Over-anxious parents, the father is usually forced to perform the part of a receiver and take over both the business and the boy himself. As a final outcome of such a blunder the young man tends to lose self-confidence and his self-respect as well. All thoughtful advisers will say, let the boy have ample time to prove both his ability and his enthusiastic interest in a vacation of his own choice before backing him financially in business enterprise, and then assist him to the extent that your means and good judgement will allow. Convince him of the undoubted satisfaction of having started his own business without any assistance financially.

DOG'S GRAVE AT BAR EARBOR. (Lewiston Journal).

A bit more than half the length of the famous Shore path at Bar Harbor there juts out what at first look appears to be a flower bed. Closer inspection shows no flowers to be there. It is a plain grass plot, small stone wall, the work of the shore below the level of the path.

This oval grass plot, with its small pile of rocks at the small end, is at the point where the path passes through the estate of Edward McLean, of Washington (D. C.) Originally the McLean estate, at later years term it was owned and built by Montgomery Sears, Boston's noted millionaire. It was then one of the most beautiful spots in the place, and it is today.

Among his possessions was a dog which he prized highly and for which he had a genuine affection. One summer a good many years ago this animal died. Mr. Sears had this mound erected for the dog, and beside the Shore path, where it passes through his old estate, and the dog was buried. The small pile of stones marks the exact spot of the grave.

WON BIG CROSS COUNTRY FLIGHT.

BOSTON, Sept. 5.—The Derby event of the second annual Harvard Boston meet, a cross-country flight of 160 miles through three states the longest competitive cross-country flight ever held in this country, was won yesterday by Earl L. Ovington, Boston, who flew a 50-horse power Bleriot monoplane.

LEIT. T. D. Milling, of the United States Army, flying a Burgess-Wright biplane, won in the second division.

The course to Nashua, N.H., thence to Worcester, Mass., and back to Providence, R. I., and back to Boston, was covered by Ovington in 118 minutes 22 1/2 seconds, winning for him a purse of \$10,000. Milling, in his biplane, did the course in 322 minutes, 37 seconds, securing \$7,500 offered in the biplane division.

But four men of the dozen aviators at the field started. Claude Grahame-White and Tom Sopwith, the Englishmen, and Eugene Ely and Geo. W. Beatty, tried to have the course but they were unsuccessful.

TAKE OFF THE TARIFF TAXES.

(Written for The Guardian.) If you like to see progression in the land, Take off the tariff taxes. And see contentment grow on every hand, Take off the tariff taxes. To make our bonny Isle a garden grand, Take off the tariff taxes. To see its industry and wealth expand, Let all sons and daughters echo the demand, Take off the tariff taxes.

The farmer's products would in value grow Without the tariff taxes; Exports and imports would in current flow, Without the tariff taxes; To make the wheels of commerce quicker go, And our exchanges hasten to and fro, We want our neighbor's help, and they, I know, Want not our tariff taxes.

Our great producers want materials free Without our tariff taxes. The more materials cost the price will be increased by tariff taxes. Give them an even chance and prosperity will see The steady march of great prosperity, With Island greatness in its infancy, Without the tariff taxes.

And what about the non-producers? They Need not the tariff taxes; They are consumers, and our staff and stay, Are but a burden; but they have to Their shoulders to the wheel, and the cause may win, and do a way With the old tariff taxes.

O freemen! Voters of Prince Edward Isle! Burdened with tariff taxes! Wake up, march to the polls in double file! And vote against those taxes. And in the time to come you'll surely smile. That you allowed old party smut deals. The Isle's historic page, meanwhile There are no tariff taxes.

VACATION FOR MOTHER.

Vacation days for Mother are I'm sure just all combined, For its Ma will you get me this; and Ma, is my new dress coming and is my hat a sight; Will I go with the crowd or stay at home to-night?

Ma, will you help sister, and mend her pretty stocking, Ma, can I call on Mary Little, oh this is simply shocking; Ma, there is brother with his broken cart; Ma will you mend it before it parts, Oh, I must go now, Ma, and catch the girls before they start.

Ma, I've just got back; does my skirt look neat; Ma, may I go a-visiting with Jennie down the street, There is dad a-coming with his dinner pail, Ma, is supper ready, and where is the daily mail.

Ma, when you was a girl did you like vacation time, Did you have a tree in your yard to climb, Ma, may we make some fudge; and is Ma, don't tell Pa if I have some fun.

