed that it can be rotated slightly, upon its support relatively to shaft A and cam C, and if its angular position is thus changed by turning it in the direction of shaft rotation (indicated by the arrow) the cam projections will strike the roller later in the movement of the crankshaft and ignition will be retarded, while if the timer shell is shifted in the other direction, the circuit interruptions will be advanced. If an arm is attached to the outside of the shell

and this connected to the spark lever, the shell can readily be rocked through the fixed angle required to give the desired advance or retard. The same effect of making the sparks occur earlier or later can also be produced by shifting the angular adjustment of the cam on the shaft that drives it from the engine and this method is thus in fact, in principle, the same as R represents the driving shaft, and S the timer shaft, carrying the cam corresponding to A in Fig. 1. T is a collar, designed to slide vertically in a geyway in S and obliquely on the shaft that drives it from a slanting slot W in T. A wing groove in T is engaged by pins on S so that it can be given an upward or downward motion, by connection with the spark lever. When T is moved downward, shaft A and cam C are displaced relatively to shaft R in the direction of rotation and ignition is retarded, while when the motion of T is upward, shaft S slides upward on its pin, twisting it in the opposite direction relatively to R, thus producing the required advance in the ignition.

Questions of general interest to motorists will be answered in full column, space permitting. If an immediate answer is desired, enclose self-addressed stamped envelope. Address Albert L. Clough, care of our office.

Minard's Liniment Co., Limited. I was very sick with Quinsy and thought I would struggle, I used MINARD'S LINIMENT and it relieved me at once. I am never without it now. Yours gratefully, MRS. C. D. PRINCE, Nauwigawauk, Oct. 21st.

"You'll like the Flavor" KING COLE TEA Makes a Friend of Every User. Perfectly packed in bright lead foil, and price marked on every package.

Shore Farm for Sale

About 7 miles from Charlottetown on the East River, 80 acres of land with buildings, also 25 acres very near. Land in good state of cultivation, well fenced with woven wire, mussel mud and sea-weed in front of farm. For further information apply to P. A. Farquharson, Prowse Block, Charlottetown, Phone 655, or Bartlett McKinley, Frost & Wood, Charlottetown, Phone 99. 7864-3-23METuehstft.

LIVE HOGS WANTED

We are ready now to receive live hogs, paying as follows, delivered at our packing house, Charlottetown:— 150-275 18 cents 275 up, 16 cents Brood sows, any weight, 14 cents all good quality, well fattened. Delivery may be made on any day except Saturday.

Light hogs, under 150 lbs., are of very little use for packing purposes, and as the chief profit from feeding comes in the last few weeks of finishing, it is respectfully suggested that farmers hold any small hogs, under 150 lbs., until of weight and quality more profitable for all concerned. But should it be necessary to dispose of any such under-weights they will be received at market value, proportionate to above prices.

We also buy at various points throughout the Island and full information can be obtained from our local representatives. DAVIS & FRASER, Charlottetown, P. E. I.
