Synopsis of Canadian Northwest Land Regulations

THE sole head of a family or any male over eighteen years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency but not Sub-Agency on certain conditions. Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties—Six months residence in each of three years after earning homestead patent; also 20 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions. A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 20 acres and erect a house worth \$300. The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions. W. W. CORY, C.M.G. Deputy Minister of the Interior

Keep Your Victory Bonds Safe

It is unwise to keep your Victory Bonds around the house when you can get a Safety Deposit Box in this Bank at very small cost where your securities (bonds, insurance policies, etc.) will always be safe—always easily accessible.

We gladly give full information about our Safety Deposit Boxes (different sizes); call in and see them.

FOOD BOARD FLASHES FOR FEMINE FOLK

The vegetable kingdom has the greatest bounty of all to offer to mankind. Although "man shall not live by bread alone," it is an undoubted fact that western civilization would find it difficult to get along without wheat and its products.

The world's total production of wheat approximates 4,000,000,000 bushels a year. It would take 4,000,000 of the largest freight cars, making a train reaching more than one and a half times around the earth, to move this great annual yield. Moving at twenty miles an hour, this train would take thirty days to pass a given point.

Take Russia, for instance. She has 288,000,000 acres of excellent wheat land. She was the greatest exporter of grain in the world before the war. It is to a great extent because of her defalcation that wheat is so scarce today. It is estimated that only one-third of her crops have been put in this year, while hunger grows apace among her people.

IN MEMORIAM EMANUEL JOHNSON

In the passing of Emanuel Johnson on Thursday, July 25th, Ellerslie loses one of its oldest and most respected landmarks. Although in failing health for the past two years the community was shocked when it was learned he had passed away. The subject of this sketch was born in Sweden in the year 1838 and came to this country about fifty years ago as a sailor on board a vessel owned by the late Captain Richards. A short time after his arrival he bought a farm which was then almost a wilderness, and after many years of hard labor he succeeded in clearing and cultivating it into one of the finest farms in the community. In religion he was a Methodist, having united with the church many years ago. His cheery countenance will be sadly missed in the home, where he was a kind husband and a loving father. He leaves to mourn their sad loss a sorrowing widow, two daughters and one son—the Misses Nellie and Malsie at home and Arthur in Worcester, Mass. The funeral, which was largely attended was held on Sunday and was conducted by the pastor, Rev. Mr. Sawdon and the remains were laid to rest in Bideford cemetery. The pall bearers were: Melville Ellis, William Burleigh, Edmund Budleigh, Joseph Miller, Walter Dystant and Louis Dystant.

Yours sincerely, 301280 GR. M. McPHEE, 36th Battery, 9th Brigade, C.F.A., France.

WAR CANNING BULLETIN

Issued by Canada Food Board

ALL LOADED UP

Here comes the lady of the house tripping down her cellar stairs loaded up with beets. She has the pleasant anticipation of the winter months when the youngsters will want something appetizing and wholesome in the way of canned products. She knows herself to be a good patriot, for canned beets mean the "stretching" of meat and the saving of bread the days when fresh vegetables are not on the market. So she is smiling to herself.

To can beets wash them thoroughly, leaving the roots and one or two inches of stem to prevent loss of color. Blanch ten minutes in water that is kept boiling, or steam if possible. Cold dip and remove the skins, roots and stems. Pack closely in jars. Add one teaspoon of salt to each quart jar. Fill the jars with boiling water. Adjust the rubbers and covers. Sterilize one and a half hours.

NOVA SCOTIA BOY APPRECIATES P. E. I. SOCKS

The following letter has been received by Miss Katie Reeves, Freetown, from Gr. M. McPhee:

France, July 18, 1918. Dear Miss Reeves:—I was fortunate enough to be the recipient a few days ago of a pair of socks sent by you and desire to thank you for your kind thoughtfulness.

We receive socks from Prince Edward Island ladies quite frequently, and though a good many of us are Cape Bretoners, we share equally the luck of the P. E. I. boys, of whom there are quite a number in this unit. My "bunkie", Jack McAleer, is a Charlottetown boy, and most of our out-section hall from the place they call "the Garden of the Gulf."

We have some great old scraps, for the Island boys declare that we can't grow anything in Cape Breton except coal, and that we would starve if the I. people didn't take pity on us. Do you think that's so? I've got a sister-in-law from P. E. Island, but have only seen her once, as she just came down our way as I was coming over here, and my brother married her after I left. Luck, guy! I must come to a close for this time, and go to work. I am enclosing my address, so hope you will drop a line when you have time again. Thanking you for your kindness, I am,

Yours sincerely, 301280 GR. M. McPHEE, 36th Battery, 9th Brigade, C.F.A., France.

JAP. STEAMER TORPEDOED CREW LAND IN NOVA SCOTIA

AN ATLANTIC PORT, August 15.—The U. S. schooner, Judge Boyce, has arrived here with 87 men of the crew of the Japanese steamer Tokuyama Maru, 7,000 tons, from an English port to New York, and which was torpedoed in lat. 39.12 longitude 70.23, (200 miles E. S. E. of New York) on Thursday night August 1st. The first notice the crew had of danger was the sight of a torpedo 100 yards away. While the attack was proceeding, they took to their boats, hastily rowing away from the danger zone. The sub. did not shell the boats, and they saw no more of the undersea craft until next morning at ten o'clock, when the U-boat came alongside, and her commander held a brief conversation with the
