Currencies

(Canadian Press)

MONTREAL, Sept. 27—Leading currencies moved downward on Montreal foreign exchanges today. The pound sterling eased 5-16 of a cent to 4.96 31-32 while the United States dollar was off 1-16 of one per cent at 1.01 1-16. The French franc yielded .01 of a cent at 6.66 cents.

NEW YORK, Sept. 27—Leading currencies fluctuated narrowly in the foreign exchange markets today.

A better tone was shown by sterling, the pound closing half a cent higher at $4.91. The Canadian dollar reduced its discount from 1⅜ to 1 1-16 per cent, but the French franc, closing at 6.59 cents, was off .00⅛ of a cent.

Irregular Trend On Mt'l. Market

(C. P. By Guardian's Special Wire)

MONTREAL, Sept. 27—Discarding their cautious mood, traders bought heavily during the final hour of today's session of the Montreal Stock Exchange and values shifted forward.

Disregarding an irregularly lower tone which seeped into Wall Street where only a few specialties gained, the market here firmed for the first time in several days. Slightly irregular at the opening the market improved as the session progressed.

Heavy loser of yesterday's weak session, Consolidated Mining and Smelting took over leadership of today's forward movement with a gain of 2 1-2 points to close at 170 1-2. International Nickel, which followed the higher-priced stock down yesterday, also improved and finished with a gain of 1-4 point to 30 1-2.

Another of the main bright spots was National Steel Car which advanced to 13 5-8, up 1 3-8 points while in the minus column was Montreal Power with a loss of 3-4 of a point at 30 3-4, erasing yesterday's gain.

Total sales were 8,136 shares; bonds $7,350.

THE VAIN THING

"Yes," said the boastful young man, "my family can trace its ancestors back to William the Conqueror."

"I suppose," remarked his friend, "you'll be telling us that your ancestors were in the Ark with Noah!"

"Certainly not," said the other. "My people had a boat of their own."

ETHIOPIA-CONSCIOUS

LONDON—Britain is becoming Ethiopia-conscious, publishers stating they have been inundated with orders for books and maps of the African kingdom.

MINING

(Canadian Press)

TORONTO, Sept. 27—Mining shares closed higher on the Toronto exchange today including the gold group despite a drop of nearly two points for McIntyre and 15 cents for Pioneer. Trading was spotty in all groups with no suggestion of a general price trend. The golds were marked by heavy selling of McKenzie Red Lake for a set back to 1 01 and a close at 1 03 and by active trading in Pickle Crow accompanied by a gain of 15 cents to 2.80.

Hollinger was quite active in the senior golds and it closed unchanged at 12 65. Bralorne firmed 15 cents and Wright Hargreaves 35. Although the base metals held a preponderence of gains, Noranda turned soft on the late transactions to register a net loss of ¼. Hudson Bay held a half point advance.

Helped by mild improvement of the price for silver, stocks of the white metal group firmed.

Action was off in the oils.

DullSessionOn New York Exchange

(By Frank MacMillen, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire)

NEW YORK, Sept. 27—Stock market traders were generally notably cautious in their dealings today, and with the exception of buying in a few specialties, left the majority of issues but narrowly changed from the previous close.

Most equities churned idly with small gains or losses, though Standard Gas & Electric issues were under pressure as the company applied for reorganization, with the common down nearly 2 points, and the various preferreds off around 2 to 5.

The Associated Press average of 60 stocks, at 49.4, was unchanged, with a small advance in the industrials offset by an equally undecisive loss in utilities, while rails held about level. The wariness with which traders were approaching the making of commitments was mirrored in the continued relatively small volume, 1,123,770 shares in the stock exchange.

Bonds likewise turned in a rather colorless performance which left most issues close to previous closing levels. U. S. Government obligations, running from 2-32 to 7-32 of a point lower, provided most of the contrast to the steady tone of the corporate division.

International Telephone stock received with only a shade of improvement the announcement that earnings in the first half of this year equalled 33 cents a common share compared with 30 cents in the like period of 1934.

Some active issues which got ahead around a point or a little more included Chrysler at 72 5-8, Allied Chemical at 170, International Harvester at 57, National Biscuit at 32, Union Pacific at 99 3-4 and American Tobacco "B" at 105.

A drop of a point in McIntyre-Porcupine was the principal change in the Canadian list. International Nickel and Imperial Oil were fractionally lower, but such issues as Dome Mines, Distillers-Seagrams, Impeiral Tobacco and Lake Shore showed some improvement.

Tasmania

IMPROVED FINANCES

The revenue returns issued by the State Treasury for the financial year ended June 30 last, indicate a more buoyant tone in Tasmania's financial position. The Treasurer announces that for the 12 months to June 30 last the revenue totalled 2,872,148 pounds, an increase of 174,000 pounds compared with the figures for 1933-34, and more than 131,000 pounds in excess of the advance estimates in the budget. Income tax provided the greatest increase in revenue, 126,160 pounds, while stamp duty returned 42,613 pounds more than the previous year, due to less unemployment and increased revenue from "Tattersall's," Tasmania's renowned lottery. The Treasurer estimated a deficit of 207,000 pounds, but finished the year with a deficiency of 119,000 pounds, compared with 142,884 pounds in the previous financial year. Such a large margin is more than counterbalanced by the fact that expenditure, which totalled 2,991,259 pounds, included many new items, involving an outlay of 344,126 pounds. The most important item of expenditure was 360,197 pounds on social services and medical institutions. That amount was 36,785 pounds in excess of the estimate. Treasury officials are well pleased with the result of the year's work.

