CARTERS HAZARD'S IMPROVED
to get 25 lbs.

Turnips!

The accompanying illustration is a genuine photograph of a specimen of Carters' "Hazard's Improved" Turnip grown from Seed purchased at our Seed Store by James Farquharson, Esq., Southport, and grown in his field together with many other Turnips of same variety nearly as large. Four other turnips weighed 92½ lbs. combined. We have no hesitation in saying that this Turnip weighing as it did 25 pounds is the heaviest Turnip of the Swede variety at least grown in the Maritime Provinces, if not perhaps in Canada. Don't experiment with cheap so-called Hazard's Improved sold by foreign Seedsmen. They haven't got the genuine "they can't get it." Our stock is grown annually for us from selected roots. We have sole control for the genuine Carters' Hazard's Improved Turnip Seed. Sold only in sealed packages. Price 30 cents per pound.

GENEROUS GIVING.

MONTREAL, June 14.—Those whose hearts have been moved by the recent terrible distress in China will be glad to learn that the China Famine Fund monies cabled by the 'Montreal Witness' amounted in all to $10.000, most of which was cabled during the last two weeks of the fund.

These gifts were received from all over the Dominion, and a good many more 'Witness' readers were preparing to remit when they learned that the fund was closed.

The 'Witness' has always lent itself to this work of receiving and forwarding subscriptions for worthy causes, and vast sums have been collected by it for such purposes, one fund, the Armenian Relief Fund, alone amounting to over $15,000. The amount of work and expense involved in receiving, acknowledging and forwarding these large sums of money is very much greater than the general public can at all realize, but the 'Witness' has done it gladly and ungrudgingly, making no charge whatever for services or for newspaper space used.

THE KING'S COUNTY GUARDIAN

F. B. BREHAUT, Boston, is visiting his home at Murray Harbor.

THE Guardian's Dundas correspondent writes: Dundas Cheese Factory is again running, and is in charge of Angus McLellan, a cheese maker whose ability is too well known to be discussed. Under his management, if the pastures would only get to their growth, and supply the necessary feed to the cows, there is little doubt but that the patrons will have satisfaction with their returns.—John Stime the new manager of Matthew & McLean's store at Bridgetown, is rapidly winning the confidence of their customers by his courteous and painstaking manner.—Notwithstanding the general hard times because of the late spring, merchants seem to be doing a good trade.—Hay and potatoes are very scarce.—A sheep-killing fever broke out amongst the dogs in Mount Hope a short time ago; since then the guilty dogs have paid the penalty of their crimes.—There has been unusually good trout fishing at the head of Grand River, near Bridgetown, this spring. If any one wants to go fishing without violating some of the medieval game laws enacted at the last session of the Legislature they are advised to come to Dundas. There are good hotels at both Dundas and Bridgetown, and there are good fishing grounds along Grand River from Annandale to Grand River Bridge and the writer does not think any of the owners of the shores will want to fine any person ten dollars for standing room at their land.—His many friends were glad to see L. U. Fowler, High Sec'y of the I. O. F. around a few days ago. It is understood that several parties are going to accept his guidance through the Forest as a result of his visit here.—W.J. Nicholson has just finished giving his large orchard of apple trees a thorough cultivation—Mr. Nicholson seems to be able to look after an orchard without the aid of professors for they have never yet given a spraying demonstration in Dundas.—The lobster fishing men at Annandale are having splendid success according to the last reports, but cod fish are scarce, while herring have been more plentiful than usual.

A WRINKLE FOR CAKE-MAKERS.

If you are your own baker—and surely you are—you perhaps have noted the difference there is in flour.

There are two principal constituents in flour—starch and gluten. All wheats contain both, but in varying quantities. Ontario fall wheat is rich in starch, while Manitoba spring wheat contains a large percentage of gluten. By combining the two kinds of wheat scientifically a flour is made that gives delightful results, whether for cake, pastry or bread.

Millers are now blending these two kinds of wheat in such a way that the rich delicacy of the first is combined with the strength of the second—making an ideal flour.

Expert cooks have given Blended Flours exhaustive tests, and they are one in the opinion that no other flour can make such white, light, wholesome cake, pastry and bread.

Housekeepers will find Blended Flours without equal, both for making dainty foods and substantial baking, and they will find Blended Flours most economical, too.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagance.—American Medical Journal

ABSOLUTISM IN PORTUGAL

NEW YORK, June 14.—A Lisbon dispatch speaks of the introduction of an absolutist regime in Portugal following upon the dissolution of the Cortes without the date being set for new elections. A royal decree has been issued "granting subsidies and increasing the salaries of civil servants," and King Carlos is said "to visit the military barracks daily." All this evidently scents the fear of revolution. In fact, the republican propaganda in the kingdom has been for some time active enough to give justification for the gravest fears. We had brief notice some time ago of an unsuccessful revolt among the officers of the fleet, having for its object the overthrow of the monarchy.

EDITOR'S MAIL.

THE MURRAY HARBOR BRANCH

The people whom the Murray Harbor Branch serves are being most unfairly dealt with. Not only were many farmers persuaded to take for their land one half to one third of what they should have received when the Railway was being built, an injustice they will never forget until it is rectified, but we are being discriminated against in the matter of service. Last winter we had an express and a freight train alternating daily each week but we are again back to a slow freight each day. The Georgetown branch as well as Souris and the west have an express and freight daily. But one of the greatest injustices is that it takes us a whole day to reach any place in P.E.I. beyond Charlottetown by rail. Further than this passengers can leave Souris, Georgetown, Tignish, or any intermediate station and reach St. John or Halifax same night and Boston or Montreal the following morning, but it takes us a day longer, for we arrive in Charlottetown too late to connect with the morning train for Summerside or the Steamer to Pictou, and have to wait over a day. Why does not the Murray Harbor train connect at Charlottetown each morning as does the train from Souris and Georgetown? I understand this could be easily done this year as the C. P. R. leaves Halifax for St. John an hour later and thus the morning train for Summerside could leave Charlottetown an hour later than last year and give us the same privileges as enjoyed by other parts of the Province. If this is not done we will resent it the first opportunity.
