## SHELDON BEING SENT TO CANADA

Special to The Guardian. MONTREAL, Nov. 2.—The Star publishes a telegram from Bermuda saying that the officers having in custody Charles Sheldon, who fled Canada last month, have sailed for Montreal. This report has not been confirmed. MONTREAL, Nov. 1.—Charles D. Sheldon, the defaulting get-rich-quick operator, is still at large, with no immediate chance of apprehension. It is believed by a detective agency that he had been located in Bermuda, but the man seen in Bermuda was not Sheldon. The Crown, however, has information of late movements of the absconder and are following this up.

## THE REMAINS OF MISSING BOY FOUND

Lord Lanesborough much regrets leaving the Dominion.

## WILL RESIGN FROM CLUB IN DISGUST

NEW YORK, November 1.—J. Armstrong Drexel announced at a dinner given to a number of his fellow airmen last night, that he would resign from the American Aero Club in "disgust," on account of the ruling prohibiting Grahame-White's second try for the \$10,000 statue of Liberty race, which was won by John B. ## CAPTAIN PEARY BACK TO WORK

WASHINGTON, November 1.—Captain Robert E. Peary, the Arctic explorer, returns to active duty in the navy department of justice in cases before the court of claims, involving construction work for the naval bureau of yards and docks. This work was the explorer's choice among several places offered him by acting secretary of the navy Winthrop, from which to make a selection. Peary would have preferred to go to the Arctic, but he has been assigned to duty at the naval library to write his travels in the frozen north.

## NEW CANDIDATES HAVE ENTERED

Still they come! Three new girls entered the contest yesterday. What a merry race it will be. Every young lady residing in Prince Edward Island is eligible to contest for this delightful trip or prize. You might be the lucky one. Enter now, select a hustling campaign manager and get your friends working for you. The Guardian again calls the attention of the ladies of Prince Edward Island and New York City Tours, and urges careful consideration upon the part of every woman in the Province. There are hundreds of ladies who would very much like to go on this beautiful tour, but they hesitate for one reason or another. True, The Guardian asks for a certain amount of reasonable work, viz., the getting of votes. But that is how it is possible to engage in this great enterprise which is going to cost The Guardian considerable money. The conditions have been made easy, so that every lady with a little spare time each day can stand a good show of winning one of these trips or prizes. Bear in mind that the two candidates that poll the largest number of votes in the contest, each candidate being in a different district, will be awarded the seventeen day tour of Bermuda Islands and New York City. The candidates polling the highest votes in each of the three districts, after the Bermuda Islands, New York City Tours have been awarded, will receive the Beautiful Mahorah Upright Pianos. And the candidate polling the highest number of votes irrespective of district, after the Tours and Pianos

## CABINET OF FRANCE HAS RESIGNED

Special to The Guardian. PARIS, Nov. 2.—The French Cabinet resigned today. Although the fact that there was divergence of views among the ministers concerning legislative measures designed to prevent a crisis similar to that brought about by the recent railway strike was well known, the resignation created a sensation, as it was expected that Premier Briand would remain and remodel his ministry in harmony with his views on a parliamentary program to meet any future strike crisis. This afternoon President Fallieres asked Premier Briand to form a new ministry and the latter accepted the task.

## A SUICIDE PARTIALLY SUCCEEDS

NEW YORK, November 1.—A suicide pact entered into by a despondent young married couple on the upper west side of the city and carried into at least a partially successful execution, was revealed this afternoon when a relative of Mr. and Mrs. Torrea took into their rooms. Torrea was found dead in bed and his young wife, partially overcome by gas and a wound in the left wrist calmly awaiting for her life to ebb. When Mrs. Torrea was revived in the hospital to which she was taken a prisoner she said that the knife wound had been inflicted by her husband in the carrying out of a suicide agreement which they made this morning. She told the police that her husband had first cut a deep incision in her left arm and then slashed his own right arm. He then turned on the gas and lay down to die.

## BOSTON HERALD HAS A NEW START

## FRANCO MUST ANSWER FOR PAST MISDEEDS.

LISBON, Oct. 31.—Senator Franco, ex-premier of Portugal, who held office at the time King Carlos and Crown Prince Luis were assassinated in 1908, has been arrested on the charge of abuse of power during his incumbency. It is declared by the government that it did not inspire the arrest of Franco, but that it was the result of an investigation held by the judiciary. The ex-premier has been released on bail. The government has approved a decree granting the right to strike, and has named a commission of arbitration to take labor disputes under advisement. Pale green and bright red have been adopted as the colors of the national flag.

