As The Guardian Employment and Information Bureau, established some months ago, has been so greatly appreciated, and has been the means of securing employment for so many people and help for so many business houses and households, it has been decided to establish in connection with this paper, an Advertising Agency. Thus any persons or firms desiring advertising in any newspaper outside of this city, can have same placed by The Guardian. They can thus secure the same rates as if they placed their order direct, and have each advertisement checked to see that it gets the proper number of insertions and appears as desired.

The Montague is a very powerful dredge, and will be a great assistance towards improving the harbors, ports and rivers of the Island.

Deafness Cannot be Cured. by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE Women's Baptist Missionary Union of this Province has concluded its meetings at Bridgetown, N. S. Of the \$14,304 raised during the year, Prince Edward Island contributed, \$702.10 There are 116 missions band in the Maritime Provinces including seven in Prince Edward Island. Mrs. D. Price, North River was appointed a vice president, Miss A. A. Wadman, Charlottetown, secretary and Miss Irene Clark, Bay View mission board superintendent for this province.

SOME attention should be paid to the trees planted along the Park Roadway While the majority of them give promise of growing into splendid specimens there are others which need pruning and care to bring them along successfully. Other- which are dead might be taken up and their places filled, either now or in the spring. In the case of a number of them the tree boxes are chafing the bark of the trees and this should not be permitted. The future appearance of this lovely promenade is too important a matter to be allowed to suffer for want of a little attention at the proper time.

The August number of the C. B. C. "Recorder" has been issued, and, apart from other matter, contains a complete report of the Commencement Exercises of last term; photographic groups of students, and excellent portraits of Principal L. B. Miller, His Worship Mayor Paton, Dr. Anderson, Chief Supt. of Education, Supt. Sharp, P. E. I. R. and others. Believing that the best and most honest advertising is secured by giving the publicity expressed opinions of leading men. "The Recorder" makes no apology for giving us the greater part of its space in this issue to make room for the excellent report of the Commencement Exercises as reported by its students, Misses M. F. Bradley, R. M. Gorman and E. B. Byrne. The public want to hear about the work and general standing of an Institution from an unbiased source, for, with deliberate advertising—it is sometimes hard for parents to decide on the safest and best place to send their sons and daughters for a sound educational training. The number is an excellent one, and should be in hands of all who contemplate a commercial career.
