COLONIAL STAFF KNOW NOT CANADA

And Sir Thomas Shaughnessy Reads them a Lesson--Lord Strathcona Equally Frank, Calls For Improved Atlantic Service to Make the Passage in Four Days.

LONDON, May 3--(Special)--At the Canadian Club banquet last night Sir Thomas Shaughnessy created considerable stir by the outspoken way in which in the presence of the Colonial Secretary he commented on the neglect of British ministers and permanent officials to visit and become better acquainted with the actual conditions of the Empire they were charged to govern.

Referring especially to the permanent head of the Canadian Department of the Colonial Office, who was present, Sir Thomas expressed surprise that men who had never seen Canada should hold such an office.

He should spend at least three months in Canada every year, he declared. Such conditions, he said, demanded immediate attention.

On the principle that half loaf is better than no bread, Sir Thomas welcomed Lord Elgin's announcement that the Canadian Pacific Express subsidy would be continued two years longer.

It is understood that this was accomplished only by Lord Strathcona's persistence. Following Mr. Shaughnessy, Lord Strathcona was equally frank.

Regarding the Canadian Atlantic service he said he would not be satisfied till the passage was made in four days.

IS RUSSIA PLAYING A GAME

St. Petersburg, May 2--Further intimations that Russia is playing a deep game in the Far East is given in a circular sent by the censorship to all newspapers and periodicals forbidding the publication of any news with regard to the demobilization of the army and movements of troops in Manchuria and the re-organization of the military establishment in Siberia and in the Far East.

It is generally supposed the circular was incited by the publication of the news of a halt in withdrawing the Russian army from Manchuria and the despatch of the Novitski expedition to Mongolia, which, though supposed to be general staff secrets, were published even in official papers, and are liable to seriously embarrass Minister Pokotiloff's negotiations at Peking.

TUG WRECKED AT OWEN SOUND

Sinks within a Hundred Yards of Shore--Three Men Drowned.

OWEN SOUND, Ont., May 3--(Special)--The tug Clipper, belonging to the Spanish Boom Company sprung a leak yesterday off Bustards Island, and sank within a hundred yards of the shore. Captain McIntosh, of French River, Ed. Fleisher, of Guelph and a man named Johnston, of Midland were drowned. The fourth hand on the tug got ashore on a door. Only one body has been recovered.

THE TEMPERANCE CAUSE IS WINNING

BOSTON, May 2--The Journal has often maintained says the Boston Journal that the cause of temperance--not total abstinence, perhaps--in the matter of drinking alcoholic liquors is continually advancing in this country.

In Philadelphia the other day a saloon keeper surrendered his license, and made public a dramatic document declaring that his self-respect and his regard for his family name compelled him to quit the business of selling liquor. This leaves it working everywhere, for the social taboo is more and more inflicted on the families of saloonists.

CHINA PAYS FOR MISSION TO TIBET

PEKIN, May 2--The Anglo-Tibetan treaty was officially published after its ratification. According to information which has reached the Associated Press the treaty in substance is as follows:

China pays the expense of the recent British expedition to Lhasa in instalments and Great Britain recognizes sovereignty over Tibet. China opens two towns to trade, Gyangze and Katoko. Railways, telegraphs and mines are to be built or operated by China and Great Britain, but Great Britain will not interfere where China or Chinese merchants provide the capital for enterprises of this character.

Applications for British investors for interests in such enterprises are to be made to the Chinese Governor of Lhasa. When he approves, ratification by the Chinese government will be necessary. On the full payment of the expenses of the military expedition Great Britain will withdraw her troops from Chumbi, but may withdraw sooner.

After the withdrawal of British troops China must protect British trade. Political relations will be conducted with the residents of Lhasa. A tariff on British imports will be arranged later by a separate convention.

HOUSE COMMONS MOURNS SPEAKER

Tributes to His Memory Paid by the Premier and Mr. Borden--Fruit Marks Act--The Railway Bill is Discussed and Amendments Proposed.

