THE CAPITAL OF THE WEST

The Bachelors will be At Home in Ludlow Hall to-morrow evening.

R. S. Squarebriggs and W. E. Jardine went to Alberton Saturday evening to attend the funeral of the late Mrs. Champion which took place yesterday.

At the regular meeting of Court Cabot Friday evening the members were entertained with an interesting talk on Bacteria by Bro. Dr. Alexander McNeill.

The death of Mrs. Champion, wife of Benjamin Champion, Alberton occurred about two o'clock Friday morning. Hiram Champion, formerly clerk in R. T. Holman's store, Summerside is a son of deceased. Many friends here will sincerely sympathize with the bereaved relatives.

The social in North Bedeque Hall Friday evening was a capital success. A large crowd from Summerside including the Summerside Cornet Band, were in attendance. A program consisting of vocal music, readings, music by the Band, etc., was heartily enjoyed. Including the amounts realized by the sale of baskets the net receipts amounted to about \$50, which goes towards the hall fund.

SEEN HERE AND THERE.

Little Dress Hints Useful to the Woman of Limited Means.

The economical girl can get along very well nowadays with one reception frock and one smart tailor made. Picture hats of white, hairy felt are very becoming and not too expensive, for if the shape is becoming they can be trimmed at home.

Sleeves are the leading feature of fashion. The old style bell sleeves are exaggerated in width and eked out by ruffles of chiffon and lace. The undersleeves are confined at the wrist with bands of silk, lace or velvet.

Stamped and figured velvets are among the smartest dress materials for street costumes and even for evening wear.

Gray in every conceivable tint is very popular, and the new gun-metal shade of broadcloth vies for favor with spotted silks and broadcades and with dyed lace.

Fashion is very liberal as regards shape, but everything of the wrap or

WHITE FELT HAT.

mantle type must be wide and full. Evening coats of light brocade show touches of bright velvet and paste buttons, with hanging frills of chiffon and a little fur or feather trimming at the neck. Short, old fashioned ties in ermine or sable are admirable to finish the neck of an opera coat.

Although the new woollens with flashes and flakes of color are largely used for winter tolets, yet the smartest ones are of self colored fabrics, with a smooth surface, intermixed with *little spots of brighter tone and carefully applied with embroidered scrolls or motifs.*

In the illustration is shown a picture hat of white rough felt trimmed with white roses and a gray and white leather. **JUDIG CHOLLA.**

GREAT BRITAIN'S NAVAL PROGRAM FOR COMING YEAR A VERY LARGE ONE.

Nearly \$60,000,000 in the Estimates—Two Battleships, Four Armored Cruisers and Twenty-four Other Types of War Vessels to be Commenced This Year—Lord Selbourne's Statement.

LONDON, Feb. 24.—More than half the increase in the naval estimates is due to the determination to pay the entire balance due on the recently purchased Chilean battleships on April 1, and to provide them with ammunition for the next year.

The estimates provide for a total of \$58,270,880 for new construction, of which \$3,270,415 will be devoted to the commencement of new ships. The admiralty will devote \$9,950,000 to the purchase of armor during the coming year. The construction will be begun during

the present year of two battleships, four armored cruisers, ten submarine vessels and fourteen torpedo boat destroyers.

In submitting the estimates, the Earl of Selborne, first lord of the admiralty, said the admiralty was aware that the estimates were large, but parliament must remember how great is the responsibility cast upon the board of admiralty in providing the country with a navy strong enough to sustain a struggle with the navies of any two powers and to ensure reasonable security for the country's vast sea-borne trade and the food supply of the people.

There is a SOMETHING about VIM TEA that is to be found in no other tea," said a Saint John lady to a grocer the other day. She did not know exactly what or how to describe the difference, only there was a "something" VIM TEA had that other teas lacked. That something was a little more QUALITY.
