**Kitchen Work**

Women Who Do Their Own Work: Suppose you could save six minutes every day in washing dishes and pans—two minutes after every meal. In a month, this would amount to a saving of three months of this disagreeable but necessary work. This saving can be made by using **SMP** enameled kitchen utensils, as their smooth sanitary surface does not absorb dirt or grease. No scraping, scouring or washing is needed when you use Diamond or Pearl Ware. Only water and a dish towel is all you need. Ask for

**SMP Enameled WARE**  
"Face of Porcelain and a Heart of Steel"

Finishes: Pearl Ware, two coats of pearly grey outside and out. Diamond Ware, three coats, light blue outside, white lining. Crystal Ware, white outside, white inside and out, with Royal Blue inside.

**Many People Wonder**

Why it is that glasses are worn more commonly in the present generation than in the past. Some say that the reason is that our modern civilization requires the eye to do more work than was even the case before. Consequently, the eyes, if in the least defective, may give you a lot of trouble, though in reality they are no worse than those of your grandfather who did not wear glasses till he was an old man.

If you feel the least symptom of eyestrain, remember that it is nature warning you to see and consult us at once.

**Not Much Gold In Labrador Says Skipper**

ST. JOHN'S, Nfld., Aug. 20.—The yacht Silvia II, which port yesterday after a speedy but very boisterous run from the Labrador coast. She reports that prospecting activities at Stag Bay have not produced enough gold to crown a tooth.

The little ship is commanded by Captain A. Butler, who was accompanied north by Patrick Cochrane, a mining engineer. Both declare themselves as satisfied that no gold alluvial deposits are to be found in Big Brook. They say that, further up in the mountains in the rocks, formation, gold may be found, but such signs of the presence of the precious metal as were reported last fall were not found by them. An old experienced Klondyker, named Edwards, who returned as a passenger by the Silvia II, was much more expressive in giving his opinion. Said he:

"The rocks bear no indication of being gold-bearing and the man who says there's gold in paying quantities in Stag Bally is a bally liar."

The Butler party went up Big Brook about thirty miles. Other prospectors who had previously arrived on the scene had gone inland fifty miles, but from no source had Captain Butler been able to get reliable information that gold in any quantity had been located.

The Silvia II, arrived at Stag Bay in the early evening of July 21. When they got there the Labrador police contingent from Newfoundland had already erected their station and the Newfoundland Government steamer Watchful was anchored in the Bay. The aerial survey motorboat, Pixie B., and the Climax, Captain Peter Roberts, had also arrived with supplies for the Butler party. The Silvia II, was navigated up the river several miles. The brook is very shoal and Captain Butler's opinion is that the Silvia was the first vessel to attempt to navigate the river and that she will probably be the last.

Frank May's staff of prospectors, which left here by the first Labrador trip of the Sagona, early in the summer, were camped three miles up Big Brook, and, contrary to Captain Butler's opinion, Captain Jeffrey, himself an old miner and a practical mining engineer, is confident that gold can be obtained in commercially paying quantities. The May party were working away in normal fashion and are still sanguine of success. Asked if they had been successful Captain Butler said that traces of gold were found during the northern cruise at Temple Bay and Chateau, but the signs were such as one might find in his backyard and were not worth bothering about.

**Noted Woman Scientist Opens Clinic in Berlin**

BERLIN, Aug. 20.—Doctor Rhoda Erdmann, who was formerly connected with the laboratories of the Rockefeller Institute and Yale University, and was compelled by the war to give up her work there in the investigation of the creation of primitive life by artificial means, is in charge of an institute for cell research which has lately been opened in the Institute for Cancer Research in connection with the Berlin University Infirmary.

In 1919 Doctor Erdmann returned to Berlin and became a lecturer in the university. She also began investigations in the cultivation of tissues in continuation of the work done by Leo Loeb and others in the development of parts of the embryo removed from it under the microscope.

By degrees the work of Doctor Erdmann has progressed until it has now been officially inaugurated as a distinct institute. Doctor Erdmann has been helped by the American Emergency Society in financing and organizing her important work. She studied zoology under the late Professor Koch and is directing her investigations especially along lines followed by Professor Alexis Carrel.

**UNIQUE COIN SOLD FOR \$1,000**

LONDON, Aug. 20.—One of the most valuable of English coins was sold at auction recently for \$1,100.

The specimen was one of the 15 "Petition" crowns, or five shilling pieces, issued in the reign of Charles II. At that time a Dutchman applied engineer for new coinage much to the dismay of Thomas Simon, coin designer of the day. He therefore made an effort to regain his appointment by producing his "Petition" crown, around which he engraved an appeal to the King asking him to compare his work with that of the Dutchman.

