How to Instantly Have A Beautiful White Skin

A Free Prescription Does This for You. You Can Prepare It at Your Home.

NEW YORK—It is my own discovery and it takes just one application to get such marvelous results, says Mae Edna Wilder, when her friends ask her about her wonderful white skin and the improved appearance of her hands and arms. You can do the same thing if you follow my advice, she says. I feel it my duty to tell every girl or woman what this remarkable prescription did for me. Just think of it. All this change in a single application. I never tire of telling others just what brought about such remarkable results. Here is the identical formula that whitened my skin and removed every defect from my face neck, hands and arms. Until you try it you can form no idea of the marvelous change it will make. The prescription, which you can prepare at your own home is as follows: Go to any grocery and get 10 cents worth of ordinary oatmeal; and from any department or drug store a bottle of Derwillo. Prepare and use as directed in every package of Derwillo. Before applying Derwillo cleanse the skin thoroughly with a good cleansing cream. (Liska cold cream I have found to be the best.) The first application will astonish you. It makes the skin appear white, transparent, smooth and velvety. I especially recommend it for freckles, tan, sun spots, coarse pores, dark, sallow, rough skin, ruddiness, wrinkles, and in fact, every blemish the face, neck, hands and arms are heir to. If your neck is dark one application of this combination will make it look as white as a lily. It is absolutely harmless and will not produce or stimulate a growth of hair. Since short sleeves are in vogue it is necessary to have beautiful hands and arms and no matter how rough and ungainly they may be or what abuses they have had through hard work and exposure to the sun and wind, the prescription will work a wonderful transformation. Thousands who are using it have had the same results as I have had.

NOTE—To get the best effect be sure to follow the complete directions contained in every package of Derwillo and it is so simple that anyone can use it, and so inexpensive that any girl or woman can afford it. Department stores and druggists guarantee that there will be a noticeable improvement after the first application or they will refund the money. It is sold in this city at all toilet counters under a money refund guarantee. including J. G. Jamieson, G. E. Hughes.

Police News

At the Police Court yesterday one drunk was fined thirty dollars or ninety days. Three boys appeared charged with stealing 250 square feet of copper from Dredge No 10 at Peake's dock. It was shown that in addition to this copper half a dozen blankets and a large quantity of dishes had been removed from the Dredge. The dishes were found in a pillow case beneath the vessel. The pillow case had not proved sufficiently strong to hold them—the bottom having burst open and the dishes were evidently left where found until a more convenient time for their removal. These dishes were taken from the galley of the Dredge, which had been broken into. After hearing evidence in the case his Honour remanded the prisoners for trial at the next session of the Supreme Court.

Yesterday afternoon a lad fourteen years of age was arrested on the Railway premises by the Railway policeman and taken to the Police Station. The charge against him is that of stealing coal from the railway yard. This case will come up for hearing this morning.

A Jewish junk dealer was also arrested yesterday afternoon charged with receiving stolen goods. This man, it appears had purchased some of the copper from the boys who had removed it from Dredge No 10 as above stated.

Three prisoners in Queen's County Jail, Gallant, Coughlan and Byers serving terms for violation of the prohibition act were liberated yesterday by pardon of the Lieutenant Governor, owing to their families being left in straightened circumstances by having no one to provide for them.

You'll find **Grape-Nuts** a delicious and unusual blend of wheat and malted barley, which supplies needed nourishment for sturdy muscles and active brains

Mr. Arthur Vinnicombe, late with the Dunlap Tire Co. at St. John has accepted a position as salesman with W. B. Prowse and Sons, Queen Street.

Anti- Tuberculosis Society

Continued from Page One

struction cost will approximate $100,000. The New Brunswick Department of Health is very progressive under the enthusiastic Minister of Health, Hon. Dr. Roberts, and as an evidence of activity in the city of St. John the municipal council has a general public hospital under construction, the tender of which is $180,000. The Joan County Hospital which is supported by municipal taxes cost $110,000 last year. The Provincial Government pays $15 per week per patient towards the maintainance of the Riverglade Sanatorium. Food inspection by the Board of Health for the city and county costs $23,000 per annum. The Free Dispensary is granted rent, light and heating free by the city, $900 grant, and the two nurses are each paid $840 a year salary.

The value of human life and loss to the state through preventable disease long ago engaged the attention of eminent statesmen. The British Prime Minister, Disraeli declared that "the care of the public health is the first duty of statesmen," and President Roosevelt pronounced as the most valuable asset to any state the healthy people who comprise its citizenship.

