O'Leary and Vicinity

Mrs. John Smith and daughters, the Misses Effie and Laurie, Berlin, N. H., recently arrived here to spend a holiday. Mrs. Smith is a daughter of Mr. Isaac Harris, of Knutsford. They are now staying with Mrs. Jack Pate, who is a sister of Mrs. Smith. Much comment is heard here regarding the inclemency of the weather but it would seem that in this respect we are more highly favored than our sister provinces for this party of motorists encountered a snow storm while passing through New Brunswick en route to this province.

Mrs. Naomi Gillis, recently returned to this vicinity from Songerville, Mass., where she and her son and his family have been residing for the past few years. Her many friends and relatives in this vicinity are glad to welcome her home again.

A notable exception to the general run of poor luck with poultry hatches this season is the experience of Mr. Alvin McIsaac, of Glenwood, who with an incubator which holds approximately 140 eggs has succeeded in hatching 116 chickens. Of this number 113 are still living. They are now several weeks old and are a particularly thrifty lot.

Dr. Kennedy, of Alberton was a visitor to this vicinity on Monday.

Mr. Peter Pate, formerly of O'Leary, recently motored to this vicinity from his present home in Brookline, Mass. He was accompanied by his wife and family. He remained only two days but the other members of the party intend spending the summer here, where they will be the guests of Mr. Pate's mother. They have received a cordial welcome from the many friends whom Mrs. Pate has made on previous visits here.

Mrs. Elmer McLennan, spent the week end in Elmsdale, where she was the guest of her sister, Mrs. Hugh Williams and Mrs. Stirling Matthews.

Mr. Forbes Kennedy has gone out

of business and his stock has been purchased by Mr. H. Jelly.

Mr. and Mrs. Claude Clow, formerly of this vicinity but now of Kensington, spent the recent holiday with the latter's mother Mrs. Susan Ellis.

Services in the United Church on Sunday, June 6th, are being held by the Mission Circle in the absence of the pastor, Rev. Mr. Profit, who is attending conference.

Mr. A. J. Matheson, O'Leary, attended the Liberal Convention while en route to the conference of the United Church.

The play "Molly Bawn," recently presented by the Lot 14 players in O'Leary hall was well attended and highly appreciated by the audience many of whom affirmed that it equalled if not surpassed any concert given here in recent years.

Mrs. Benjamin Moreshead, accompanied by Miss Rita Jelly, was a visitor to Summerside on Saturday.

Mrs. Alvin Waite, of Northam, spent the week end with Mrs. Pe'er Gofell.

Mr. and Mrs. Kenneth Campbell (nee Miss Isabel Phillips) have recently moved into the home which they purchased sometime ago from Mr. Geo. Sheen.

Mr. Artie Cameron, of Prince Motors Summerside, was a visitor to O'Leary on the 3rd. inst.

Mr. Wm. Campbell, of Mount Royal, is spending a few days in Conway with his father-in-law, Mr. Albert Boyle and Mrs. Boyle.

Miss Dorothy Sheen, Summerside, spent the week end with friends in this vicinity.

Mrs. Watson Silliker and daughter, Iva were recent visitors to Elmsdale, where they were the guests of the former's aunt, Mrs. Archibald Clark.

Mr. Preston Toombs, of Beatty Bros., was recently in this vicinity and from here motored to Tignish.

Mr. David Campbell, was a recent visitor to Summerside.

Mrs. Fraser Wells, Alberton, was a visitor to Glenwood on Sunday.

Mr. Carmichael, plumber has recently been engaged in installing gas tanks in this vicinity. Among those put in were a Premier at Mr. Art Halloran's Campbellton, an Ethyl at Mr. A. J. Pratt's, Bloomfield, and one also of the latter type at J. C. Wilkinson's, Springfield.

Mr. William Morrill, who recently purchased a motor cycle with side car sustained a bad shaking up and received severe cuts and abrasions on his face when he ran his motor cycle over the end of a culvert in attempting to avoid a collision with an approaching motor car. The doctor found it necessary to use several stitches in closing the wounds on his face. However the accident might have terminated more seriously if not for the fact that the automobile and motor cycle actually collided. Mr. Morrill is able to be around as usual and his friends hope that he will soon recover from the effects of his accident.

Mr. and Mrs. Archie Campbell and family of Mount Royal, motored to McNeill's Mills on Tuesday to visit the latter's sister, Mrs. Murphy.

Mr. Edward Boyle, of Conway, recently spent a short visit with his sisters, Mrs. Wm. Campbell and Mrs. B. Moreshead.

Mrs. W. Brooks, recently returned home after attending the assembly held in connection with the Nazarene Church, in Boston, Mass., and spending some time visiting her sister in that vicinity.

Mr. John Matthews and family motored to French River recently and spent several days with friends in that locality.

Repairs to the United Church Parsonage are now underway preparatory to occupancy by Rev. Mr. Baker and family.

Mr. and Mrs. Daniel Smallman, of Knutsford, motored to Travellers Rest, on Sunday to visit the latter's mother, Mrs. Smith. They were accompanied as far as Travellers Rest by Mr. William Smallman who was a visitor at the home of Mr. Oliver Smallman, of the Magic Fox Ranch there.

