Celebrations Slow Victory Loan Reports

OTTAWA, May 7—(CP)—Victory celebrations across Canada slowed the flow of canvassers' reports to National War Finance Committee headquarters tonight and officials indicated that reports on today's sales would not be available until some time tomorrow, which has been declared an oficial holiday.

The eighth victory loan drive for a minimum objective of $1,350,000,000 now is in its third and last week.

Last reported total cumulative sales were $911,017,350, against $901,895,000 for the first 12 days of the seventh loan.

Graham F. Towers, Governor of the Bank of Canada and national chairman of the eighth victory loan today sent the following V-E day telegram to provincial committee chairmen:—

"All Canadians will be rejoicing today in the splendid news of Germany's surrender. Their feelings of elation and thankfulness will be mixed with pride in the magnificent part played by Canada's fighting men on sea and land and in the air. The task of our forces in Europe has been victoriously concluded. Our task at home remains to be fulfilled.

"The victory loan of November, 1918, went on from Armistice Day to the greatest totals of the First World War. I am confident that the eighth victory loan of the Second World War will establish an outstanding new record of achievement.

"Let us remind ourselves that the need for funds continues to be great and urgent as tremendous amounts are still required to bring home and re-establish the men and women of our armed forces and to fulfill the responsibilities of our unfinished business in helping to win the Japanese war."

Baptist Men Sponsor Father & Son Banquet

About one hundred fathers and sons of the Charlottetown Baptist Church sat down Monday evening to a sumptuous banquet, held under the auspices of the Men's Association, and served by the Princess Elizabeth Group of the Ladies' Auxiliary of the church.

The President, Mr. J. P. Campbell, presided and acted as toast master.

Special guests at the banquet were Rev. A. S. Gibson, president of the Maritime United Baptist Convention and Rev. R. E. Whitney, superintendent of the Maritime Baptist Home Mission Board.

Following a toast to the King, the following toasts were very ably proposed and responded to:—To "The Church", proposed by Donald MacBeath, and responded to by Rev. R. E. Whitney; to "Our Sons", proposed by R. J. Rupert and responded to by Windsor Brehaut; to "The M.R.E.C. proposed by Gerald McAuley, responded to by Rev. A. S. Gibson; to "The Ladies" proposed by Mr. Buddy Sterns, responded to by Mrs. Everett Saunders.

During the evening the gathering was entertained with readings by Mr. J. R. Compton in his own inimitable style. A surprise number which also delighted the fathers and sons was a male quartette composed of FO. Douglas Patterson, R. J. Rupert, Ross Baker and J. L. McAuley.

The pastor of the church, Rev. I. Judson Levy spoke briefly, expressing his thanks to the Association in sponsoring the banquet. He also referred to the grand news of the cessation of hostilities in Europe, and urged all to attend the special church service on Tuesday and express their gratitude to God.

On the chairman's suggestion in view of the news of the day, the gathering closed with the singing of "Praise God From Whom all Blessings Flow."

CONGLETON, Cheshire, England — (CP) — Sgt. G.H. Eardley of Congleton has just added the Military Medal to the Victoria Cross he won at Overloon early in October. The M.M. was for hoodwinking a German machine-gun post last August, but the award has just been gazetted.

THAT ROSY FUTURE

Radio cookery will take the sting from the irksome task of dishwashing. Attractively designed dual purpose glass or metal containers will be introduced along with the new methods in preparing meals. After the food is radio-cooked these will be transferred directly to the table. Radio clock devices for preselecting the hours of cooking are on the culinary horizon too. If the housewife desires she can pop several dishes into the radio cooker, set the timers to turn on at certain hours and return from an afternoon's shopping tour around six to find dinner practically ready. The radio sewing machine is humming to-day, but instead of needles and thread, this new invention uses radio frequency currents. Replacing the old idea of stitching through woven cloth, this machine works on modern thermoplastics, Coronet relates.