PAPER PULP INDUSTRY

Following extensive investigations for more than a decade into all phases of the industry, indications are that the manufacture of pulp for paper-making purposes will be commenced in Tasmania during the coming year. It has been announced that the Derwent Valley Paper Co., Ltd., one of the three organisations interested in the venture, hopes to commence operations by constructing mills, etc., near Hobart, early next year, and that it is proposed to send the company's logging engineer to America this month to design and specify the logging equipment required. The establishment of the industry, it is believed, will mean the creation of a new community of more than 2000 persons, and, with subsidiary enterprises, which would follow automatically, will partly solve Tasmania's unemployment problem.

THE WINTER SEASON

Floods, heavy falls of snow and violent gales ushered in Tasmania's winter season, and although the effect on some public utilities, notably bridges, was disastrous, the damage was not so widespread as that occasioned by similar visitations in the past. Ski-ing enthusiasts have welcomed the heavy falls of snow on the highlands, and each week-end finds hundreds revelling in winter sport in the snow. Tasmanias West Coast region, which is famed for its prolific rainfall, as well as its rich mineral deposits, has enhanced its reputation in regard to the former attribute this winter. In that area rainfall is not referred to in terms of points or inches, but feet and even yards. So far this year the recording has reached seven and a half feet, or two and a half yards—a record, even for this water region.

REVISION OF STATUTES

Tasmania, in the words of the State Treasurer (Mr. E. Dwyer Gray,) should be a paradise, for since 1900 the Parliament has produced 2,238 Acts, or only about 200 fewer than the number which sufficed for the preceding 75 years. But the Statute Editorial Board now has the matter in hand, and, in order that it may complete its work, legislation during the coming sessions of Parliament will be restricted to urgent measures. When the work of revision and reprinting is completed, the statute law will be contained in about five volumes. The statutes will be grouped conveniently according to subject matter, and the text of the law will be accompanied by explanatory notes and references to judicial decisions and to other sections or Acts bearing on its interpretation and application. Wherever possible, idle repetitions, which are all too frequent, will be eliminated ruthlessly. The processes of revision, editing and annotation will provide Tasmania with what it has needed for a quarter of a century—a set of statutes in which the law can be found readily and certainly.

Famous N. B. Regiment Is Commemorated

FREDERICTON, N. B., Sept. 27—Erected by the Historic Sites and Monuments Board of Canada, a memorial cairn commemorating the 104th New Brunswick Regiment, famous for its winter snowshoe march from Fredericton to Quebec in 1813, (in which the grandfather of Mrs. A. A. Bartlett, Charlottetown, took part), was unveiled here today under the auspices of the York-Sunbury Historical Society, Ltd.

Dr. J. Clarence Webster, Shediac, a member of the board, presided at the ceremony, and those who took part were Rev. Dr. F. A. Wightman, Fredericton, who gave the invocation and benediction; C. A. Taylor, historian of the Historical Society, who detailed the story of the 104th; Lieutenant-Governor Murray MacLaren; Hon. R. B. Hanson, minister of trade and commerce; Premier A. A. Dysart; Mayor W. G. Clark, who officially accepted the memorial on behalf of the city from the Dominion; and Brigadier L. P. Page, D.S.O., new officer commanding Military District No. 7.

The unveiling was carried out by Mrs. Dysart, assisted by Miss Kate Stewart, district girl guide commissioner, G. Alvah Good, district boy scout commissioner and a girl guide and a boy scout.

Mrs. Dysart was presented with a bouquet of roses on behalf of the Historical Society by little Miss Sibyl Brannen, daughter of Mr. and Mrs. Sterling Brannen. The flag used in the unveiling was the royal standard used at the old Government House before Confederation, Mayor Clark said.

Parade to Site

A parade to the scene of the unveiling at the juncture of Smythe, Brunswick and King Streets, by which point "the hardy soldiers of the 104th undoubtedly passed," was led by the Knights of Pythias Band and was composed of members of the Fredericton branch of the Canadian Legion, B. E. S. L., with Sergeant-Major Herbert Endall as marshal. An officers' party also was in attendance, and three legionnaires did sentinel duty. The Last Post was sounded by Seymour Tyler and John Forrester. Following the ceremony, which was broadcast, several wreaths were placed at the foot of the monument. Provincial Normal School students also attended. The band played several selections during the proceedings. Afterwards the Countess of Ashburnham entertained at tea at her home.

APPROPRIATE

The manager of the local gas company was making a stirring address.

"Think of the good the gas company has done," he cried. "If I were permitted a pun I should say, 'Honour the Light Bridge.'"

And a customer immediately shouted:—"Oh, what a charge they made!"

"SARGE" STILL ACTIVE

SAN FRANCISCO — Charles (Gabby) Street, the old sergeant who guided the St. Louis Cardinals to a World Series championship, has signed for his third season as pilot of the San Francisco Missions. When the Cardinals picked him out of retirement he was a ticket-seller at a theatre in Joplin, Mo.

Presented to Count ess of Bessborough

As a token of their appreciation and respect, the cup shown in the above photograph was presented to the Countess of Bessborough on behalf of the women of Canada.