The large percentage of persons who proved to be physically unfit for the army during the recent war was a revelation which awakened the world at large to a realization of the absolute necessity for conserving the public health. In Great Britain one million men were rejected because of defective fitness and in the United States thirty per cent. of those called by the draft were found unfit for service. In view of these conditions which call for continued effort, the Red Cross inaugurated a peace time programme in the carrying out of which Child Welfare is given serious consideration for it is realized that the child is the open door to the home and to interest children in health is to insure the future against disease. In this connection we sincerely and heartily welcome to this city a lady representing the Red Cross who is at present visiting the public schools.

For several years the ambitions of the officers of this society pointed to the providing of a sanatarium for the treatment of tuberculosis cases and when their dream was realized through the munificence of Sir Charles Dakon the generosity of the donor was officially accepted by the government with the acknowledged responsibility of its maintenance. The Military Hospitals commission operating under the Federal Government took over the property during the war but returned in such unwieldy condition that the cost of maintaining the enlarged institution would be very much greater than was originally intended. Under such circumstances it surely devolves upon the Federal Government to put the sanatorium at New Wiltshire in the workable shape in which it was when taken over for war purposes. It is now learned that the Provincial Government is taking measures to dispose of the sanatorium property having failed to induce the Federal Government to assume any responsibility in the matter, which portends a real calamity in depriving this province of the means for relieving the afflicted and segregating cases that are a menace to the public health.

At the last annual meeting a delegation was appointed comprised of citizens from the audience together with the officers of this association to wait upon the city council and to present a request for the appointment of an inspector to pass upon meat and milk, offered for sale in this city. The Provincial Health Officer and the City Health Officer gave energetic support to the movement and the early result was the employment of a qualified veterinary inspector under the city board of health who has had occasion during the year to condemn as unfit for human food meat of different kinds that otherwise would have been consumed by our citizens and probably would have impaired the health of the unsuspecting purchaser. Milk sold by vendors has also been found to be in some cases below the standard and the necessary action was taken to improve conditions in this regard.

It is evident from the results obtained so far from the work of the inspector that a fruitful field exists here for labor in the vitally important matter of conserving the health of the citizens by the removal of germ laden food from the sources of supply.

To Be Continued

Yesterday in The Legislature

APRIL 7th.

House met at 3.40.

Before the regular proceedings began the speaker read a letter from the President and Secretary of the Canadian Red Cross Society inviting the members and general public to attend a meeting in Prince of Wales College Hall on Monday afternoon next when Mr. S. B. McCready of Toronto will give an address on Child Welfare.

HON. A. E. ARSENAULT directed the attention of the leader of the government to a request made some time ago for the tabling of the report of the delegations to Ottawa in connection with the Dalton Sanatorium.

HON. J. H. BELL said the reports had been received. The reports were tabled.

Both reports detailed at some length the arguments presented to the different authorities, including the Deputy Minister of Health and the Minister of Soldiers' Civil Re-Establishment, by all of whom they were kindly received and given all information available on the matter. The delegates of the Commission state that "through the good offices of Mr. Sinclair and Mr. Nicholson it was arranged that a sub-committee of the Cabinet consisting of Sir James Lougheed, Hon. F. B. McCurdy and Hon. Mr. Wigmore would meet your delegates and hear their arguments". The delegates jointly met this sub committee and presented their case in detail. The report of the Commission's delegation, Messrs W. F. Tidmarsh and J. E. Wyatt, concludes as follows: "In conclusion your delegates beg leave to report that in their opinion the sub-committee of the cabinet with whom they dealt realize the situation in which the Province is placed, and were not unsympathetic. It appears that a claim that the Sanatorium be restored to the condition it was in when taken over by the Military Hospital's Commission would receive favorable consideration from the Federal Government. It is not improbable that payment of a sum of money equivalent to the cost of their restoration of the building might be favorably considered. We would strongly recommend that the matter be taken up with the proper authorities at once and pressed to a definite conclusion.

The report of the Government delegates, Hon. Walter M. Lea, and Hon. Benj. Gallant, concluded as follows: "and when your delegates referred to the claim for damages made before the Soldiers' Civil Re-Establishment, and cited the impossibility of the Provincial government operating it in its present enlarged condition and further pointed out that the military authorities had paid indemnities for alterations made by them in other buildings taken over for military purposes, the question was asked your delegates "What is the amount of damages claimed?" and it was intimated that such a claim might be favorably considered. Your delegates replied that it would be impossible to name an amount until an investigation had been made by a qualified person and that we would forward our claim for compensation when this would be accomplished and your delegates recommendthat such investigation to be undertaken and the claim forwarded at as early a date as possible.