Mr. Albert Smallman has purchased a new Pontiac car and Mr. Lockerby Dennis has bought a new Chevrolet.

The Misses Sarah and Verna Harris were on Sunday presented with a life membership certificate in the Mission Band of the Knutsford Baptist Church.

The shipment of fertilizer which the O'Leary Produce Company handled last week and which was hauled by farmers in contiguous sections brings the total handled by the company this year up to thirty carloads which is one-third more than was handled through this medium last year. This indicates that the recent sharp advance in the price of potatoes has had its usual effect in increasing the acreage of this crop. During the past year this company has handled in addition to other farm produce and materials for seed treatment and spraying, a total of 210 carloads aggregating 157,500 bushels of potatoes. This company was formed several years ago by a few farmers with the object of facilitating the purchase of requirements for potato growing and for increasing efficiency in marketing. It is controlled by farmers in the vicinity and the manager, Mr. Perley McNeill, is a practical farmer. This enterprise has proven a boon to farmers in the vicinity as it permits those who market their produce at this centre to haul their potatoes when roads and weather are propitious irrespective of the condition of the market as they can for a nominal sum store them in the frost-proof warehouse and hold them until prices reach a satisfactory level.

Miss Gladys Tredenick, of West Devon, is spending a few days with her sister, Mrs. J. Matthews.—O.

IN MEMORIAM

OWEN RUSSEL McCLOSKEY

"In life we are in the midst of death." Death at any time, is sad but the tragedy leaves an ache in the hearts of the loved ones left behind, that only the Great Physician in His own good time may heal.

Such is the ache left in the home from out which Owen Russell McCloskey has passed to the home beyond.

Owen McCloskey, son of Owen McCloskey of Iona, was before his untimely death, working for Neil McDonald of Pinette. After putting in the crop for Mr. McDonald, he had intended to return to his home for the summer. He had planned to

spend Easter with his parents. On Sunday, April 13th, a neighbor boy, Angus Dougherty by name, called at the home of Mr. McDonald and asked young McCloskey to go with him to help take a shallop, lying to the east of Pinette Bridge, down the river below the Dougherty farm.

Both boys got into the boat, neither knowing very much about the handling of one, and started down the river. In order to reach their destination they had to pass beneath Pinette Bridge, but instead of going through the shallows, they steered the skiff through the channel, passing under the central span of the bridge. On coming out at the western side of the bridge the boat struck what was supposed to have been a submerged spile, and capsized, throwing both boys into the water. Dougherty managed to catch hold of the upturned boat, clinging to it until rescued, McCloskey, unfortunately was carried by the current some distance, making his

chances of self-rescue impossible. But brave, though unsuccessful, was the fight he put up for his life.

Yet it seems that in this as in all tragedies, panic played a losing part. While young McCloskey was struggling in the water and calling for help, several people were on the bridge, and means of saving life seemed to lie close at hand but the cool head and active mind were lacking. Two hours later the body was recovered by J. R. Ross, of Pinette and conveyed to the home of the deceased. Charles Pantheon, of Pinette, gave a floral offering—wreath—a silent tribute of respect and esteem.

"Iny," as he was lovingly called by those who knew him best, was a young man of upright principles, and a kind and affectionate nature, a boy loved by all who knew him and whose death at the early age of twenty-three casts a gloom over the whole countryside. He leaves to mourn their loss, a grief-stricken mother and father, six sisters and

six brothers, to whom is extended the heartfelt sympathy of the entire community.

The funeral which was largely attended, was held on Tuesday, morning, April 13th, at St. Michael's Church, Iona, where a Requiem High Mass was celebrated by Rev. P. S. Duffy, pastor of the deceased. The pall bearers were: Harry McKenna, Wilfred McKenna, Edward McKenna, Sophus Phelan, Joseph McTague and Timothy McTague. May his soul rest in peace.

Films of gold and silver, beaten to infinitesimal thinness, are being used to decorate foods in some parts of India, where the wealthy natives believe that these metals contain valuable medicinal qualities.

Following the wedding of Dr. W. Tweedell, English amateur golf champion in 1927, and Miss Dorothy Hillman, at Birmingham, England, recently, the bridal couple left the church under an archway of golf clubs.

SIX Cylinders make the Difference!

Just Drive a Chevrolet Six—
You will Realize it Instantly

IT'S a difference in smoothness. No vibration! No roughness! For Chevrolet is a Six—with the smoothness nothing less than a Six can give. Once you know six-cylinder smoothness you will never be satisfied with less.

It's a difference in speed—"pick-up"—pulling ability on the hills. For the 50-horsepower Chevrolet engine is the most powerful in the lowest price field.

It's a difference in riding comfort—due to lengthwise-mounted springs, with permanently squeakless self-adjusting shackles—and Lovejoy shock absorbers, front and rear.

It's a difference in safety—provided by weatherproof four-wheel brakes—Fisher non-glare windshield—water temperature gauge and oil gauge mounted on the dash—rear-mounted safety gasoline tank.

It's a difference in appearance—because no other car at Chevrolet's price can offer you Body by Fisher—the world's standard of beauty in coachcraft.
