CONSIDER YOUR SERVICE BEFORE PURCHASING FARM EQUIPMENT

POTATO SPRAYERS:—

Our sale of Seventy-eight Hall Liquid Sprayers last season in Prince Edward Island is ample proof that the farmers are (with the exception of a small few), sticking to the old, reliable system of liquid spray which has always stood the test. It is anywhere from 35% to 50% cheaper for each application and does not have to be gone over so often in bad seasons, which is ample proof of its superiority. We have what you require in either Horse or Tractor drawn, as well as the new, improved Power Take-Off driven all steel construction Machine on Rubber Tires with Six-Row Boom. Our Factory is located right in your Province where all parts are readily available. This is a service which alone is worthy of your consideration.

POTATO SCUFFLERS:—

We have just received a shipment of two Lever Scufflers with front and rear depth regulator, five reversible points, and three extra Huffer Blades. These are selling at a price which you cannot afford to pass up.

The Price is \$20.00

ROAD MASTER WAGONS, Rubber Tired:—

We have just unloaded a carload of these Wagons, fully equipped, on rubber tires. Our mass buying has enabled us to sell these at prices way below mail order Houses.

The Price of these is \$168.50 delivered

Rubber Tired MANURE SPREADERS, Tractor Hitch:—

We have also just received a shipment of these and they are certainly worth your while to investigate. They are equipped with Tractor Hitch and Jack on traction tread rubber tires, size 750 x 20. Our supply is limited, but the price is certainly right.

THRESHERS:—

Our production of Threshers for this year is getting low, but we still have a few in both sizes, and we expect to have our Machines with Blowers on Rubber Tired Transport Trucks, if required; we know you will appreciate being able to get these as they were not procurable in the past.

TRACTORS:—

We, as you are no doubt aware, are boosting Allis-Chalmers lines of Tractors which have made a superior name for themselves wherever used. We are apologizing for the short supply in the past, and do not believe that the future holds anything very encouraging as to supply. The reason is that they are just so popular that the Factory cannot turn them out fast enough. However, we have been promised a carload this month. This will be a mixed car of the various sizes.

MILKING MACHINES, and DAIRY FARM EQUIPMENT:

We handle the famous Woods line of Milkers and Dairy Farm Equipment. This is purely a Canadian made Milker and the service on them is 100%. We also sell the Surge Milker, but on account of the great demand for them in larger dairying sections, we cannot stock them. They are the one and only Milker which is different, being very highly recommended. We also have the Woods Milk Coolers and Farm Freezers. We can supply Watering Bowls at a very close price.

GASOLINE ENGINES:—

We believe we have sold more Briggs and Stratton Air-Cooled Engines than anyone, and on account of our increased buying power in these Engines, we are still able to offer them to you at \$63.00 for the 1 1/2 Horse Power size. They are very popular for a great many uses around the farm such as pumping water, operating small repair shops, running grinders, Potato Graders, Milling Machines, Washing Machines, Escalators, etc., and in fact their compactness and easy moveability has made them a real necessity on any farm, especially where electricity is not available.

PARTS AND SERVICE DEPARTMENT:—

We have increased our Parts and Service Department this past year in Summerside, and believe it is second to none in the Province, and while there are a few cases where the Parts are not in stock, we are keeping a monthly inventory and are doing our best to serve you in this Department. We have also started a Parts Department in Charlottetown which, while not so elaborate, can be fed from our Summerside Department, thereby giving you the best in service. We also are carrying a line of fast moving Parts with our Dealers, The O'Leary Farmers' Co-operative.

OUR MACHINE SHOP:—

We have recently installed in our Machine Shop a complete Welding equipment of the latest type, both Acetylene and Electric, and have secured the service of a competent Welder to handle this Department. We also installed a new and up-to-date Milling Machine for gear cutting. We believe we can take care of your repairs 100%. Our stock of Steel is kept up to a high standard in the sizes which are required for our production. In fact we believe we can give you a service of the highest order.