OTTAWA, May 3--(Special)--When Commons opened today the desk of the late Peter White was hidden with flowers. After prayers the Premier paid a high tribute to his memory, saying that a more respectable or honorable member nor a fairer, or better speaker never sat in the House.

R. L. Borden added a brief speech of eulogy. The Fruit Marks Act got its third reading and Emmons's Railway Bill was taken into committee.

Mr. Blair and Mr. Barker thought the Intercolonial Rates should be put under control of the Railway Commission. Mr. Emmons opposed the idea and said though rates had recently been increased, they were still lower than those of Western Roads.

He introduced an amendment to the bill, providing that anyone selling liquor to railroad men on duty is liable to fine or imprisonment not exceeding five years. The original clause placed the maximum at ten years.

Other minor changes were made and Emmons announced that the bill would be referred to a special committee. The inland revenue estimates were then taken up.

MAMMOTH FOUND IN THE YUKON

DAWSON May 1--What may possibly prove the largest specimen of mastodon ever discovered, and one which certainly makes a record for the Yukon territory, is now being placed in position in the Bonanza House. It was found on claim 3 above Huniker, and was purchased by Johnny Doyle of Doyle & McGill.

All day yesterday the first day the mastodon was on exhibition, the crowds flocked in to see the skeleton. Encyclopedias were hunted up, authorities on show that while the per capita consumption of stimulants has slightly increased, beer has gained largely and distilled liquors have lost. That always means less ruinous intemperance.

The perfect skeleton of the head of the prehistoric monster was discovered. Both tusks were found perfect but in a perfect state of preservation. The tusks measured eight feet six inches from the point where they were broken off the head, which was at the point where the tusk fastened to the head.

The gigantic teeth closed fast one on top of the other in an even and perfect way as they must have been fifty years ago and roaming the northless forests. One tooth which the seal at forty pounds, the heaviest tooth apparently from which can be gathered in the books, that has ever been discovered.

THE COAL STRIKE VERY PROBABLE

No Definite Results from the Deliberations of Miners--No Referendum.

SCRANTON, May 3--(Special)--Today's session of miners resulted in no definite action, but revealed that the men are practically unanimous in favor of a strike. Tonight it is believed that nothing short of a miracle can prevent the strike being declared tomorrow or Saturday.

Mitchell made a speech saying that the committee had gone even further than it should in endeavouring to effect a peaceable settlement. He announced to the press after the meeting that he had done away with the proposal to refer the entire question to a referendum vote of miners.

TROOPS STILL OUT BUT RIOTS CRUSHED

PARIS, May 2--The main force of the labor movement as it affects the city and the country appears to have spent itself on Tuesday, although detached movements continue to agitate various trades, requiring constant surveillance by the police and the continued presence in Paris of a considerable force of troops. However, the authorities, while prepared to meet any further widespread demonstration, no longer treat the movement as a serious menace to the community.

The public, which for a week has been deeply agitated and fearful, has resumed its usual tranquillity, the central sections of the city have recovered their normal aspect and business is proceeding as usual. All the stores were open today and traffic by cabs, streets railways, etc., was not interfered with.

The organizations represented were the Industrial Workers' Union, Socialist Labor Party, Italian Federation of Socialists, and Social Democrats. The organizations are affiliated with similar bodies in the United States and are in touch with Socialist headquarters at Brussels, Belgium. They stand for co-operation rather than competition.

The procession was led by an Italian brass band, playing the Marseillaise and the Internationale. There was no disturbance and very little incident except that while passing Laval University cries were raised of "Down with clerical skull caps."

Minard's Liniment Relieves Neuralgia. SIR IAN AND THE GEISHA GIRL. LONDON, May 2--Lieutenant General Sir Ian Hamilton in his book on the Russo-Japanese war, relates an amusing incident in connection with his stay at Tokio, where he was enchanted by the smiles of the geisha girl. He met one who was the Hon. Miss Sparrow, and asked the interpreter to say to her that he would like to carry her off in a beautiful golden cage. The compliment did not please the young person. She sulked and soon went away. Sir Ian took some pains to find out why, and he eventually discovered that his speech had been translated thus: "As you are a sparrow, I wish you would shut yourself up in a box."