HON. A. E. ARSENAULT asked if there was any correspondence with the federal authorities since the return of the delegates to which the Premier replied that he would look into the matter.

The House on motion of Hon. W. M. Lea, went into committee Mr. E. T. Higgs in the chair. The for second reading of an act to incorporate the Prince Edward Island Potato Growers Association. The bill was agreed to and ordered to be read a third time tomorrow.

On motion of Mr. J. D. Stewart the House went into committee for second reading of a bill to incorporate the Institute of Chartered Accountants of Prince Edward Island, Mr. E. T. Higgs in he chair. The bill was ageed to with some amendments and ordered to be read a third time tomorrow.

On motion of Hon. A. E. Arsenault the House went into committee for second reading of an Act to incorporate the Summerside Council, number 2070, Knights of Columbus. Mr. H. D. McLean in the chair. The bill was agreed to with amendments, and ordered to be read a third time.

Premier Bell moved the House into committee for second reading of an act to further amend the act to incorporate the Telephone Company of P. E. Island. Mr. Creelman McArthur in the chair. Clause 1 of this bill, which had elicited considerable discussion last week when it first came up for second reading, and which had been allowed to stand over, came up for discussion.

The clause read as follows:

The telephone company shall have for a period of five years, from the 31st, day of December, 1920, the exclusive right to conduct the telephone business for hire rental or tolls between any one point or points and any other point or points at which the company now has in operation a telephone line or lines within the Province of Prince Edward Island. If the company hereafter shall construct a telephone line or lines between any point or points not now served by it or from any point now served to any point not now served, then for the term aforesaid the company shall have the exclusive right to conduct a telephone business for hire rental or tolls between such points; provided however, that a telephone company may from time to time relinquish its exclusive priviledges with respect to districts which may be operated by rural telephone companies, the lines of which said companies are connected with the telephone company's system.

PREMIER BELL moved that the following be inserted in the clause!

Provided however that nothing in the act shall be construed as affecting the rights and privileges now enjoyed by all existing rural lines, or any lines that may hereto for be established in accordance with the provision of the Telephone Act and provisions thereto.

MR. J. D. STEWART objected to the use of the word "exclusive" in the clause which was very much stronger a term than previously used in the act. He moved that it be deleted from the clause.

MR. M. KENNEDY believed that the importance of the bill required that it should be given a more thorough consideration. The action of the telephone company in exercising the rights of their franchise has been causing a good deal of dissatisfaction throughout the country. He believed that by putting the bill through in its present state the members were taking advantage of their position and doing something of which the people would not approve.

MR. LePAGE agreed that while it was essential to keep in mind the rights of the rural lines, it was also necessary to protect the Telephone Company.

HON. A. E. ARSENAULT maintained that while justice is done to the telephone company it must not be done at the expense of the people of the province. This bill, as it stands will be satisfactory to neither the public nor the company. It is impossible to pass intelligent legislation upon it with the meagre information at hand. He strongly protested against being forced to go into the matter blindfolded. The information tabled by Premier Bell at the request of Mr. Arsenault was only a small part of what should be before the House.

The discussion on the clause was continued by Hon. J. J. Johnston and Mr. A. E. McLean.

At 6 o'clock progress was reported and the committee asked leave to sit again.

The House adjourned until 10 a. m. tomorrow.

Where's the Zam-Buk?

Is there a box of this famous herbal healer on the shelf ready for emergencies? It always pays to have Zam-Buk handy as it heads off skin trouble. Smeared at once over any cut, bruise, burn or sore, it soothes and heals like nothing else can. It is Canada's swiftest, cleanest and most perfect antiseptic skin healer.

HERE'S A SCALD—Mrs. A. B. Lloyd, of Ruby Creek, B.C., writes:—"I have found Zam-Buk fine in injuries, particularly for a bad scald I got recently. The prompt use of Zam-Buk took all pain and 'fire' out of the wound and left me fit to use my hand. More Zam-Buk healed the scald completely."

—A CUT THUMB—Mrs. W. Campbell, Penny River Station, N.B., writes:—"My husband, who is a railroad man, badly cut his thumb on the tin fastener of a box-car door. Though the wound was severe, dressings of Zam-Buk healed it in about a week's time."

—OR A SPRAIN—Mr. Clarence D. Black, Legal Dept., Transcontinental Railway, Ottawa, writes:—"I have often used Zam-Buk and always with satisfactory results. The last occasion was when I fell from a street car and badly sprained my ankle. Zam-Buk speedily took out pain and inflammation and put me right in no time."

If you have not already tried this wonderful healer, send a 1c. stamp (for return postage of sample) to Zam-Buk Co., Toronto. 60c. box all dealers.