## THANKSGIVING MEETING OF WOMAN'S BAPTIST MISSIONARY UNION

In the Baptist Schoolroom last evening a most interesting meeting was held under the management of the W. B. M. U. The meeting was opened with scripture reading by the pastor, followed by a prayer by Deacon Sterns. A very interesting paper was presented by Irene Clark. The chief of modern missionary work was cleverly presented in a bright dialogue, by Misses Vaughan, Yeo, Howlett, and Mrs. D. K. Dobie. A solo by W. B. Duffy was given with good expression and excellent taste. Miss Sutherland's recitation "Unawares" was very effectively presented. A short address by Rev. Z. L. Fash emphasized the importance of woman's place in modern missions. The thank offering collection then presented was a generous one. The meeting was largely attended and of decided interest.

## DOES NOT DESIRE RESPONSIBILITY

MADRID, Nov. 1.—The Diar Universal says: Considering that a binding decision in the question of the frontier being Ecuador and Peru would be likely to precipitate a collision in the present state of agitation on the part of the two peoples, King Alfonso will decline to assume plenary powers in the settlement of the dispute and will propose that the parties invest him with the faculties only of a friendly arbitrator.

During his sixty years as a navigator, Captain Shepherd never had an accident. He was 86 years old.

take a friendly hint based on experience. Hustle around immediately and secure a good masculine campaign manager. Better still, get two or three, if you can. Right at this stage there is nothing more important than picking a pilot (and a captain and first mate if you can secure them), to safely guide your ship of effort through the channel of progress to the harbour of success. Who's going to be your's? Don't fail to see the beautiful District Prize on display at the following places: A. E. Tombs, Queen Street; Miller Bros; and Montague Furnishing Co., Montague. ## GOVERNMENT TO AID CAMPBELLTON.

OTTAWA, Nov. 2.—The authorities of Campbellton have asked the Government to undertake, for a number of years, the payment of interest on \$200,000—the municipal debt. The Dominion Government will extend aid, but it prefers to do so finally this year. Therefore, instead of assuming the interest the debt, the Government will ask Parliament to vote a lump sum for relief of Campbellton. Probably \$80,000 will be the figure.

## PROPOSAL TO CREATE A NEW PARTY

Special to The Guardian. TORONTO, Nov. 2.—The World, Conservative, prints the following Ottawa special: "It leaked out today that there is a proposal on foot to establish a new political party in Canada which will represent the Protestant people of the Dominion. The mainspring of the idea is stated to be the Province of Quebec, and that it is gaining strength because of the determined attitude towards Roman Catholicism assumed by the Protestant clergy of that Province since the recent Eucharistic Congress in Montreal taught them without a shadow of a doubt that the last stand of the Church of Rome would be in Canada and that it would be a fight to a finish."

## ENGLAND STARTLED BY A PLAGUE

LONDON, Oct. 30.—England was startled the past week by the discovery that a pneumonic plague, even deadlier than the bubonic plague, is established in Suffolk. A child in the village of Preston died Sept. 16. The mother and father and a neighbor who had helped nurse the child, all died within a few days. The illness was not then diagnosed, but was considered so malignant that eleven neighbors were isolated in a hospital. There have been no other cases since, but a number of rats, hares and rabbits have been found dead all over the countryside. The true nature of the disease has thus been established. Official notices have been posted throughout the district calling on the public to assist in the destruction of rats, which must not be touched with the naked hands, and also warning everyone not to eat hares or rabbits killed in the district. The introduction of the disease is attributed to plague infected rats from Odessa grain vessels. An army of professional rat catchers from all parts of the country has been engaged while the villagers are busy with guns and traps and poison. Thousands of rats are killed daily, while hundreds are being found dead of the plague. The pneumonic plague is the most infectious and most fatal of all types of disease. It corresponds with the black death, which from 1348 to 1369 desolated the world from China to Ireland, destroying one third of the whole population of England.

## G. T. P. MAN GOES TO C. & A.

MONTREAL, November 1.—A surprise was sprung upon Montreal railroad men today, when it became known that as a result of a general shake up on what are known as the "Hawley lines" in the United States, Frank W. ## ETHEL LE NEVE RECEIVES SIXTEEN OFFERS OF MARRIAGE

LONDON, October 31.—Since her account on the charge of being an accessory after the fact to the murder of Belle Elmore, wife of Dr. Hawley H. Crippen, Miss Ethel Le Neve has been in the country under the protection of Arthur Newton, Crippen's counsel. Mr. Newton has been swamped with offers for Miss LeNeve's services from music halls, beauty doctors and others. He has received for her sixteen offers of marriage. These offers, all of which are signed and unquestionably genuine, illustrate the odd effect of notoriety upon comparatively degenerate minds. Miss Le Neve also has been offered \$1,000 for the statement of her life with Dr. Crippen. This offer came from a London paper, but she is holding out for more money. She said yesterday that she never had been photographed, and that none of the alleged pictures of her that have been published were genuine. She certainly looks very little like any of the published pictures. She is slender, with a small nose, dark eyes, and has a shy, retiring, almost cringing manner.

