"We Believe in Prince Edward Island"

How can a resident of this, the Garden of Canada, feel otherwise when consideration is given to the growing importance of this province. Prince Edward Island is gradually coming into its own. In recent years certain developments have taken place that have been more or less startling to those who have not realized the pace of local achievement.

Business men have located here and stayed here because they believe in the future of Prince Edward Island. New records have been established in our various lines of endeavor and these are a material guide in the consideration of Prince Edward Island's advancement.

It does not require much effort to see the progress which has been achieved in Prince Edward Island during the past years. This advancement is truly inspiring to those who have the welfare of the province at heart. What the next ten years will bring forth depends to a great extent upon the belief, the cooperation and hopefulness of the residents of the province. Home pride will help a great deal.

There is no reason why Prince Edward Island should not succeed—why it should not be a place of opportunity for those who believe in it and work for it. Every person can be a welfare worker so that the development of Prince Edward Island may be even more pronounced than in the past.

"WE BELIEVE IN PRINCE EDWARD ISLAND."
