war ever devised by man, defying

bombs. The clockwork control is
set before hand to operate at a
certain moment and a specific
place. On arriving at the ap-
pointed moment, the engine
stops, and the whole machine

BOSTON, April 14—Nova Scotia
lobster fishermen will materially ben-

minion Government of collection
boats that will land lobsters in Bos-

and in better condition due to less
handling from trap to market.

During the fishing season, April 20

a week will be shipped from the
grounds on the Guysborough shore

will effect a saving of \$40,000 for the
season. In the majority of instances

mission merchants here, and the ten-
tative freight rate is \$3 a crate
against \$12 a crate as heretofore.

Strike On Indian
Railway Causes
Much Damage.

(Special to the Guardian)

BOMBAY, India, April 12—The
"passive resistance" strike on the
Great Indian Peninsula Railway

strike movement hitherto have con-
fined their activities to obstructing
the passage of trains by lying down
on the railroad tracks and have
blocked the way to stations and of-
fices of the railroad company, defy-
ing arrest.

Haji Sirajuddin, a Mohammedan

a known radical, was arrested at
Byculla Station shortly after the
bombing and charged with participa-
tion in the outrage. Sirajuddin had
a third-class ticket from Traptari.
Pieces of explosive found in his pocket,
led police to suspect him with
the making of bombs.