**To "Break In" New Boots**

Here is a pointer. If your new boots hurt in spots, immediately before you put them on polish them with Packard's BLACK-O (Tan-O for Tan) applying liberally to the leather and rubbing well in. The leather is softened and will, when you put the shoe on expand where the pressure is and comfort is assured. The polish of BLACK-O is remarkably black and lasting, and its use preserves the leather.

**Smoke Master Workman**

It depends on your own fancy as to which form you prefer.

The Plug is for those smokers who like to slice their tobacco right off the plug as they use it.

The Cut Plug is for those who would enjoy the convenience of buying their smoking tobacco ready sliced for the pipe.

Whichever you choose, you are sure to get an extra choice pipe tobacco—mellow, rich and tasty.

**THE MEASURE OF A MAN**

The financial success of a man is measured by his ability to save money. Read the words of J. J. Hill, the Railroad Magnate:

"If you want to know whether you are destined to be a success or not, you can easily find out. The test is simple and is infallible. Are you able to save money? If not, drop out. You will lose, you may think not, but you will lose as sure as fate, for the seed of success is not in you."

We would be glad to discuss with you the advantages of "Investment Insurance."

**In Memoriam**

**MRS. GOLDING SMITH**

At her home, Kingston, P. E. I., in the afternoon of Aug. 2nd, 1923 Mrs. Golding Smith departed this life to enter upon the higher service in the house not made with hands mortal in the heavens. Mrs. Smith was born at Cascumpec, P. E. I., in 1872 and during the intervening years enjoyed life above many being endowed with a strong and healthy constitution. Her first illness was experienced about the middle of June. The best medical aid was secured and lavishly administered to her needs but all in vain. The vigorous, healthy body began to manifest dissolution; that slowly but surely the earthly habitation was being taken down. During the days of extreme weakness she possessed her soul in patience, enduring without a murmur or complaint and manifesting Christian fortitude and courage. She expressed to her husband the surprise which had dawned upon her when impressed with the fact that her remaining days upon earth were but few. Nevertheless she submitted to the will of her Heavenly Father believing that His plans were best. When the twilight of life was approaching on that beautiful August afternoon and the gleams of the city of light were bursting upon her, she began to sing some of her favorite hymns and in a brief time crossed over to join the choir invisible and to unite with the glorified ones in that song which shall never end.

She leaves to mourn their loss, her husband, one son and one daughter, Lorne and Hazel, both at home, also her father, J. J. Rayner and one brother, Robert Rayner living at Cascumpec, P. E. I., and four sisters, Mrs. William Smith of East Royalty, Mrs. Pope Newman, New Haven, Mrs. Daniel MacLean, Tyne Valley and Mrs. Sandford Phillips, O'Leary.

The funeral services conducted by Rev. H. Pierce of Cornwall on Aug. 4th were largely attended and favorite hymns were sung by an augmented choir.

The pall bearers were Frank Norwood, Bertram Younker, Daniel Fraser, George Crews, Edison Easter and William Crews.

All that was mortal of our departed friend was laid to rest in the beautiful plot in the people's cemetery.

(Patriot please copy.)

**TAKE NOTICE**

OUR MONUMENTS display a wide diversity of styles, so whether you prefer a stone that symbolizes dignified simplicity or one more ornate in shaping and elaborately carved, you can be satisfied here.

The best of enduring MARBLE AND GRANITE and the most careful expert workmanship is employed in every design.

Our prices are lower than any reliable firm in the Maritime Provinces. Beware of inferior grades.

**BATHERS GAMBLE: CARDS WATERPROOF**

BERLIN AUG. 20.—North and Baltic seaside resorts are so obsessed with the gambling fever this season that it is literally necessary to have overflow meetings in the sea.

Floating skat, roulette, baccarat—to say nothing of the garden variety games like seven-up—are quite in vogue within the three-mile limit off many of the prominent resorts. These floating gaming tables are quite as popular as the gambling casino ashore. Sometimes the guests play from boats; at other times their spiel is done while bathing.

Where cards are involved a special waterproof deck is employed. The bets run into millions of marks. Ashore, the private "spiel clubs" and casinos are doing a boom-town business.

**Eczema**

Do you have itching when you use Dr. Chase's Ointment? It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c stamp for postage. Get a box at dealers or Fitzmaurice, 217 & Co.,

**PLENTY OF SOFT COAL**

Roy S. Wolvin, president of the British Empire Steel Corporation, who says there is plenty of soft coal and coke in sight for Eastern Canada for the coming winter, and in the case of a shortage of hard coal, a lower railway rate would make the coke available for domestic use.

**PILGRIMS FLOCK TO LOURDES**

LONDON, Aug. 20.—About 2,000 pilgrims have left England this summer to visit the Shrine at Lourdes, many of them being carried on stretchers.
