CIVIL SERVICE COMMISSION OF CANADA
OTTAWA

Stock Markets At A Glance

CHICAGO, Dec. 10 — (AP) — Grain futures prices continued their upward trend most of the time in light trading today on a good early demand for oats as a substitute feed grain for corn and export buying but late trading was nervous and some of the gains were lost.

WINNIPEG, Dec. 10 — (CP) — Rye futures prices on the Winnipeg Grain Exchange today held to a comparatively narrow range in a moderately active session. Values scored small gains in early trading but lost them as the session proceeded. Modest buying by commission houses and locals found offerings light in the initial stages but some local selling appeared during the last hour and values receded. Chicago prices also influenced the local market.

NEW YORK, Dec. 10 — (AP) — The Stock Market made another 15-year average peak today with the aid of selected steels and industrials specialties although numerous leaders were thrown for losses by profit cashing.

The Associated Press 60-stock composite was up .1 of a point at 77.1, a top since April 13, 1931. The industrials advanced .2 to 102, best mark since April 16, 1930, while the utilities added .3 at 53.5, highest since Feb. 4, 1947. The market was relatively broad, 957 issues registering.

TORONTO, Dec. 10 — (CP) — Mines and Base Metals groups registered small gains in today's trading on the Toronto Exchange. Volume was around last week's average at 1,912,000 shares.

Giant Yellowknife drooped to $8 and recovered to 8.50 for a net loss of $1. Frobisher weakned 40 cents to $5 and other soft spots in the Yellowknife group were Bear, down 14 cents, Negus, down 7 and Springer, down 5. Minor losses were netted by Homer, Goldcrest, Indian Lake and Yellorex.

MONTREAL, Dec. 10 — (CP) — Upward trends, notably in industrials, shown on the Stock Markets last week displayed further climbing powers in transactions today. Industrials went to a new high since the index for the group were started in 1934 while papers were at a new eight-year high and banks at their best level since their average was set up in 1944.

Trading box score: Total sales, 239,800 shares; mines, 148,700; industrials, 91,100; stocks higher 94; lower 59; unchanged 61.

What Coal Strike Means To People In Australia

BY WILLIAM STEWART

SYDNEY, Australia Dec. 9— (CP Cable)—If the effects of the present Australian coal tieup which is spreading from New South Wales to the remainder of the Commonwealth were applied to Canada the average Canadian citizen would be startled out of a couple of years' growth.

To understand the completeness Canadians must think of their own personal life and that of their community disrupted to the following extent:

Strike rationing rules out hot baths and home laundry while hot water also is banned. Home cooking is permitted only between the hours of 6:30 and 8:00 A.M. and 5:30 to 7:00 P.M.

People are allowed to heat water for a hot beverage between noon and 2:00 P.M., but there must be no cooking then. It is no use to go to a cafe for a hot drink outside these hours unless there are some with equipment unaffected by the rationing.

These are just a few of the inconveniences. They are nothing compared to the plight of 200,000 workers who are out of jobs and 300 000 more who will be affected within a few days.

Rationing of electricity applies to 500 000 premises in New South Wales and gas supplies are restricted in 200,000 homes factories and shops.

The states of Victoria and South Australia have announced rationing of power, lighting and heating in order to stretch the coal stocks that might last one month.

Workers in industries depending on coal who have been laid off already are starting to apply for unemployment relief at rates of about $4.50 a week for a single man and about $9 00 for a man with a wife and one child. The national unemployment bill will go sky-high if the strike continues.

The endless chain of small industry shutdowns is demonstrated this way: a sugar refinery closed this week for lack of coal; jam making and fruit canning will cease for lack of sugar; the apricot crop, soon due for canning may have to be plowed under. This example can be applied broadly to the entire domestic structure.

Little corner cake and pastry shops have to close because they are not permitted to use their ovens. Movie theatres and concert halls must do likewise unless they have independent emergency lighting. Electric signs are banned and if you walk the streets of Sydney at night the impression of a dimout is heightened by the gloom of candle-lighted restaurants.

The last of the ice cream supply is being eaten and soft drinks will disappear with beer loss of which will be keenly felt by the Australian. Pasteurization of milk continues along with operation of refrigerators and vacuum cleaners in homes.

Not yet under the ban is newspaper publication which is considered essential and continues although staffs must work by the light of oil lamps or candles. Broadcasting and radio receiving also are exempt from restriction.