Ma, will you make some lemonade, And may I go to the beach; and in Ma, Johnny wiped a doughnut and some huckleberry jam, Ma, here comes the minister; and the old rag man.

No doubt mothers' counting up the days, And Pa economizing for the means So when vacation days have about reached their prime, Let Pa and Ma have a jolly good time.

OLD-TIME REMEDY DARKENS THE HAIR Gives Co'or, Lustre To Faded And Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Ready, and authorized druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is turning gray or coming out don't delay, but get a bottle of this days' treatment will do for you. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by E. A. Foster and McKinnon Drug Co., city. Special Agents MacKinnon Drug Co., Kent and Great George streets, and B. A. Foster, Sunnyside.

QUICK WORK OF STEAMER LAURENTIC.

QUEBEC, Sept. 5.—Quick work was done with the White Star liner Laurentic at this port today. The vessel arrived here at 8 o'clock this morning, discharged her passengers and baggage, took on the outward passenger and baggage and sailed again at 3 o'clock for Liverpool. The steamer was handled with the most remarkable expedition, and the effort to get the big liners again on their regular time, which was completely disrupted by the recent strike, is being pushed forward strenuously. Previously the Allan steamer Virginian which arrived on Friday night, took passengers, baggage and cargo at this port and left on Sunday morning. Neither of these vessels could be sent up to Montreal owing to the rush to get them through and catch up their regular sailing dates.

BOY KILLS GIRL AND THEN HIMSELF

QUOGUE, L. I., Sept. 2.—The unrequited love of a boy 20 years old led to murder and suicide here today when William D. Childs, Jr., of New York city, shot and killed Miss Katherine Van Wyck while he and she were walking in Ocean Lane, near her father's country home, and then killed himself before he could be disarmed.

WOMAN CONTEMPORARY OF LAFAYETTE DIES

LYNN, Sept. 4.—Mrs. Lydia Proctor Johnson, one of the oldest women in Lynn, died early this morning at her home, 97 Fayette street, Lynn, from old age and dropsy. She was 95 years of age.

On the occasion of Lafayette's visit to this country, Mrs. Johnson was present at the jubilee feast given in his honor at Marblehead in 1824, and had in her possession the knife and fork which the celebrated Frenchman used at the feast.

THE CHURCH GOING HABIT

Hon. Chauncey N. Olds, of Columbus, Ohio, once said, in public substantially these words: "I was carefully nurtured by my mother. All went well in my early religious life until I entered college. There my gay companions and the fascinating college life came near destroying my Christian consistency. One thing, however, I could never get over, and that bound me as a gold chain about the feet of Jesus, the habit I had formed of going with her to the courts of the Lord, Every Sabbath, even after a week of reckless mirth, I found myself, wending my way to the church of my mother. That habit saved me."

\$2,000 FIRE AT MILLTOWN, N. B.

ST. STEPHEN, N. B., Sept. 5.—The stable of Mayor F. C. Murchie, Milltown (N. B.), was destroyed by fire today. The horses, carriages and harness were saved, but a large amount of hay, his residence, and Murchie's beautiful residence, and fire departments from Calais and St. Stephen were called to the assistance of the Milltown department, and by their combined efforts the fire was confined to the ell of the residence. The loss is about \$2,000, and is probably covered by insurance. Mr. Murchie was not at home at the time of the fire.

BURMAN LOWERS ANOTHER WORLD RECORD

NEW YORK, Sept. 5.—Bobby Burman, using his 200-horse power Blitzen-Benz car, lowered the world's record for the one-mile circular track at the Brighton Beach Motordrome, yesterday afternoon. With a flying start, he made the mile in 48.62 seconds. The old record, which was made over the same track on July 4, was 48.72 seconds.

Besides the record, Burman captured three distance races. He finished first in an Opel car on a five-mile dash for cars of from 301 to 450 inches displacement. The next race, the second heat of the Denny Grand Brassard, for a trophy valued at \$3,000, went to Burman in a Benz car. Following this he walked away with first place in the race for cars of 600 inches displacement with an Opel car.

The fifty-mile race was won by Hughie Hughes, driving a Motorcar. His time for the fifty miles was 49.56.06. There were no slight accidents during the day, but no one was hurt.