## NORTHWEST CROPS MOVE BUT SLOWLY

Special to The Guardian. PORT ARTHUR, Nov. 2.—The elevators at the head of the Lakes will be filled to the brim with grain when navigation closes. Although over a month of shipping has gone, the percentage of grain going out has been very small. Vessels are having a difficult time procuring charters and many remain in harbor for three or four days before they can secure cargo enough to clear. The principal reason for this is the price asked by the western farmers for their grain.

## BLOODLESS SURGERY IS POSSIBLE

BERLIN, October 31.—Dr. F. Nagelschmidt, of Berlin, has just demonstrated before the Electro-Therapeutic section of the Royal Society of Medicine his discovery of a method of performing surgical operations without shedding blood by employing a distinct modification of ordinary high frequency electricity, which gives a greater current than the high frequency apparatus, but with a lower frequency, two wires lead from the generator to electrodes placed on each side of the part to be operated on, and on the application of the current the flow of blood in the region between the electrodes is stopped by the coagulation of albumen in the blood tissue. The area of coagulation can be widened or narrowed by using broader or narrower electrodes. Dr. Nagelschmidt believes the method will be particularly useful in dealing with large surface cancers, especially the type called "en cuirasse." He has successfully operated on three or four cancers, and has also treated tonsils without loss of blood. There is, however, difficulty and, except in very skilled hands, danger in the operation, because there is some risk of the blood coagulating in the large veins in the area between the electrodes, thereby forming clots. This difficulty is met by the application of vaseline ointment, containing 2 per cent of pyrogallic acid, which retards the otherwise too rapid healing, the result of which would not only mean the encouragement of clotting, but the creation of redundant proud flesh and ugly scarring. If this is properly guarded against, the method is declared to be an enormous advance on any existing as obviating shock from loss of blood.

## STOOD IN LINE FOR FIVE DAYS

ABERDEEN, S. D., November 1.—When the doors of the United States land office opened today, one hundred and fifty homesteaders, one half of whom were women, pushed forward to make an entry in Standing Rock and Cheyenne reservations lands. As they filed by, a clerk handed each applicant a number, and they will wait on their homestead selections in rotation.

## AERONAUT AND FOUR PASSENGERS MAKE LONG SUNDAY TRIP.

STAFFORD SPRINGS, Conn., Oct. 30.—The balloon Cleveland, piloted by Nusen H. Arnold, of North Adams, with four New York men as passengers, ended a pleasant four hours journey from North Adams here today. The passengers were Leroy M. Taylor, W. A. Stowe, W. J. Seidenberg, and Col. George A. Gregory. The balloon rose from North Adams at 8.35 a. m., and starting off in a southerly direction finally landed here at 12.40, after covering an airline of about 78 miles. The trip was uneventful except for two cold currents which the balloonists encountered and which cost them considerable ballast.

## PERUVIAN GOVT. STOPS REBELLION

LEMA, Peru, Nov. 1.—By the Leader today the government nipped in the bud a rebellious movement that appeared to have been planned quite thoroughly. At Cuzco, a city of 30,000, in the department of Cuzco, 35 miles from the capital, government agents last night uncovered a plot that provided for a simultaneous uprising at different places throughout the republic.

## CANADIANS AFTER MONEY IN LONDON

LONDON, Nov. 1.—The city of Saskatoon, through the Bank of Montreal, is tomorrow inviting the public to subscribe £285,660, 44 per cent. bonds at 101. Discussing these coming issues a leading Anglo-Canadian banker said today: "London looks with more or less dissatisfaction on some of the Canadian schemes which promoters are endeavoring to place. Monetary conditions here are adverse even for good projects and the markets are still congested with this class of security. Canada's motto just now for industrial issues should be 'go slow.'"

## CONTENTMENT.

Let not the thoughts of what is yet to come Mar the sweet blessings that are ours to-day; How can we doubt, when every living thing Proves that His hand is leading all the way. Ne'er yet a sorrow but has left the heart Stronger and nobler, having felt the pain; Joy comes again to every troubled breast, Just as the sunshine follows after rain. Drink in the sunshine, wear a happy smile; Brighten the way therein our steps have trod; Do the kind act and say the cheering word; Lift up your heart in thankful prayer to God. So shall the burdens of our life be low; Seem so much lighter and our hearts more strong; If by our words, or acts, our prayers, our deeds We can make life one perfect, grand, sweet song.
