THE CENTRAL GUARDIAN

IT PAYS to buy in this province.

POTATO SHIPMENT.—Mr. Thomas McNally shipped three hundred bushels of potatoes to Charlottetown, by the S. S. Harland, Friday, from Hayden's Wharf.—S.

POSTPONED.—Four prohibition cases were called for hearing at the City Police Court yesterday and were postponed to June 1. The defendants were, John McKenna, G. A. B. McDonald, George McCormack and Catherine O'Leary.

FARMING BEGUN.—The farmers of Scotchfort and vicinity are busy getting the ground ready for seeding and some have already sown wheat. The grass is very slow coming and what is wanted is a good warm rain to wash it off and make the ground warmer. There are quite a number of people, complaining about the clover being killed. This was caused no doubt by the late frost coming when the old frost was out about three or four inches, then the old and new frosts meeting would cause the ground to raise and break the clover roots. The hay crop in general looks very backward for the time of year.—S.

FIRE BRIGADE BUSY.—The Fire Brigade have lately been kept "on the move," a good deal, and during Monday and yesterday they were called out no fewer than three times. At about noon on Monday an alarm was received at the station by telephone that there was fire at Upton Park, and several firemen immediately set out for the scene in a couple of motor cars. They were there in a very short time but fortunately their services were not required, the people of Upton Park having smothered the fire, such as it was. It was found that the roof had in some manner become alight, and the flame was instantly attacked with buckets of water. In the afternoon the burning roof of barn between Grafton and Ken Streets, near Rochford Squ, brought out the Brigade. This fire was put out before any damage could be done. Yesterday morning, shortly after 11 o'clock, the house on Rochford Squ, of Mr. Coombs, manager of the Bank of Montreal, next engaged the attention of the firemen. Again the outbreak occurred in the roof. With admirable expedition the men set to work, and after some use of the axes, located the flame and suppressed it. It is stated that the fire was the outcome of certain painter's operations on the roof, which the use of torches was necessary. The Brigade deserve every credit for the splendid efforts they always exert to maintain their standard of efficiency. The damage to Mr. Coombs' home is estimated between \$1,500 and \$2,000, the damage being principally interior.

SPRING CONCERT.—Plans for Miss Gorman's Spring Concert and Recital will open on Wednesday morning at Jamieson's and Rankin's Drug Stores. 2636.

FARM SOLD.—Mrs. Annie M. Kelly of Glynde River, has sold her valuable farm at St. Patrick's Road, Lot 22, to Mr. Joshua A. Gallant of West Newton, Mass. 2636.

SCHOONERS CHARTERED.—A Pickard & Co. have chartered the schooners McClure and "W. N. Zwicker" to load hard coal at New York for Charlottetown. The McClure loads at once and the Zwicker about the 10th of June. 2644.

FUNERAL TODAY.—The funeral of the late Mr. Reaney Jenkins, Cherry Valley, takes place this afternoon, the service at the house beginning at 1.30, funeral leaving the house at 2 o'clock to Birch Hill Cemetery.

EASTERN STEAMSHIP CORPORATION.—On and after May 27th, the service of the International line will be increased to three coast-wise trips a week between Boston, Portland, Eastport, Lubec and St. John. 26

GOOD LITTERS.—Mr. M. C. McKinnon, Secy. Treas. of the Glenadale S.P. Fox Co., paid a visit to Mr. F. J. Shea, Waterford, and on Sunday afternoon went to his ranch. Mr. Shea went and looked in the eight pens where he had eight pairs of foxes and found that every pair had produced a litter of young foxes all sound and smart. One litter appeared about three weeks ago, but the mother fox lacked milk enough to rear her family and Mr. Shea found her taking them out to bury them in the clay. He took the pups home and now they are prospering under the care of a family cat, and although they seem to puzzle the cat when they bark at her she is bringing them up strong and healthy.

SOME LOBSTERS.—Lobsters are unusually plentiful on the North Shore of the Province and, although the weather has not been invariably favorable, large catches have been made and the packers are kept very busy. A representative of The Guardian visited the factory of Messrs. Peter McNutt and Son at Malpeque this week and was given ocular demonstration of the immense business that is being done in just one of the many factories along the North Shore. Supplying this factory are 22 boats and the daily catch for last week averaged 4,000 pounds. Last Monday, when owing to the heavy gale only the inside traps were overhauled, the catch totalled 4,200 pounds. Had all the traps been visited it was estimated that the catch would have been close to 6,000 pounds. This factory is equipped with every modern convenience and is kept in scrupulously sanitary condition. A feature of this season's

DAILY SELECTIONS FOR GUARDIAN READERS

GOD BE WITH YOU

God be with you in the springtime, When the violets unfold, And the buttercup and cowslips Fill the fields with yellow gold; In the time of apple blossoms, When the happy bluebirds sing, Filling all the world with gladness— God be with you in the spring.

God be with you in the summer, When the sweet June roses blow; When the loblolinks are laughing And the brooks with music flow; When the fields are white with daisies, And the days are glad and long— God be with you in the summer, Filling all your world with song.

God be with you in the autumn, When the birds and flowers have fled And along the woodland pathways, Leaves are falling, gold and red; When the summer lies behind you In the evening of the year— God be with you in the autumn, Then to fill your heart with cheer.

operations is the prevention of waste. The meat in the legs of the lobster, hitherto regarded as not worth the trouble of extracting, is now utilized, being taken out by means of a patent roller device recently invented. This factory is managed by Mr. Fred. Bennett, formerly of Stanley Bridge, who knows all there is to know about lobsters and how to pack them. His staff of 26 operatives is at present kept busy handling the exceptionally large catches.

