"20,000 LEAGUES UNDER THE SEA"

Eight Reel Photoplay Found-ed on Writings of Jules Verne at Prince Edward.

THE PRINCE EDWARD THEATRE HAS AN

attraction extraordinary for its patrons this week in "Twenty Thou-sand Leagues Under the Sea." Jules Verne's remarkable prophetic story written long before the submarine was ever thought of.

MINARD'S LINIMENT CURES COLDS, ETC.

Verny was one of the world's great-est story-tellers and there is hardly a man living today but can recall with delight the pleasure afforded in boy-hood days by the reading of the great French author's wonderful romances.

THE FIRST SHOWING OF THE

photoplay form was put on at the Prince Edward yesterday before large and appreciative audiences. Many of the scenes which take place on dry land and on the surface of the water are interesting and out of the beaten track, but it is when the action is transferred to the bottom of the oc-ean that the picture makes its strong-est impression. Here the opportunity for new and startling effects, the al-most incredible views of the strange life in the depths of the sea, made possible by the photographic device invented by the Williamson brothers, brings a novel phase to motion pic-ture making.
