FATAL ACCIDENT AT LINKLETTER

Otis W. Gambel Killed by a Fall from a Loft in His Barn

A fatal accident occurred about five o'clock last evening at Linkletter. Otis W. Gambel, one of the most highly esteemed and prosperous farmers in that vicinity, fell from a loft on which he was stowing hay, and was either instantly killed or died very shortly after.

When found, a half hour after he resumed work, he was lying in a pool of blood in the cow stable. It is supposed he either broke his neck or bled to death.

The loft from which he fell was only six feet high. The sad fatality has cast a deep gloom over the community.

Deceased was about 59 years and leaves to mourn a sorrowing wife, three daughters, Mrs. Alfred Linkletter, Lowell, Mass.; Misses Carrie and Lily at home and one son, Frank, also at home.

SPEECHES CAUSE FUSS IN EGYPT

CAIRO, Egypt, Aug. 7--The recent speeches in the House of Commons favoring Mohammedans, Zulus and Boers against British rule are having a serious effect among the natives here. They give the natives to understand that they would receive a strong backing from a large section of English people in case of a revolt.

It is emboldening them to disaffection, and Mustapha Kamel Pasha--the leader of the so-called Nationalist party, whose watchword is "Egypt for the Egyptians"--has gone to Europe for the purpose of inaugurating a pro-Mohammedan campaign. He owns a paper here, which bitterly attacks the British rule, and he will endeavor to obtain the ear of the London Press.

His arguments will be that the natives are not fanatics, that they have no religious animosities against Christians and that they are quite capable of governing Egypt without British help. If these statements appear they will be reprinted here in the native Press and spread broadcast among the Sheikhs as the views of Englishmen themselves.

ANOTHER ORDER ABOUT PASSES

MONCTON, N. B., Aug. 7--Within the next few days a new order in regard to passes to I. C. R. employees will be issued by the minister of railways. Hon. Mr. Emmerson was waited on by a delegation tonight in regard to this matter and promised it immediate consideration also intimating that he would issue a new order in regard to this matter during his eastern trip on which he leaves tomorrow morning. The order will probably be issued from Halifax. While the proposition of the delegation has not been definitely ascertained it is understood their request was for a monthly number of local passes to cover short suburban trips and three per year to more distant points. The delegation represented all branches of the railway service.

RICH HISTORIC FIND IN ENGLAND

LONDON, Aug. 7--A Canadian Associated Press learns that a large number of valuable historical papers relating to the early history of Upper Canada have been found in a farm house in the southwestern part of England. One parcel contains the original dawning and elevation of the block house at the old fort at York (now Toronto) and one of its peninsula, now Haulan's Point. The documents include correspondence with Lord Dorchester relating to the military and civil government of the province.

METHODIST BALK AT \$1,250,000

LONDON, Aug. 7--By the will of John C. Crowe, zealous temperance advocate the Wesleyan Methodist church in England become possessed of a white elephant, not the Siamese kind--the denomination could sell such a pachyderm to a circus and make money by it--but a more unworldly thing in the shape of a bequest of \$1,250,000 for temperance work. Mr. Crowe made his fortune of over \$2,300,000 as a caterer. He was a fine type of business man, and the cause of temperance would have gained by his philanthropy were it not that he imposed on the Wesleyans the apparently impossible task of raising dollars for dollars within five years another \$1,250,000 before his bequest should be available. The moral of this strange incident is plain. It is doubtless difficult in these days to make money, but it is much more difficult to dispose of money, when there is a large surplus.

St. PETERSBURG, Aug. 8--(Special)--Notwithstanding the improvement in the situation produced by the collapse of the strike, Novoe Vremya announces that it is still the intention of the Emperor to place Grand Duke Nicholas Nicholasavitch in immediate command of the whole army, concentrating direct authority over the troops composing each separate corps and division in his hands. The paper adds that announcement of his appointment may be expected in a few days, and also says that it will not make the Grand Duke a dictator.

Harry Thaw must take his chance with the other prisoners in the Tombs accused of murder in the first degree."