WEDDING BELLS.—St. Dunstan's Pro-Cathedral was the scene of a quiet but pretty wedding on Monday morning when Miss Florence May Carragher, daughter of Mr. and Mrs. Michael Carragher, Pownal street, Charlottetown, became the wife of Mr. Samuel P. Murphy, Charlottetown. Rev. Dr. G. J. McLellan, pastor, performed the ceremony. The bride was attended by her sister, Miss Katie Carragher, while the groom was supported by Mr. Anthony McAskill. The bride was attired in a beautiful blue tailored suit with hat to match and carried a bouquet of white roses. The bridesmaid also wore a tailored suit of blue, and carried a bouquet of pink and white roses. Automobiles conveyed the wedding party to and from the church and to the Ministry on which they left on a wedding trip through the provinces. The Guardian unites with their many friends in felicitations.

CADET INSPECTION.—Yesterday morning, Major Snow, Organizer and Inspector of Cadets for New Brunswick and P. E. Island, inspected the cadet corps of St. Dunstan's College. The Major was accompanied by Major Weeks and Capt. Reddin. The cadets paraded on the College grounds and were 73 in strength, being under the command of their instructor, Mr. R. McArthur. They were exercised in

W. N. Tanton Sunnyside

The Mason Pure Bred Silver Black Fox Co., Ltd.

Charlottetown . . . Prince Edward Island . . . Canada.

Authorized Capital \$170,000 Present Stock Issue \$ 85,000 Shares \$50 each

Provisional Directors: President—Alfred Pickard, Senior Member of A. Pickard & Co., Coal Merchants, Charlottetown, P. E. I. Charles H. Chandler, Proprietor of Fennell & Chandler, Wholesale & Retail Hardware, Charlottetown, P. E. I. W. S. Newsom, Exporter of Produce, Charlottetown. R. Percy Mutch, Farmer & Dairyman, Director P. E. I. Agricultural Mutual Fire Insurance Co., Charlottetown, P. E. I. Herbert Mason, Farmer & Stockman, Charlottetown. SECRETARY and TREASURER: E.H. Beer, formerly of Beer & Weeks, Dealer in Investments and Real Estate, Office Morris Block, Charlottetown, P. E. I. REFERENCE and BANKERS: The Royal Bank of Canada, Charlottetown. SOLICITORS: McKinnon & McNeill, Charlottetown, P. E. I.

Prince Edward Island has been raising Silver Black Foxes since 1877. In 1910 a large shipment of Silver Black Fox pelts was sent to Lamson & Co of London and the average price realized was about \$1,400 per skin. In 1909—1,827,000 Fox Skins were marketed, of which only 4300 were Silver Blacks. The best grades came from Prince Edward Island. It will take from 15 to 20 years to supply the market with as many pelts as was procured from the wilds ten years ago. The wealth of the world is increasing the demand for furs every year. Present prices of P. E. I. pedigreed live Silver Black Foxes range from \$15,000 to \$30,000 per pair. A pair of extra choice breeders with a big producing record, sold in 1913 for \$32,500, and another pair of breeders and their first litter of four pups, were sold in 1913 for \$51,000. The average life of the Silver Black fox is from 10 to 12 years and the size of the litter runs from 2 to 7 pups, the average being 3 1-2 to each ranch female. Investors all over the world are waking up to the possibilities of fur farming, and that P. E. Island with only 1,602 pure bred Silver Black Foxes cannot supply the demand, hence the high and increasing prices for breeding animals. The profits divided among investors in P. E. Island ranches in 1913 aggregate over \$3,000,000 according to the Government Report for the year ended 31st December, 1913. So great is the demand for Silver Black Fox fur that even if every available pelt on Prince Edward Island was placed on the London market today there would not be sufficient supply to meet a two hour demand. Wesley Frost, Esq., American Consul at Charlottetown, P. E. I. has estimated that \$900,000 of American capital has been invested in Prince Edward Island for enterprises to date.

The capital stock now issued is \$85,000 divided into 1700 shares at \$50.00 each. The authorized capital is \$170,000 so that the company can enlarge if necessary. All expenses incurred in organizing and promoting the company, selling stock, etc., will be borne directly and solely by the promoters, every cent you invest goes to pay for five pairs of foxes at \$17,000 per pair. Our five pairs of guaranteed, pure bred silver black foxes are from the best original ranch stock on Prince Edward Island, are from strains of high records for large litters and fur production, and are guaranteed free from any physical defect whatsoever. One pair is from the ranch of Thomas Moyses of Bedeque, and is from stock closely related to two pairs that were sold by him in 1912. These two pairs produced eleven pups the next year and 13 pups in 1914. We have arranged with Mr. Thomas Moyses of Bedeque, P. E. I., one of the most successful Fox Ranchers known and a man of unquestionable character, to ranch our foxes for one or more years. Mr. Moyses has had wonderful success raising foxes. The ranch in which he has full oversight sold in Sept. 1912 two pairs to a Company in Summerside, P. E. I., these two pairs were ranched with Mr. Moyses and in 1913 produced eleven pups which were sold in Sept. 1913 for \$17,000 per pair, giving the Company a record dividend. We are therefore fortunate in securing such a capable and trustworthy man. Ranching expenses will be 10 per cent. of the yearly increase for the first three years; after that period a vote of shareholders decides the disposition of this matter. Mail your order for stock with 10 p. c. of the amount in cash the balance will be required Aug. 15; or write to the Secretary-Treasurer for a Prospectus or any information desired, or call at the office in Morris Block. We are not promising absurd dividends. Our prospectus shows what others have done and we are confident of success.

This is a business man's proposition. The Directors are well known successful men in their line. We recommend it as the best offering on the market. Terms 10 p. c. with application. Balance August 15th, 1914. Application for stock can be made to any Director or to the Secretary Treasurer E. H. BEER
