

To-day's Probabilities.

TORONTO, June 7.—(Special.)—South-westerly winds showery.

When it Hurts To Cough

The cough that hurts, the cough that gets tight in the chest is daily getting deeper and deeper into the bronchial tubes and is making directly for the lungs, to become pneumonia, inflammation of the lungs or consumption. Such coughs are sometimes referred to as "graveyard coughs," because they usually bring their victim to that last resting place.

Dr. Chase's Syrup of Linseed and Turpentine has long been known as mother's favorite remedy for croup, bronchitis, coughs and colds. It gains in popularity every day and now has by far the largest sale of any similar preparation.

It loosens the tightness in the chest, allays the inflammation, cures the cold and prevents pneumonia, consumption and other lung troubles. 25 cents, all dealers, or Edmanson, Bates & Co., Toronto.

Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist: for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day and to retire hotly overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people men and women, well and strong has accomplished a great work bestowing the richest blessings and that medicine is Hood's Sarsaparilla. The weak run-down, or debilitated, from any cause should not fail to take it. It builds up the whole system, changes existence into life and makes life more abounding. We are glad to say these words in its favor to the readers of our columns.

VALUE OF APPLE CROP.

While the apple blossoms are furnishing a delight to the eye hereabouts, it may be seasonable to refer to a statement recently made in the Independent, to the effect that the apple crop of the country exceeds in value the entire wheat production. The fact is emphasized by the added statement that the apple crop of 1900 exceeded 215,000,000 barrels which at \$2 per barrel aggregated \$430,000,000 in value while the value of the wheat crop averages but about \$300,000,000.—Cape Ann Breeze.

How Catarrh can be Cured.

Now, see heré a minute, my friend, you ought to know that you can't cure Catarrh of the Nose and Throat by swallowing Tablets, Blood Purifiers, and things of this sort. The stuff you swallow goes into your stomach, and the trouble is not there at all. To cure any disease you must bring the right remedy under the right conditions, right in contact with the disease; in other words you must reach it. That is just why Japanese Catarrh Cure is so successful in treating and curing Catarrh. You apply it to the nostrils, and by the very act of breathing it spreads itself over the entire membrane, where all the trouble is. It immediately kills the Catarrhal Germ, heals and soothes the irritated membrane, and completely removes every trace of Catarrh. The dropping in your throat and pains in the head all stop. The throat no longer had that fullness in the morning, the desire to hawk and spit ceases.

Mr. J. Sloan, 78 McGill street, Toronto, has had considerable experience during seven years with the hundred and one catarrh remedies on the market. Here is what he says:—"For seven years I have been troubled with catarrh, which finally affected my throat. I had doctored with some Toronto doctors, used tablets, powders, and everything I saw advertised, some of which relieved me at the time, but was worse after I stopped using them. About a year ago I procured a sample of Japanese Catarrh Cure, and even this small sample did me more good than anything I had yet tried. I used in all about two and one half boxes during two months, which completely cured me. It certainly does all claimed for it, which I cannot say of scores of other remedies tried."

Japanese Catarrh Cure is without a rival. It is the only permanent cure for catarrh. Thousands of people tell us so. Sold by all druggists, 50 cents. Trial size, 10 cents, by mail, postage paid, from the Griffiths and McPherson Company, Limited, Toronto, Canada.

Not To Be "Beaten"

A farmer went into a grocery store and exhibited to the eyes of an admiring crowd an enormous egg about six inches long, which he avowed to have been laid by one of his own hens. He had it packed in cotton and would not allow anyone to handle it, for fear of breaking the phenomenon.

The grocer examined it with the rest, and, intending to chaff the countryman said: "Pshaw! I've got something in the egg line that will beat that."

"I'll bet you a dollar you haven't," said the countryman, getting excited. "Right!" replied the grinning grocer; and going behind the counter, he brought out a wire egg-beater.

"There's something in the egg line that will beat it, I think," said he, reaching out for the money.

"Hold on, there," said the farmer; "let's see you beat it!" And he handed the egg to the grocer.

The latter held out his hand for it, but dropped it in surprise on the counter, where it broke into soup plates and a platter. It was of solid iron painted white.

"Some folks think they're mighty clever," muttered the farmer, as he pocketed the money and walked out; "but 'tain't no use backing against the solid fact."

"Taint no use backing against the fact that neither the quality nor prices of our Groceries are to be beaten. This accounts for our increasing trade."