AGED NORTH SHORE PHYSICIAN DEAD

RICHIBUCTO, N. B., Sept. 5.—Dr. Doherty, a physician well known throughout the province, died at his home Saturday afternoon. About two weeks ago Dr. Doherty was in St. John attending the Masonic Grand Branch, Aug. 1, 1831, and took a preliminary course at the New York Medical School in 1851. For several years he has been the oldest practitioner in the province. Besides his wife, five children survive. They are Dr. W. W. of Campbellville; Dr. R. P. of Great Village; Fred. of Atlin (B. C.); Miss Catherine, at home; and Mrs. Hugh Jardine, of Moncton. The funeral took place on Monday and was very largely attended.

"MONALISA" CAME IN AT MONTREAL.

NEW YORK, Sept. 5.—A fresh hunt for the "Mona Lisa," stolen from the Louvre in Paris is being pushed today in the foreign quarters of every large city in the United States. The renewal of the investigation is based on a tip received by customs agents from abroad to the effect that the famous painting has already been smuggled into the country. The painting, after being landed in a Canadian port, probably Montreal, was shipped immediately west, so the story goes. There is a report current that the picture is in the hands of agents who are trying to dispose of it to a western millionaire.

THREE KILLED IN RAILWAY SMASH

ERIE, Pa., Sept. 5.—Three are known to be dead and as many are thought to be beneath the wreckage of the Erie and Pittsburgh passenger train No. 201, that crashed into a Lake Shore freight at Dock Junction, last night, where the roads cross. The dead are Engineer John S. Jones, of this city; a tramp, who cannot be identified, and an unknown passenger, who was riding in the smoker.

The bodies were found beneath the locomotive and smoker early this morning, the body of the passenger being so badly mutilated that identification was impossible. The bodies were brought to the city this morning by Coroner Hanley, who said that when the wrecking crew removes the piled up cars other bodies may be found.

In addition to the dead firemen, James Finner of this city, is dying in the Hamont Hospital. He was scalded and burned when the crash came and was among the first to be taken out.

The wrecked passenger train was bound for Erie from Pittsburgh, and was behind time. It is said the Engineer was running to make up his lost time, and ran by a block near the crossing crashing into the freight.

How They Canvas

They do love us, unquestionably, they love the very ground we walk upon; they love our forests—especially the spruce trees; they love our natural products and our markets; they love our raw materials and they love our industrial population, so passionately that they want to make their lives one long sweet holiday. When they come to take possession, they will say, as George the First said when he first arrived in London and his English was a little off-color: "My friends, we have come for your goods. We have come for all your goods."

The Same Old Shout

The Laurier organs began the campaign shouting that the Government cannot be beaten.

The said, "Look at the Government's majority of 43 in the late Parliament."

A few Conservatives, looking at beating of the Government was not that majority, might fancy that the an easy task.

But what foolish notions! The MacKenzie Government had a majority of sixty.

But at the election of 1878, that Liberal Free Trade majority of 70, which was wiped out, and a Conservative, Protectionist majority of 68 was put that by acclamation if he would withdraw.

In like manner, the Laurier majority of 43, may, easily, through treachery, be declined to do.

Miss Parlow has been engaged by a number of the reigning social leaders for musicals and among her New York appearances are three chamber concerts at the Hotel Astor with Ernesto Consolo, the eminent Italian pianist, who is also to tour the country under Mrs. Sawyer's direction.

WANTED TO BE RID OF BEULAH

(Continued from page 1) car? Or if the prisoner had gripped with the assassin and succeeded in wresting the shotgun from him, falling to the ground at the same time upon the sudden release of the weapon from the highwayman's hands, why did the highwayman fire with Beattie at his feet on the ground?

EVILS QUESTIONS IN DIRECT. These questions the prisoner evaded in his testimony, but tomorrow the prosecution will hammer away at them anew.

Denial after denial came from the lips of the prisoner as Prosecutor Wendenburg questioned him concerning the alleged purchase of a shotgun for him by his cousin, Paul Beattie, and the testimony of the latter. He admitted little of Paul's testimony concerning his meetings with him.

The influence of Beulah Binford on the case was conspicuous throughout the day. Counsel for the defence twitted the prosecution for not putting the girl on the witness stand since the State had subpoenaed her.

Alverson Smith of the defence said Beulah had had an opportunity of openly speaking with her, as she was kept incommunicado in jail, where Judge Watson, in surprise, declared the defence would have every opportunity to confer with the girl. Counsel for the defence said he washed his hands of the girl. The prosecution intimated it would call the girl when rebuttal begins tomorrow or the next day.

As he left the court room with the taller, Beattie lit a cigarette and departed leisurely over the green to the jail, a hundred yards away.