Hospitals, rest homes clinics, doctors and dentists are not affected.

Everyone is thankful the strike came in December, which is early summer in Australia rather than in June or July when it is winter here.

Mess Room Chatter

WITH THE R.C.A.F. OVERSEAS, Dec. 10—(CP)—Good progress is being made in the great humanitarian work of tracing "missing" Canadian airmen.

An R.C.A.F. member of the Missing Research and Enquiry Service, whose task is to secure positive identification of British airmen listed simply as "missing," said that by the end of next year the fate of most unlisted fliers and their places of burial will be positively known.

Canadians in the inquiry service do not discriminate as to a missing man's nationality. It is as much a part of an R.C.A.F. investigator's job to uncover information about a missing Englishman or New Zealander as it is to identify a Canadian airman.

A spokesman in Paris admitted the colossal task of tracing missing fliers, sometimes with only the thinnest shred of evidence to go on. He said, however, that French, Belgians and Dutch give painstaking care to the graves of Allied airmen. "Village school children make it a ritual to put flowers on the graves," he said.

One of the last two men to make an operational flight over Germany is on his way back to Canada. At the R. C. A. F. Repatriation Depot in Torquay Sqdn. Ldr. Jim Prendergast of Victoria, B. C. recalled the historic flight.

He and his "No. 2" photographed flak positions after the "cease fire" had been given to make sure the Germans were obeying instructions. In one afternoon Prendergast shot down the only two enemy fighters he saw during nearly two tours, and on another trip he followed a 12,000 pound bomb almost until it hit its target to photograph the results.

It takes about two weeks to get your laundry done in Britain, so veterans of service in the Old Country who now are with 126 Wing in Germany are grateful to Flt. Sgt. Gene Kent-Hammond of Fort William, Ont.

Gene, who prior to his air force service never saw the inside of a laundry in his life, now is majordomo of two mobile field laundries with a guaranteed 48-hour service of wash, iron and dry.

Thirty German girls from around Hamburg where the wing is located operate the laundry service, aided by nine R.C.A.F. airmen.

Perfect Blooms in '46!

Soon "Green Cross" will bring you a new line of modern insecticides and fungicides to protect flowers from pests and fungus diseases.

LOOK FOR THE Green Cross

IF YOU ARE AN EMPLOYEE IT IS TO YOUR ADVANTAGE TO FILE YOUR NEW INCOME TAX T.D.1. FORM *with your employer* BEFORE DEC. 31st, 1945

EVERY employee should fill out a new T.D.1 Income Tax Form before December 31st, 1945. By filling in this form promptly, you make sure that you get your rightful tax exemptions for Tax Deduction purposes.

Both your Employer and the Government are co-operating to give you any benefits that are yours—but it is important that you do your part, because, if you do not fill out the new T.D.1 Form, your Employer must make Income Tax Deductions as if you were a single person without dependents.

DR. JAMES J. McCANN,
Minister of National Revenue.

C. FRASER ELLIOTT,
Deputy Minister of National Revenue for Taxation.

1,000 Posts 7 ft. long x 6 ins. at small end

The tenderer shall submit a price per M.B.M. for all sawn lumber, prices quoted being for lumber at the mill site. The Department shall take care of delivery from the mill site.

The tenderer shall submit a price each for posts and they shall be piled near the roadside where a truck may be able to take delivery of same.

Lumber shall be either spruce or hemlock. Plank may also be hardwood (white birch and poplar excepted). The tenderer shall state for which kind of lumber he is tendering.

Random lengths shall mean any length exceeding 10 feet. Minimum width of plank shall be seven inches.

Posts shall be either cedar or juniper. Small end dimension given is minimum that will be accepted.

Lumber shall be all square edged and sawn to the exact dimensions specified, and shall be perfectly sound and free from wane and shakes.

Parties tendering may tender for the whole or any portion thereof. Parties must state for what portion they are tendering. Tenders to be marked "TENDER FOR LUMBER".

All material shall be carefully inspected and measured before delivery is taken by the Department or payment made. Delivery of lumber shall be made on or before June 1st, 1946.

The Department does not bind itself to accept the lowest or any tender.

(L. B. MACMILLAN),
Deputy Minister of Public Works and Highways.

CHARLOTTETOWN, Prince Edward Island,
December 10th, 1945.