AFTER TREASURE OF COCOS ISLE

NEW YORK, Aug. 7--A cable to The Sun from London says:--The steamship Xema is sailed from Gravesend this morning for an unannounced destination. It is believed that she goes to seek buried treasure on Cocos Island. She is in command of Capt Grey who made several trips to Cocos Island in his yacht, the Rose Marine. Earl Fitzwilliam bought the Xema in 1904 for use in a Cocos Island expedition, but found her too small for his purpose and bought the Harlock of the Union Castle Line. The Xema is magnificently furnished. Several women accompany the expedition.

Boy Confessed He Did It--Ola Employee of Railway Dead in Moncton

MONCTON, August 8--(Special)--An attempt to wreck an I.C.R. train, the result of a boyish prank, but which might have had very disastrous result, was discovered at Culligan's siding recently, a short distance this side of Campbellton. As the train was pulling out the locomotive ran over a large iron bolt over an inch thick which had been placed on the rail. Fortunately the train was going at a slow rate of speed and no damage was done. A sixteen year old boy named Joseph Daigle was arrested. He stoutly protested his innocence but just as he was to be placed in cell at Campbellton jail he confessed.

ENLARGING THE PARL'T BUILDING

Two New Wings Will Provide More Needed Accommodation

OTTAWA, Aug. 8--(Special)--Plans are nearly completed for the enlargement of Parliament building. A wing will run northerly from the western end where the Press Gallery is located to meet and form a quadrangle with another wing run westerly from the Speaker's quarters. The plans include a commodious restaurant on the top floor of the new wing with a wide balcony overlooking the river, designed to make the summer sessions less irksome.

OTTAWA TALK ABOUT JUDGES

OTTAWA, Aug. 7--There is a lot of conjecture as to who will be appointed to succeed the late Judge Sedgewick in the high court of Ontario. The maritime provinces, and New Brunswick in particular, will doubtless claim the right of the appointment in the former case, but although at one time the system of Provincial representation was rigidly adhered to, of late late years it has not been so strictly followed. For example, Chief Justice Killam was translated from the Manitoba bench to fill one vacancy among the Ontario judges in the supreme court. The appointment was a recognition of Mr. Killam's eminent qualifications and of the growing importance of the west. At present the possibility of another judge from the country beyond the Great Lakes has not presented itself. In eastern Ontario, however, the suggestion that the elevation of F. H. Glyster, K.C. of Ottawa, would be an excellent idea, is heard. No one will dispute the fact of that gentleman's fitness for a supreme court judgeship. The only question is as to whether or not the choice should be made from the province by the sea. Ontario could scarcely feel aggrieved if a judge were taken from Eastern Canada, seeing that it has now two judges in the supreme court. Quebec has an equal number. Judge Sedgewick's death leaves the maritime provinces with one judge in the person of Sir Louis Davies.

THE REGATTA AT GEORGETOWN

Annual Competition for the Hodgson Cup Won by the Comet

GEORGETOWN, August 8--(Special)--Our fine harbor today was the scene of much interest among the yachting fraternity the occasion being the annual regatta for the Hodgson Cup. Comet, Capt. Graham; 2. Myrtle, E. Capt. Sam Hemphill; 3. Sneak, Capt. James Condon; 4. E. J. Hodgson, Capt. John Condon; 5. Mamie C., Capt. Russel R. McLean.

THINK KAISER IS A FUSSER

BERLIN, 7--As an American visitor put it this week the German nation ought to get out an injunction against the Kaiser. The latter's policy of bullying in--to quote the American observer again--is wearying his subjects. Numerous articles have appeared lately in hitherto extremely loyal journals containing oblique attacks on Kaiser. The simmering public dissatisfaction which has existed for some time past has been increased by two recent circumstances. The first of these was the disappointment caused by the neglect of the Kaiser to grant an amnesty on the occasion of the birth of his grandson. The second was the granting of the highest Prussian order, that of the Black Eagle, to the Minister of Education for his services in passing an Education Bill which is hated by the vast majority of the Kaiser's subjects.
