Insidious Eye strain We use this adjective advisedly. Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy. Normal eyes. It is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.
